Giant Octopus Weighs 570 lbs.

(Canadian Press)

ST. JOHN'S, Nfld., Dec. 21. — A half dozen workmen hoisted Dildo's giant octopus aboard the scales today. And the huge tentacled body tipped the beam at 570 pounds—the biggest creature of its kind ever brought ashore in Newfoundland.

It was captured off Dildo in Trinity Bay by fishermen who found it entangled in their nets. The octopus put up a terrific battle for its life, threshing about the herring net for hours until it drowned itself finally, unable to tear away from the entwining meshes.

Brought to St. John's yesterday, it was measured and found to span 21 feet from the tail to the tip of the longest tentacle. The arm itself was 3 feet in length, tapering from the body to its end, and studded with suckers.

Fishermen along the coast believe its presence in northern waters is explained by the fact that immense quantities of caplin, never present at this time of year, have moved off the shore. The little fish would provide food for the great octopus.

Grapefruit Juice

An interesting experiment was carried out with grapefruit juice, says the Cold Storage News Letter. The juice was obtained by squeezing the grapefruit in the ordinary way and two samples were obtained; (1) clear grapefruit juice by straining the flesh of the fruit, and (2) juice with a certain amount of flesh contained therein. These samples were placed in the freezing room at a temperature of 12 to 15 degrees Fah. for four months. In each case the juice maintained its flavour and colour and was absolutely good at the end of this period. It kept for several days after it had been taken out of store.

A further experiment was made by placing a bottle of grapefruit juice in a temperature of 50 deg. Fah. This also kept well for the same period as the frozen juice; as a matter of fact, there was very little difference between the juice that was frozen and that which was chilled.

Currencies

(Canadian Press)

MONTREAL Dec 22—With demand for the pound sterling fairly heavy following President Roosevelt's announcement the United States had entered the market for silver, the rate recorded a sharp advance on Montreal foreign exchanges today. The pound closed at the high for the day, almost two cents above its opening level. At the end of the day it was quoted at $5.09⅝, up 2 15-16 cents from last night's final quotation.

The United States dollar eased to a discount of ⅛ of one percent, off 1-16 of one percent, while the French franc recorded an advance of .05 cent at 6.11 cents. Other currencies were unchanged to fractionally higher.

(Associated Press)

LONDON, Dec 22—The United States dollar ended at $5.10 to the pound today, only a fraction off from the exchange banks official closing price at $5.10¼.

Light offerings and lack of a strong commercial demand caused the dollar to slip after opening at $5 09 to the pound, in comparison to the overnight quotation of $5.08¾.

A gain was shown by gold currency, the French franc ending at $5.53 to the pound.

Dropping five centimes, the United States dollar closed in Paris at 16.36 francs (6.11 cents to the franc). The quotation yesterday was 16.41 francs (6.09 cents).

GRAIN

(Canadian Press)

WINNIPEG, Dec 22—President Roosevelt's silver policy and a better export trade in Canadian wheat combined to boost futures values for net gains of 1⅝ to 1½ cents in fairly active trading on the Winnipeg Grain Exchange today.

December wheat closed at 60⅝; May at 63⅝ and July at 64⅝ cents. The new Washington silver programme pepped up stock and grain markets in United States and resulted in Winnipeg wheat advancing about two cents against a five-cent rally at Chicago.

The southern maket failed to hold its gain but Winnipeg prices with the aid of export sales estimated at about 750,000 bushels, receded very little from the high points. Shippers reported all wheat offered overnight had been accepted by importers.

(Associated Press)

CHICAGO, Dec 22—Surprise announcement of remonetization of newly-mined domestic silver hoisted wheat 5 cents a bushel today, with most of the grain held at the last.

Grain trade comment leaned to the view that the remonetization plan was a gesture toward inflation. It was also intimated that the measure might facilitate export of the unsold portion of the 30,000,000 to 35,000,000 bushels of United States wheat earmarked for shipment abroad from the Pacific coast.

Wheat closed strong 3¼-4 cents above yesterday's finish, corn 1⅞-2¼ up, oats 1¾-2 advanced, and provisions unchanged to a rise of 17 cents.

(Canadian Press)

WINNIPEG Dec 22—
Wheat: Dec 60⅝; May 63⅝; July 64⅝B.

