LIVESTOCK MARKETING BOARD SCORES AGAIN

YES --- WE'RE TELLING YOU ---

Farmers all over the Province are realizing once again the value of having an organization REALLY interested in their Livestock Marketing problems, and big enough to exercise sufficient influence upon marketing outlets to hold prices steady, when found to be wavering.

During the past few weeks, hog buyers throughout Canada—and that includes this Province—were under the impression they were paying too much for hogs, and determined to bring about a substantial price reduction. This they succeeded in doing, first on the Montreal and other upper-Canada markets and, subsequently, and in close succession, in the Western Canadian provinces.

The Maritime Provinces were the last to come under the urge, but it became only partially effective. Through intervention of the management of the Livestock Marketing Board, the matter of price reduction for hogs shipped through our organization was "staved off", at least for the present.

We do not know how long this will continue, but farmers may rest assured we will never ease up in our effort to hold hog prices at the highest possible level.

Farmers can do a great deal themselves to assist in this struggle for maintenance of price by increasing the volume routed to the market through our organization. The greater the number of hogs we handle each week the more effective will be our effort for steady prices.

FARMERS—Just how you market your hogs is a matter optional with yourselves but the recent cut in price many of you experienced, when marketing as individuals, or entrusting your sales to livestock carriers, must have been a rude shock upon receiving your returns and pay cheque. Even hogs shipped by small groups of farmers (working together) got caught in the recent price slump. Only patrons of the Livestock Marketing Board escaped this drastic cut in hog prices.

Effective marketing of any commodity is an art, gained only after long practical experience. There is no room in the field of salesmanship, or guarantee of success, for the amateur. Farmers who wish to get the most out of their hog marketing should not employ such for so important a job.

We suggest that every producer make use of our marketing facilities when you have hogs to sell. We're a safe, sane and satisfactory marketing agency.

Attention All Water Users City of Charlottetown

Due to the lack of snow and rainfall this year all wells and water tables are showing a shortage of water. This fact, together with the large quantity of water used at recent fires and increased general consumption, has resulted in a definite shortage of water at this time.

We therefore ask all citizens to co-operate with us by using less water wherever possible, by avoiding all unnecessary waste and especially by having all leaks repaired immediately.

COMMISSIONERS OF SEWERS AND WATER SUPPLY, CITY OF CHARLOTTETOWN
