Get Your Garden Tools Here

That little plot of land of yours will yield enough vegetables to keep your table well supplied during the summer months. Think of the convenience of going to your own little garden, getting the vegetables you want, fresh and good without one cent of cost.

There's no labor to gardening when you use our improved garden tools—the work is pleasant, healthful and remunerative. Let us equip you with the tools you'll need to start gardening. We'll give you hints that will help with the work free. Call and see us today.

Fennell & Chandler Victoria Row

any grades and now there will only be one school in Summerside. Tenders will be called at once and work will be started about June 1st. Another excellent building designed by Mr. Chappell is to be dedicated tomorrow. The Baptist Church at Moncton, N. B.

WERNER HORN DENIED WRIT OF HABEAS CORPUS.

BOSTON, May 13.—No writ of habeas corpus will issue in behalf of Werner Horn, the officer of the German army who attempted to destroy the international bridge over the St. Croix River, according to an opinion handed down today by Judge Morton in the United States District Court. The petition filed for Horn by ex-Congressman Joseph F. O'Connell and Daniel T. O'Connell is dismissed by order of the court. Horn will be obliged to remain in East Cambridge jail until he secures bail of \$10,000 or is acquitted by a jury in the United States District Court on the charge of violating the laws regulating the carrying of explosives on a common carrier. It is alleged in the indictment that Horn carried the dynamite for use in blowing up the bridge over the New Haven and Boston & Maine railroads from New York to Vancouver, Maine. Horn claimed in his petition for habeas corpus that he was entitled to his release on the ground that he was illegally removed from Maine to Massachusetts to answer to the indictments found against him here.

CANADIANS STOOD BACK TO BACK FIRING IN BOTH DIRECTIONS

LONDON, May 13.—A dispatch to the Daily Mail from Northern France says the Princess Patricia's regiment of Canadian Infantry, backed by other British regiments, suffered terribly during the bombardment by the Germans of the British trenches west of Zonnebeke on Saturday. The bombardment was almost the heaviest of the war. The Germans had an overwhelming mastery of artillery. Many deeds of heroism are credited to a small group of the Canadians who stood back to back firing in both directions on the enveloping Germans. The trenches in which they were fighting were soon knocked out of shape by the heavy shells, but the Canadians continued fighting. Their ranks being cut to pieces.

PEOPLE'S CHURCH. Service at 7 p. m. Preacher, Rev. D. McLean.

DISAPPOINTED BY WILSON'S ADDRESS

LONDON, May 12.—Most of the morning papers fail to comment editorially on President Wilson's Philadelphia speech. The Standard, however, praises the address, and says the President "has shown during these trying weeks of German insults a moral courage of the highest order." "It is rather satisfactory," the Standard continues, "to note the calm and pacific tone of President Wilson's first public utterance since the disaster, for no interest of ours would be served by America's entrance into the war and such a development might in many ways, injure to the enemy's advantage." The Express offers the opinion that the speech was too idealistic and added: "We understand, of course, that London is the other cheek requires exalted courage, but it is unfortunate such a course is absolutely certain to lead to more suffering. Germany has taken the world back to the fourteenth century. President Wilson is eager to drag us before our time into the twenty-second. Nobody in this country, however, has any desire that the United States be involved in this war unless impelled by its own pride."

The Mail prints a column on interviews with prominent Americans in London all expressing disappointment that the President's Philadelphia address did not include a forceful denunciation of Germany's action.

"VINOL builds you up and makes you strong. For young and old—\$1.00 bottles. E. A. FOSTER, Druggist, 9951-5-14M31.

GATHERING UP WITNESSES FOR THAW IN CANADA

SHERBROOKE, Que., May 11.—Frank K. Johnston, one of Harry K. Thaw's legal advisers, was in the city yesterday submitting witnesses for the defence in the coming trial. Ever since Thaw's arrest he has tried to secure a trial before a jury as to his sanity. Unless something unforeseen turns up this trial will take place during the week of May 17th. Witnesses from Sherbrooke who will appear at the trial are: Dr. G. L. Hume, Dr. Ledoux and Dr. Noel, who will give medical evidence; H. H. Ingraham, C. D. White, V. E. Morrill, Ald. Ewing, J. E. Smith and one or two others.

