### PROHIBITION AT HOME

Sir,—We have been quoting largely from the United States Statistics showing the perfectly wonderful results that follow prohibition because out of forty-eight states, eight have had prohibition long enough to give conclusive evidence and also because reliable statistics are available every year.

It may not be generally known that Canada has given for the extent to which it has been tried just as satisfactory results as in the United States. We have only one province, Prince Edward Island, entirely under prohibition, but several others have had sufficient prohibition to show very definite results.

When Prince Edward Island prohibited the retail sale of liquor it had more insane than any other province in Canada. On account of its reputation and its insular position it had attracted a large number of patients from outside of the island. This fact, the criminal record, the liquor interest as evidence that prohibition increases insanity which shows to what lengths they will go to defend the traffic. The following statistics for the older provinces show that there is very little difference in the insanity record because there is very little difference in the amount under prohibition. The new provinces are not counted because at this time Saskatchewan and Alberta had no asylums and the others were young.

Per ten thousand Nova Scotia had 33.9; Ontario 34.9; Quebec 32.4; New Brunswick 26.7.

When we come to the statistics of drunkenness and crime they give a smashing blow to the traffic in liquor. In 1913 Nova Scotia had 8.0 convictions for drunkenness per thousand; British Columbia had 21.3. The criminal record is still more remarkable, the last census report gives the following convictions for crime per ten thousand population: Prince Edward Island, 1.1; New Brunswick 3.8; Ontario 25.5; Manitoba 27.9; Alberta 40.0; British Columbia 42.9. These figures show that the wettest provinces have nearly forty times as many convictions for crime as the driest one and the convictions decrease with the amount under prohibition or local option. You would think after that, that the liquor defenders would shut up but they won't. In my next I hope to give some remarkable examples of liquor misrepresentation.

I am, Sir, etc.,

### HAPPENINGS OF THE WEEK

The route marches of the No. 2 Siege Battery, are daily events looked forward to eagerly by young and old. As the khaki boys march by they are greeted with smiles all along the way. No one is too busy to devote a few minutes to this pleasant duty, made even more so as the boys swing a long to the stirring music and words of the popular song of today.

Keep the home fires burning. While your hearts are yearning: Though your lads are far away They dream of home; There's a silver lining, Through the dark cloud shining, All the boys come home.

One of the pleasant features of this week was the banquet given by the ladies of the two Methodist Churches in the Hertz Memorial Hall. It was a delightfully planned affair and the boys in khaki deeply appreciated the kindness shown them.

Mrs. Artemas Lord received a letter yesterday from her daughter Mrs. Ernest Ford, who with her young son are now on their way to Australia having sailed from England on Oct. 23rd. Mrs. Lord who is going by way of the Suez Canal, posted her letter at Gibraltar, it having been written while en route. She speaks of the trip as delightful so far, and among the interesting happenings mentioned the ship's store in which any thing may be purchased from a pie to a pair of boots. The water trip will occupy six weeks and her many home friends, with whom Mrs. Lord was a genuine favorite, will await her safe arrival with much eagerness.

Lieut. Colonel and Mrs. Jenkins entertained at dinner on Thursday evening in honor of Colonel Peak and officers of the No. 2 Siege Battery, other guests being Premier Mathieson and Major Bartlett. The table was exquisitely dainty, patriotic emblems giving a studied color to the napery, cut-glass and silver. Having a ideal host and hostess the dinner was much enjoyed by the guests.

Premier Mathieson is looking splendid after his pleasant trip through the Canadian West where he was widely entertained and met numerous former P. E. Islanders, all anxious to hear tidings of the Capital Province. Among the newcomers who are being heartily welcomed to Charlottetown this week is Prof. McCready's family who have taken Mr. T. C. James house on the corner of Grafton and Pownall Streets, for the winter months. Prof. McCready, who has been here for some months, has already won for himself quite a wide friendship which will be most agreeably extended to Mrs. McCready and family.

Mrs. Herbert T. Shaw, formerly Miss May Fitzgerald of this city, received for the first time since her marriage on Thursday of this week at her pretty home at "The Linton," Montserrat.

The popularity of the boys of the 105th Abegweit Highland Regiment goes on apace and daily their maneuvers are watched with pleasure and interest. In the church parades they are second to none and are altogether a jolly good bunch of fellows making rapid progress in drill and march under their popular officers.

Mrs. Percy Pope left early this week to spend the winter months in Ottawa.

Mr. and Mrs. Carson Flood leave next week to take up their residence in Halifax much to the regret of their many friends here.

Mr. and Mrs. Ernest Jarvis returned to Ottawa this week after a very delightful holiday the guests of Dr. George and Mrs. Warburton.

Hon. Charles Dalton is being welcomed home this week after his extended trip to the Canadian West.

Mrs. Kaiser of Halifax is being welcomed home this week by her numerous friends. She is the guest of her parents, Dr. and Mrs. Anderson.

The Daughters of the Empire have furnished a room over the Bank of Nova Scotia where they will carry on their Red Cross Work and meet for social intercourse. The society is doing splendid patriotic work, and this much needed and nicely appointed room will no doubt aid them greatly.

The ladies are taking a lively interest in the celebration of St. Andrew's night this year, which is to be made the occasion of a patriotic concert and dance in the beautiful F. W. Colledge Hall. This week the tickets are being sold quite largely and the success of this Scotch Anniversary is an assured fact.

Canon and Mrs. Simpson and Mrs. Watson spent this week in Halifax with their sons who are leaving very soon for the front. They were accompanied by Miss DeLolis.

### WE CANNOT BE BETTER THAN OUR FOODS.

If our foods are trash, and rich, refined foods always are, our bodies must be trash. The amount of human sickness proves the trashy nature of our foods. Our greatest error is that we eat for our eyes and palate and not with common sense. Our digestive anatomy makes it absolutely necessary that we have coarse grain foods unrefined. Dr. Jackson's Roman Meal is a whole grain food, with tasteless flax meal and bran. It nourishes better than meat, prevents indigestion, and positively relieves constipation or money refunded. Ask your doctor. Do not stir Roman Meal porridge. All grocers—10 and 25 cents.

### Half the Permanent Force May Go To The Front

OTTAWA, Nov. 18.—The different units of the Canadian permanent corps now doing garrison duty in the Dominion will be given an opportunity to send half their officers, non-commissioned officers and men to the front. The practice up to the present has been to keep them at home for training purposes. A number of Canadian officers now at the front will, instead be brought back for instructional work during the winter, according to an announcement by the Minister of Militia this morning.
