FRENCH AND GERMAN ARMIES FACE TO FACE FRENCH CAVALRY AGAIN VICTORIOUS

SUMMARY OF THE SITUATION

The "biggest battle of the war" was reported yesterday, the scene being south of Mulhausen. Few particulars, however, came through and it is presumed the press censorship has been even more rigorously applied than in the early part of the hostilities. A great deal of anxiety prevailed, but from what little has been allowed to transpire it is evident the Allies have more than held their own. The Germans were yesterday naturally jubilant over the success of their arms at Mulhausen. Experienced British military officers, however, consider there is little to boast about in the recapture of this Alsatian town. The war expert of The Times expressed the opinion that the Germans have changed their plans as the result of the Mulhausen incident and intend operating against France north of Lorraine. A later despatch showed the Germans had sustained a disastrous defeat at Tongres, north of Liege, and were retreating to the frontier before the French cavalry. It is now accepted as authoritative

that the wreckage washed ashore at San Francisco was that of the two sloops of war, the Algerine and Shearwater in the fishery protective steamers of the Pacific Coast. How they came to their doom is unreported, but it was no doubt in consequence of a rumour of their fate that caused the Government to order Canadian shipping to keep to port, and to close the Canadian waterways. The enemies' cruisers must be not far from our coasts.

The German battle cruiser Goeben which escaped from the Mediterranean fleet has been tracked to the Dardanelles. She must now dismanacle or run the risk of being sunk for contravention of international law in seeking shelter in a neutral zone.

The Servians and Montenegrins are pushing on their campaign against Austria, and are reported to have scored successes before Sarajevo in Bosnia and in Dalmatia.

The Russians are at length moving forward and it is stated they are making for the German frontier their objectives probably being Breslau and Posen.

HEAVY ENGAGEMENT IN PROGRESS

PARIS, Aug. 12.—French and Belgian armies are engaged in battle with enormous forces that invaded Belgium according to official statement issued by the War Office. The French came into conflict with the Germans when they attacked the environs of Ghent in the department of Ardennes. The War Office states that according to its information this was an important engagement and that French troops were pursuing the foe. Belgian and German armies are fighting at Tillemont and according to the War Office Belgian army has energetically resisted German attacks.

TWO SMALL SLOOPS SUNK

OTTAWA, Aug. 12.—"The Rainbow is safe but we are afraid the little fellows are gone," was the statement of naval officials today in reply to a San Francisco despatch telling of there. The "little ones" are the Algerine and Shearwater. These are two small sloops of war used for fishing protection. The finding of parts of a British ship at sea gave rise to the fears that the Rainbow had been destroyed. Some wreckage was found in the neighborhood of the South Shore Life Saving station.

TERRIBLE SCENES OF BLOODSHED AND HEROISM

LONDON, Aug. 12.—Despatches to the Times from the Hague and through telegraph from Maastricht, sent under yesterday's date, agree that the struggle for the possession of the Ports at Liege is going on continuously and giving rise to terrible scenes of bloodshed and heroism. Noon despatches say the Germans were making fierce efforts to silence the forts nearest the city proper and the defenders were gallantly holding against almost constant bombardment.

IN THE FAR EAST

LONDON, Aug. 12.—The Peking correspondent of The Times telegraphs as follows:

"Replying to China's request, that the United States and Japan use their influence to protect China from the warlike activities of other nations, Japan stated that her attitude depended on the result of the British campaign. The time was ripe to consider China's proposal," it was said. The United States avoided committing herself.

STRICT CENSORSHIP

NEW YORK, Aug. 12.—Owing to the strict censorship the German side of the fighting is not received. Censorship established in Paris and London have effectually held up German news. In London very little news has been received from Liege. Fighting still continues with Germans holding the town and the Belgians the Ports.

MARTIAL LAW IN PARIS

PARIS, Aug. 12.—Martial Law is more rigorously enforced in this city daily. The authorities are particularly anxious to prevent the escape of important news and frequently take the precaution of tapping telephone wires calls, which are now made only in French. It is explained that insistence upon the use of language familiar to the police has been made necessary by the fact that suspected Germans were in the habit of telephoning in English.

AVIATOR'S BRAVERY

It is officially announced the French troops, around Spincourt in the neighbourhood of Muese forced the German cavalry to retreat, although the latter was supported by artillery. French aviators are constantly flying over zones where German troops are disposed without paying the slightest attention to the bursting shells of the enemy.

FRENCH ARMY EVERYWHERE SUCCESSFUL

(Canadian Press.)
LONDON, Aug. 12.—A despatch from St. Petersburg to the London Morning Post says the war news consists of mere scraps of intelligence regarding scouting but it is evident that the Russians are steadily forcing their way into German territory. Colonel Rehington, military expert of the Times, has come to the conclusion that the bulk of the German armies is about to operate against France, northward of Lorraine, and that that well-organized zone of concentration, Reichland, is almost entirely abandoned to favor the advance through Belgium.