Mr. Johnston left for Coaticook last night, and while there will request the attendance of Dr. Shurtleff, Dr. Stening, H. Rousseau and Paige Thornton. He will then go to Colebrook, Littleton, Lancaster and Grovelton, where other witnesses will be summoned. Mr. Thaw has reserved sixty rooms at a New York hotel for the witnesses for the defence. Mr. Johnston stated that Thaw's chances for freedom were never brighter. Public sentiment had turned in his favor, and only on Wednesday of this week the New York World a paper which has heretofore been against him, sent one of their men to interview him, and the interviewer concluded his article by saying Thaw was rational in every respect, and his answer to various questions showed how well posted he was in the affairs of the world at large.

PRESBYTERIAN MISSIONS IN TRINIDAD

The following interesting letter from Rev. W. T. and Mrs. Green, Presbyterian missionaries, Coova, Trinidad, will be of general interest to all: Balmain Manse, Coova, Trinidad. 24 15

To the F. M. and H. M. Society and Mr. B. Hunter River, P. E. I. Our Dear Friends:—The beginning of this letter we want to thank you for the very practical interest you take in our Mission and my object in writing is to show you that your expenditure in time and money is to good advantage. What you have accomplished here and elsewhere is for Jesus' sake. That is the highest motive and all-sufficient, and it will prompt you to do more and better work than anything else, but if I can give you an idea of what the Gospel is for the Indian people of this Island it cannot fail to increase your interest.

You can scarcely imagine what heathenism means. You have read and heard about the heathen, but you will not easily get a true conception of the Moral and Spiritual condition of the people. There is no fear of God before their eyes, of a reward or a punishment, and you must not think of them as wholly bad for they are not. There is in them still a great deal of kindness and compassion. Some of them are better than others. Generally speaking the higher castes are more good in them, and are capable of more good than the lower, but when it comes to a Moral test these people are nearly always found wanting. When it is to their advantage to do good they scarcely understand it is wicked. They excuse themselves a dozen ways. They have a wonderful faculty for making a lie look the truth. I do not suppose there is one heathen among one hundred thousand in Trinidad who will not be, and the worst of all they do it without shame or fear except when they are found out. This is perhaps the most hopeless feature of heathenism. This is the rat in the heart that no ordinary remedy can cure. Would you be surprised if our Christians sometimes lie? Considering the lines upon which salvation is accomplished—body and spirit it is too much to expect and yet. As a great difference. There is a sense of fear and shame developing in our people which will in time make them as truth-telling a people as any of the face of the earth. It is a very great thing. Christianity to say that it has produced Indian wives and women who will not lie. It is as much a miracle as the opening of blind eyes. It is the miracle of raising to life a dead in the spiritual sense.

Take one more phase of the heathen life and we can read. Few indeed know secretly anything of the past and very little of the present except the petty talk and gossip of the village where they live. Can you imagine their topics of conversation from day to day? and just like other people they talk and talk more than others, just as in Canada.

But what can they have to talk about? There is the old question—'What's to eat?' How shall we make the most of our chances for this world? Of course this is the question in Christendom, but here the question is limited pretty much to what satisfies the animal. The village feud, or the family feud is a live topic and then there are topics the commonest that I cannot name. There is hell, hell, it is not a circle, but a circle, or nothing to bring each near to the other. No Bible, no God, no good book not even a newspaper. You cannot imagine how narrow the heathen life is. In this respect the Gospel is work of a great range. In a few years the majority of the Indian people will be able to read and write. Last year 12,500 pupils attended our schools, the most of these scholars taking thorough Bible instruction daily as well as the common school course. The broadening and enriching influence of the school can be over estimated. The school is also telling on parents who never were in school. They have a kindly feeling towards the Mission where they know their children are getting good. The fact that we have 4,500 pupils in our Sunday Schools shows at least that the parents are not opposed to their children being trained as Christians. The whole tendency of the Canadian Mission work here is as a shrewd old pundit said, is to give eyes to the Indian people. It is a rather wonderful way a broad intelligent interest our trained laborers take in the affairs that concern every true citizen. They possess the instinct to learn, and it is fair to say that no form of truth interests them more than the Bible.

A lack of self control is a feature of the heathen life. The raw heathen easily becomes as irresponsible as a madman. In fact he becomes a madman. They often and easily commit the great crime. Not a mile from here the other day in broad day light before witnesses a man, Isolanus of his wife hacked her to pieces and came to the police and gave himself up. This often happens. This evening since I began this letter I had a man locked up for threatening his wife; and one awful curse in this country is liquor. Between the manse and where that poor wretch is locked up there are seven rum shops. You would guess it is at least ten miles, but it is only two. The man has been in liquor for some days. Sometimes they take the law upon to give them courage to do what they threaten. Satan's ways are strange. I could fill volumes with what I know to be true in this respect but I will not saddle you. The law of the land can punish and it does but it cannot cure. It does not seem to check this crime in the least. The Gospel of Jesus Christ working through our

teachers upon the minds and hearts of these 12,500 children is doing more toward lessening crime in one year than the law with all its machinery and expense can do in ten. We are truly thankful for the law, and as far as I know it is impartially and justly executed, but the law cannot cure any more than the old Mosaic law could. It can only condemn and execute. The Gospel alone can cure and it is doing it more quickly, but no vital disease as this is cured without patient application.

