THE Natural History and Antiquarian Society meets next Tuesday. Charles Palmer Esq., will read a paper upon Primeval Man.

READERS of Tryon notes may have noticed that the creamery of that place was to be moved to Albany. A large number of people were dissatisfied with the arrangement, so our enterprising and industrious butter-maker, A. E. Venning, has decided to build a creamery, at his own expense, in Tryon. He has secured a piece of land from W. W. Lord, Esq., situated along side of Lord's Hall and bordering on the river. Mr. Rich Lord has the contract of getting out the frame. Mr. Venning is one of the Ontario boys who came to this province to make butter. He worked at Gowal Brae and at Vernon River; for the last 4 years he has been running Tryon creamery. Mr. A. C. Crawford, accompanied by his father and sister, intends starting for the Western States about the 1st of May. Their farm was purchased by Mr. William Francis for \$3,000.

Prof. Jordan's lecture on Rudyard Kipling drew a good audience to the parlor of the First Methodist Church last evening and proved a genuine treat to every one present. Rev. Mr. Campbell presided very happily. The lecturer, whose resemblance to Mr. Kipling's portraits was remarked upon, introduced his paper with a number of new and pleasing anecdotes about the author of the Recessional. He sketched his early surroundings in India, his school days, the development of his story-telling powers, his methods of literary work and the first gradual development of the public appreciation for his writings. A just and discriminating estimate was given of the man and his work, interspersed with quotations from a number of his poems. Following Prof. Jordan's paper, which was heartily applauded, Miss Sayre read with admirable expression and taste one of Kipling's shorter poems. The vote of thanks was moved by Mr. McCready seconded by Mr. W. E. Bently, supported by Prof. Shaw and Dr. H. Johnson, all in warmly appreciative terms. At the close Rev. Mr. Campbell impressed on the students present that Kipling's diligence had contributed as much as his genius to his great success. The National Anthem was then sung.

A Good time is promised to all who come to the pronouncing bee and entertainment to-night.

MR. GEO. CARTER returned on yesterday afternoon's train from Summerside where he had been on a short business trip.

BETWEEN twenty and thirty young ladies and gentlemen will take part in the pronouncing bee in the schoolroom of the First Methodist Church to-night.

I. O. F.—Meeting of Court Avondale to-night at 8 o'clock in the Mechanics' Hall, New Frowse Block. Initiation and payment of dues. A full attendance is requested.

WE are very sorry to hear of the death of Miss Christiana Campbell, who died on the 13th inst. The deceased was the 2nd daughter of the late Peter Campbell of Bonshaw, and leaves two sisters, Mrs. Isaac Clark of Kensington, and Mrs. Artemas P. Wright of Middleton, and one brother John W. Campbell of Chatham N. B. to mourn their loss. She was spending the winter with her sister Mrs. Wright when she became very ill with heart trouble and was bedfast only a few days when death ended her sufferings. She died trusting in the merits of a crucified Redeemer, and had no fear of death. She was of a trustful and loving disposition, and won the hearts of all, who came in contact with her, consequently her friends are numerous, who will be deeply pained to hear of her death.

Dearest sister thou hast left us,
And thy loss we deeply feel;
But 'tis God that hath bereft us,
He can all our sorrows heal.

"That old Carpet must be replaced by a new one."

Yes, here's another difficulty you will undoubtedly encounter in house-cleaning season (although we think we can be of aid to you here) so much so even that you will not deem it a difficulty but a pleasure, for when you have seen our pretty patterns in Wilton, Axminster, Moquette, Brussels, Tapestry, Wool; etc., and been acquainted with the prices, you will be glad it is time for the old carpet to make its exit. EASTERN NOTES.—The wheels are again going on our roads here, though there are still some bad spots. The wind is from the north-east, cold and raw, carrying the dampness and chilliness from the immense fields of ice which surround all our northern and eastern coasts, and which extends from the East Point, south and west as far as the eye can see.—Some trawls are set off the Red Point and Basin Head, as room will be at a premium there this summer, cod-fish are not expected for some time yet; herring are caught in Souris Cove, but no nets are set farther east as there is too much ice floating round. The lobster fishermen are making extensive preparations about the East Point for setting a large number of traps when the ice clears away.—William Flood of West River is working at a wind mill to drive a saw for sawing wood.—A few of our men are going to the States this spring, but there certainly is not the usual exodus. I do not attribute to any changed political conditions, but rather to the fact, that many of them now realize that if they would work as hard at home, as they do in the land of the stranger, they would acquire that competence and independence for which they seek; would help to develop the resources of their own country, and enjoy the society of true manhood and womanhood, which abounds in many sections of our land.—Your friend John G. Scrimgeour was making glad the hearts of the fishermen by distributing the bounty cheques a few days ago. There may be some hopes for him yet as I find a wonderful metamorphosis in Austin McDonald, member of King's, who this session is an ardent prohibitionist, though voting against it for a political life time. Wonderful conversion.

Around ? The Dodging Question
Is often practised. We won't do it. We don't need to say our lumber is as good as you require—it's the BEST THAT GROWS. No need to tell you our shingles are as good as are going—they're out to our order—can't be equalled.
There's no question about it—every customer will back it, each buyer advises it—THE BEE HIVE IS THE PLACE for Lumber.

FOR BUSINESS WEAR.

Our made to order Suits make any ready made imitation seem ridiculous by comparison. To be sure, counterfeiters pass for genuine coin and brass for gold at a distance, because both are yellow but the difference will out; brass isn't gold and ready made isn't Tailor made. The two are easily distinguished, one is cheap the other isn't cheap, one fits the other doesn't fit; we fit perfectly and invariably. Our large stock of Suitings gives every customer an ample field of choice in materials, Vicunas Cheviots, Broad Cloths, Serges, Worsted, Scotch and Irish tweeds, West of England Trousers and Canadian tweeds.
