Premier Lloyd George Wins Out Again

On a Resolution of Confidence He Receives a Majority Vote of 278. Makes a Fighting Speech on Labor Situation.

(Special to The Guardian.)
LONDON, April 4.—Triumphant in the House of Commons where he received a vote of 278 to 100 in favor of a resolution of confidence in the Government's foreign policy, Lloyd George today made a fighting speech on the labor situation. He received a majority vote of 278 on a resolution of confidence in the Government's foreign policy, and he made a fighting speech on the labor situation. He received a majority vote of 278 on a resolution of confidence in the Government's foreign policy, and he made a fighting speech on the labor situation.

Big Loan Anticipated To Finance Refunding

It is a Question Whether the New Loan Should be Floated in Canada, in Britain or United States.

OTTAWA, April 5.—Actual refunding money needed by the Dominion this year will be at least \$500,000,000 of which some \$185,000,000 will be required to meet the maturity of the first of the victory loans to fall due, the 1917 issue of five year maturity, and the balance for the consolidation of a portion of the debt due to the banks. How this money will be raised remains in the hands of Hon. Mr. Fielding, but the street anticipates that an internal refunding loan amounting to perhaps a quarter billion will be offered here, possibly in the form of a 5-12 per cent. loan at a slight discount. For the balance it is thought that Mr. Fielding will look elsewhere and it is just as probable that the British market will be tapped as well as the United States. For one thing a big issue across the border would bring the Canadian dollar up to a mechanical par for the time being which might result in an increase of unnecessary purchases across the line which in view of the Fordney tariff barrier against our main exports, would increase our unfavorable balance without much chance of correction. London banks are understood to have plenty of money available for Dominion issues and competition between London and New York should result in a very favorable situation from the Canadian viewpoint.

Passion Play Described By Rev. Dr. M. J. Smith

Interesting Illustrated Lecture Delivered to Large Audience at Strand Theatre Last Night.

Before a very large and appreciative audience last night in the Strand Theatre, Rev. Dr. M. J. Smith delivered a lecture illustrated by some two hundred lantern slides on the Passion Play as he saw it at Oberammergau, Germany, in 1910. The Reverend Lecturer was introduced by Rev. Jas. Rooney of the St. Dunstan's Cathedral staff, who presided. The programme was opened by Mr. Elzeur Arsenault who sang with fine effect "The Holy City." Rev. Dr. Smith described the origin of the Passion Play which was started three hundred years ago by the villagers of Oberammergau in the performance of a vow made after the visitation of a plague. The play is repeated every ten years. It has been twelve years now however, since the last production, owing to war conditions. The characters in the play, six hundred in all, are villagers and take a deep religious interest in the delineation of their parts. The lecturer had witnessed the wonderful drama of the life and

LONDON, April 5.—The employers' lockout of forty-seven engineering unions from the Amalgamated Engineers Union which was to have become effective tonight has been suspended pending negotiations between the employers and representatives of the unions which will open Monday.