You will want to know if the people you are helping are trying to help themselves, along financial lines. They are doing pretty well. Our average per church member last year was \$7.33, but some of our ordinary times that amount, and their incomes are small. The children are responding splendidly to the teaching that "It is more blessed to give than to receive." Some days ago I was visiting the Sunday School. There were sixty scholars, but some of the ordinary cents and this was just an ordinary offering, and you must remember that these children are nearly all very poor. On District No. 11 which has four preaching stations we spent last year \$28,13 and received in offering (offerings) \$236. A short self support of \$22.47 for this district. This does not mean that this district is able to finance its own spiritual supply for not nearly enough was spent upon them. This year there will be more spent, what has been done for the people they respond heartily. Last Sunday here in Balmain in a small Thank Offering Service \$21.08 was given. One man had no money in coin, but he sent a rooter that for size and beauty might have been taken a prize at a Canadian Exhibition. He was sold and the proceeds turned over to the Fund. Yesterday I met a man in the road who some years ago promised to give \$35.00 to the Church. Some time after he quarrelled with the Church and left. After some years he got back, and he did not forget his promise. He had a heavy financial loss, and was unable to pay in full but last year he paid \$15.00 and yesterday he told me he intends to pay \$25.00 in a few months. It is a tribute to a man's character here to say that he pays his debts. This man pays big debts because it is right and because he believed in the Church.

This is not the only way these people are learning to help themselves. You have heard of the theological class of five just graduated in the Ministry. They are closing to you a photograph of the new class just entering that in five or six years will graduate as Ministers. Besides those in the group there are two others. All of these have been successful school teachers and already have done a considerable amount of pastoral work and preaching. You would be quite surprised to hear how well they preach. Now it is away past bed time and the mosquitoes are becoming desperately plentiful and vicious. We will excuse me if I close. If I have failed to make clear in this Christian enterprise here is worthy of all your aid for it, worthy for its own sake, worthy a thousand times for the Master's sake then the fault is mine, or we here feel it is abundantly good. Pray for us that the word of God may have free course and be glorified. With kindest regards from your dear friends, W. T. and MRS. GREEN.

NEW FIRM OF ARCHITECTS

The Guardian has great pleasure in introducing to its readers the new firm of C. B. Chappell and Hunter, Architects. This firm has lately been formed for the practice of architecture throughout the Island and will, no doubt, in time extend its operations to the mainland. Mr. Chappell, the senior member of the firm is well known as a builder of fine churches in the Island and mainland buildings both on the island and mainland, designed in a practice extending well over thirty years. Mr. Chappell is a member of the Royal Canadian Architecture Institution of Canada, and his partner, Mr. Hunter, is a licentiate of the Royal Institution of British Architects, so that both gentlemen come before the public with the very highest recommendation. Mr. Hunter has lately been mainly engaged on the rebuilding of St. Dunstan's Cathedral and other buildings in connection with the Roman Catholic Diocese of the Island. He is now engaged on the rebuilding of the High School in Summerside. The present High School will be thoroughly remodelled and an annex 40 x 90 feet will be added to the East side. The whole building, when completed, will be 90 feet square and two storeys high with flat roof. The building will have twelve classrooms 23 x 28 in size, seven of which will be on the first floor. There will be connecting corridors sixteen feet wide on the first floor and also the principal's office. The second floor will have five-class rooms, a teacher's room and a splendid assembly hall, 40 x 48 feet, which will accommodate 300. The basement will contain play rooms for boys and girls and also toilet rooms and lavatory, which will occupy the whole of the basement of the annex. The cellar of the old building will be taken up with boiler and coal room. The basement floor will be of concrete. The building will be heated by steam and will have an excellent system of ventilation. The main entrance, which is now from the West, will be from the South in the new building. When remodelled it will be practically a new building. The walls are of brick and will be finished attractively with Nova Scotia free stone. The building will be up-to-date and modern in every respect and will be one of the finest of its kind in the Province. The addition is for the prim-