PRODUCE

(Canadian Press)

MONTREAL, Dec 22—Eggs took a sharp drop in price while butter advanced and other lines held unchanged on the Montreal dairy and produce market today. With most of the wholesale trading in Christmas poultry over, greater attention was paid to butter and eggs. No 1 regraded pasteurized butter in carlots or less advanced ½ cents a pound under the stimulus of increased demand, becoming generally 24 to 24½ cents a pound. A total of 96 boxes was offered for sale.

Graded shipments in carlots or less of fresh Ontario eggs dropped a cent to two cents a dozen, becoming mostly 34 cents a dozen for A-large, 30 to 31 cents for A-medium and 29 to 30 cents for A-pullets. Heavier arrivals caused the market to decline. Receipts totalled 353 cases.

Ontario cheese was steady at 16 cents a pound with offerings amounting to 41 boxes.

Potatoes continued at 75 cents per 80 pound bag with New Brunswick green mountains at 80 cents for similar quantities and Prince Edward Island green mountains at 90 cents for 90 pound bags.

Turkeys in large lots were mostly 18 cents for A-grade, 16 cents for B-grade and 13 to 13½ cents for C-grade.

Sales Exceed Expectations

(Canadian Press)

TORONTO, Dec 21—Nearly all Toronto business houses report that sales this year have exceeded expectations. Some houses report they are sold out or almost sold out, in certain lines due to the great Christmas buying rush.

Officials of large department stores with branches throughout Canada declare there has been "a very gratifying Christmas business from the Maritimes to the Rockies". Extra help has been hired.

THAT THE PEOPLE MAY KNOW

(A column of interest to all recording accepted facts and worthy opinions regarding the place of alcoholic beverages in modern life; as well as news of the progress of the campaign for a "dry" world.)

(Sponsored by the Grand Division, Sons of Temperance P. E. I.

(Forwarded for the Sons of Temperance Column by J. W. A. Nicholson, North Bedeque.)

PROGRESSIVE PROHIBITION

This little patch of red clay called P. E. Island is the last trench held by the Prohibition forces in the warfare against the Liquor Traffic. The other eight provinces have gone in for a system called "Liquor Control," not on any high moral principle, nor chiefly because there was any real expectation of reducing the evils of the rum business, but because governments were greedy for the revenue attainable. The liquor control method is a compromise with the traffic. It has already become notorious that governments welcome large returns from the business, even though this always means big sales, increased drinking, social misery, industrial waste, traffic danger, and moral degradation. Outside of Canada, the United States has just repealed the Prohibition Amendment. Some North European countries have given up the prohibitory experiment for other methods. In most other lands nothing more than local option has ever been tried. "The Island" stands alone in her loyalty to the principle.

It is easy to poke fun at her for this. So many people have no real moral insight or enthusiasm of their own. They live respectably. They are useful citizens. They may have real business ability, and be intellectually brilliant. They may occupy positions of honor and influence, and in the realms of industry, politics, or culture, and discharge the duties pertaining to these with efficiency, serving the public well. Yet these very persons are purely traditional in their moral outlook. Their spiritual ideals are those of a passing age, inherited, conventional, a bequest from the past. Such persons may help to keep society from degeneration and decline, but they are not pioneers. They will never lead in any movement of a progressive character affecting the moral welfare of society. On the common level, they play a useful part, but not for them the hardships of the hill-climbing adventurer. Indeed they will often sneer at him as a fanatic, hare-brained enthusiastic. But their children will reap the harvests of the fields discovered by the heroic pioneer. The Island can stand a good deal of such sneering the scorn and ridicule of the conventional-minded citizen. She has her chance to lead the way.

But the prohibitionist must himself be progressive. Our temperance forces in this province are a large and influential army. Nor should we forget that in all the other provinces and in other countries there are millions of the intelligent, high-minded, forward looking, level headed and warm hearted citizens quite as convinced of the value of Prohibition as we are here. In the meantime, the moderates and the wets have been able to secure a majority of votes or have gotten their way without such majority. Greed on the part of the traffickers, and appetite on the part of the drinkers, are tremendous forces to be reckoned with in any moral advance. And here is where the challenge comes to us in this province to improve the legislation, (by no means yet perfect), to secure more competent and more zealous officials for the enforcement and interpretation of the law, and where such changes in personnel are not immediately feasible for one reason or another, to arouse sentiment and get it expressed in ways that will be unmistakable to all who are entrusted with this duty. This is a task for our schools, churches, and temperance societies, and for that potent and wide'y influential agency, the public press. Lastly and most important, let us continue our efforts to promote total abstinence, the voluntary and personal elimination of the drink evil, as prohibition is the compulsory and public elimination of the drink traffic.

