## Are Your Foxes Troubled by Worms?

One of the most devastating maladies that effects your foxes is worms and intestinal parasites. Hundreds of young pups have died this year—thousands of dollars have been lost on the price of breeders that have been affected by this disorder—and hundreds of valuable pelts have depreciated in value through the presence of worms in the foxes from which they were taken.

MAC'S FOX WORM CAPSULES Are the result of over a year's testing, analyzing, and experimenting to produce a positive cure for this disorder and are now offered after they have been used with great success in many of the most prominent fox ranches in the province.

Mac's Fox Worm Capsules are made in two strengths, one for matured foxes and the other for young pups. Box, sufficient for treating several foxes, postpaid \$1.00
