Warning

Against Needless Fire Risks

Every fire you read about is a warning against needless fire risks. What would happen in your home if a fire broke out? Would walls and ceilings resist the flames, or let them quickly attack the supporting wood framework and spread to all parts of the house?

GYPROC Fire-Protective WALLBOARD protects the structure on which the safety of a building depends; acts as a barrier to the swift progress of flames and destructive heat. Like plaster, GYPROC WALLBOARD won't burn because it is made of Gypsum. It resists fire; gives time for help to arrive.

Don't take needless fire risks. Protect your home with GYPROC Fire-Protective WALLBOARD.

Sold by Builders' Supply and Lumber Dealers across Canada.