French and German outposts are in contact along the entire line in Alsace and French arms have everywhere been successful, according to an official statement, issued by the War Office today. It is declared that the French Infantry had driven the Germans back to the Verdun Region inflicting heavy losses. A German battery of artillery was captured.

TOUCHING CEREMONY IN STRASBURG

PARIS, Aug. 12.—The crope festoons which for forty years hung from the monument of the City of Strasbourg, capital of Alsace, Lorraine, which stands in the Place De La Concorde, was torn down today and replaced by flowers and palm branches, while the tri-colored sash was draped about the figure. The ceremony was conducted in the presence of 2,000 members of the Federation of Alsatian Societies in Paris. M. Joseph Sakkoef, Mayor of the Eighth Arrondissement, embraced the statue, then addressing the gathering said: "The hour for revenge which we have prayed for unceasingly for forty-four years has at last struck. The French army is in Alsace. The red trousers are again seen on our plains and mountains. The gay bugles of France sound the charge at Altkirch and Mulhausen." There were not a few tears as the speaker concluded. The singing of the Marseillaise followed by cheers for Belgium, Russia and England ended the ceremony.

ITALY V. AUSTRIA

LONDON, Aug. 12.—According to the correspondent at Rome of the Morning Post, the relations between Italy and Austria are becoming most strained. FRENCH CAVALRY WIN A BRILLIANT VICTORY

(Canadian Press.)
PARIS, Aug. 12.—It is officially announced that the German cavalry who had reached a point near Tongres, Belgium, are being hurled back by the French cavalry and are in full retreat. As Tongres is about 52 miles from the nearest point of the French frontier this despatch indicates that the French army has moved more rapidly than was supposed.

THE SUBMARINE ATTACK ON THE BRITISH FLEET

EDINBURGH, Aug. 12.—The Scotsman prints stories of a witness of the naval battle between the British fleet and the German submarines. "The cruiser squadron on Sunday," the story runs, "suddenly became aware of the approach of a submarine flotilla of the enemy submerged, only the periscopes showing above the surface of the water. The attitude of the British in the face of this attack was cool and unconcerned. The enemy utterly misled when suddenly the cruiser Birmingham, steaming full speed, fired at the first ship. This shot was carefully aimed, not

at the submerged body of the submarine, but at the thin line of the periscope. The gunnery was superbly accurate. Thereupon the submarine now a poor blind thing, rushed along under water in imminent danger of self destruction from collision with the cruisers above. The sightless submarine then was forced to come to the surface, whereupon the Birmingham gunner fired second shot. This shot struck the base of the Conning tower ripping the whole of the upper structure clean, and the U-15 sank like a stone. The remainder of the submarine flotilla fled.

ST. JOHN ELEVATOR AND FREIGHT SHEDS BURNED TO THE GROUND

(Canadian Press.)
ST. JOHN, N. T., Aug. 12.—The I. C. R. grain elevator in the centre of the city, adjoining the I. C. R. Ry. Station, containing 350,000 bushels of grain, several cars and the I. C. R. freight and train sheds, were burned this morning. The damage is estimated at one million dollars.

The elevator was worked last night when 100,000 bushels of grain were placed on the Furness liner Rappahannock, bound for England. This is the first time the elevator has been worked since last spring. The elevator is supposed to be guarded by police as it is reported the Chief of Police received instruction

from Col. Showe of the Dominion Police to have the building guarded for fear of action by German spies supposed to be in the city. Whether guards were or were not placed could not be learned. No arrests have been made. The report is that the fire was of incendiary origin.

Nikolai Nikolayewitch
Chief of the first Conscript of the Russian Army.

DR. YOUNG ESCAPES From Russia With Karakule Sheep.

A cablegram was received yesterday announcing that Dr. C. C. Young, of Karakule sheep fairs, had arrived at Stockholm, Sweden, from Afghanistan. Dr. Young, who is a Russian, entered the Czar's territory as one of his subjects, with a view to obtaining a consignment of the famous Karakule sheep from Bokara. It was ascertained sometime ago that he had been successful in his mission, but it was feared that the outbreak of war would result in the Doctor being detained as a conscript of the Czar. The reassuring cable of yesterday sets all fears at rest; and Mr. J. Walter Jones leaves this morning for New York in order to receive Dr. Young and his precious cargo when they arrive from Europe, which they are expected to do in an American vessel.

BATTLE RAGING

PARIS, Aug. 12.—The biggest battle of the war is now raging South of Mulhausen, in Alsace, where the French army was forced to retreat from the town by advancing Germans, and it is entrenched and is resisting the massed German attack. The French line of retreat is covered and the French hold the passes across the Vosges Mountains. War office officials here state the withdrawal from Mulhausen is part of General Joffre's plan of Campaign, if the German Army proved numerically superior, as it has done, and they express confidence as to the outcome of the big fight now impending.