Win all you can to be "teetotal"
And vote for those who'll break
the "bottle."

PANMURE ISLAND WOMEN'S INSTITUTE

On December 12th. eight members met at the home of Mrs. Edwin Macdonald for their regular monthly meeting.

The meeting opened by singing "Silent Night" and the roll call was responded by a recipe.

The minutes of the annual meeting were read and approved.

The school and sick committees gave their reports. It was moved and seconded that a Christmas treat be purchased for a sick resident of the district also that one dollar be sent to the "Gyro Club" as payment for Christmas seals received.

The questionnaire on Agriculture was discussed and filled out. One new member joined the Institute. Mrs. Jos. R. Macdonald kindly invited the members to her house for the January meeting. This meeting is to be opened by singing "The Old Oaken Bucket" and the roll call is to be responded by "An Original Verse".

The programme for the evening consisted of a paper "Our Adopted Peoples Christmas Feasts" and "An Apple Contest."

The meeting then adjourned after which a very delicious lunch was served by Mrs. Macdonald assisted by Cecilia Macdonald.

THE ROGERS HARDWARE CO., LTD.

Soviet Atheists To Oust All Religious Forms

(By Stanley P. Richardson Associated Press Foreign Staff)

MOSCOW, Dec 21—A drive of the All-Union Godless Society to convert to the ways of disbelief those who retain their religious beliefs was in full swing today as Christmas approached.

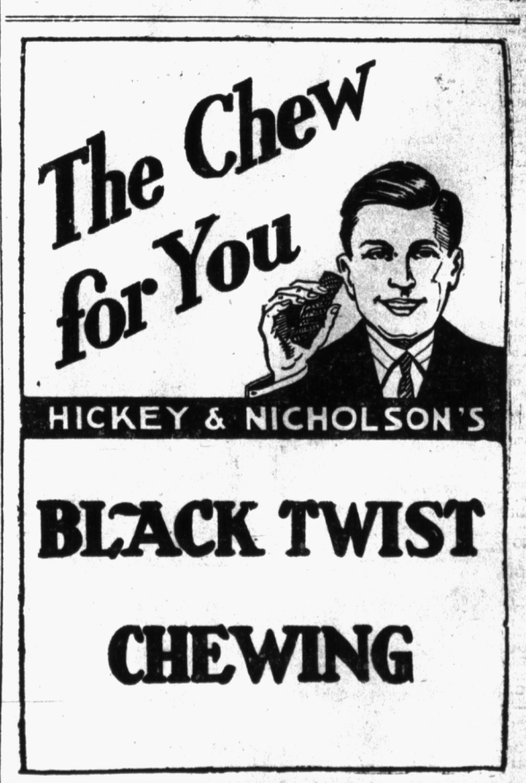
The Government itself set an example in Godlessness and demonstrated to the proletariat its complete indifference to the religious significance of the day. The central executive committee, the chief administrative arm of the Government, scheduled the opening of its winter convention for Dec 25.

The Atheistic Organization, acting as a private agency with the full support of the Communist party, relies on an intensive propaganda and educational campaign to attract people away from the churches, which still function legally and usually are crowded to capacity on Christmas and Easter.

"One hundred per cent attendance of workers at their jobs on Christmas Day" is the Godless Society's slogan, sounded by speakers in addresses to clubs, factory groups, schools, administrative units of all dwelling places, and even in the ranks of the Red Army.

Switzerland Centre Aluminum Industry

MONTREAL, Que., Dec. 21 — Switzerland owes its prominence in the almuinum industry to the plentiful supply of cheap electrical energy on which the manufacture of that commodity is based, states the Industrial Department of the Canadian National Railways. The Swiss industry antidates that of any other European country, dating back to 1888. At the present time there are fifty nine enterprises engaged in the production of aluminum and its products, the largest having an invested capital of 90,000,000 francs and employing in normal times about two thousand persons. The most important of the exports is raw aluminum in pigs, ingots, sheets and bars, of which there has been a heavy decrease (1932) over the year previous. Germany took 60 per cent of the total in 1932 followed by the United States 605 tons, the United Kingdom 562 tons, Belgium 470 tons, Japan 414 tons. The balance is divided between Germany, France and Czechoslovakia.



Dominion Fur Sales Ltd.

When we pelt your foxes—
They are pelted right.

When we clean your pelts—
They are well cleaned.

We repair defects where possible, but why have defects? They do not occur when we pelt and clean them.

We market your skins in Europe, where our connections are unexcelled.
