CANADA PASSED BY THE PRESS CENSORS. That rubber stamp means we can say Canada's cotton textile industry is 11 times ahead of its war production records of 1914-18. The industry is delivering about 215,000,000 yards a year of aircraft fabric, ammunition pouches, anti-gas cloth, camouflage netting, gun covers, parachute webbing, powder bags, uniform cloth, web equipment and other essential materials. Dominion Textile is proud to have a part in this. We also wish to report that our plant employees are earning 28% more per hour than in 1939, and we pay 5.4 times more in taxes than the total paid in dividends to our several thousand shareholders.
