

NA-DRU-CO LAXATIVES

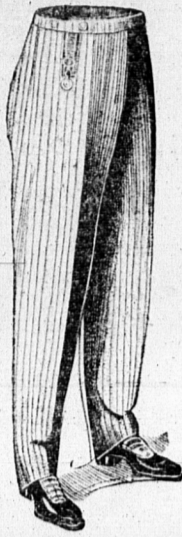

are new and entirely different from ordinary preparations. They accomplish their purpose without disturbing the rest of the system, and are therefore the ideal laxative for the nursing mother, as they do not affect the child.

Compounded, like all NA-DRU-CO preparations, by expert chemists. If unsatisfactory we'll gladly return your money.

25c. a box. If your druggist has not yet stocked them, send 25c. and we will mail them.

National Drug and Chemical Company of Canada, Limited, Montreal.

Watson, Montreal.—S.

—The Guardian has received a copy of Hardware and Metal, a magazine published in Toronto, which gives a photographic reproduction of the gun ad of Brace, McKay & Co., Ltd., Summerside, which recently appeared in the Guardian. It is considered by the editor of that magazine as a splendid sample of special advertisement and the firm deserves credit for their efforts as their extensive trade is due not only to a good system in handling customers but also to good advertising.

—An event of more than usual interest took place on Tuesday, September 26, in the pretty chapel of St. Malachi's, Kinkora, when Miss Florence Hamill, daughter of Patrick and Mrs. MHamill, Freetown, was united in the holy bonds of matrimony to George Sherry, son of James and Mrs. Sherry, Fernwood. The ceremony was performed by Rev. Pius McDonald of St. Dunstan's Cathedral, Charlottetown. The bride who was prettily attired in a tailored suit of blue, relieved by touches of Kelly Green, was attended by her sister Miss Laura, of Summerside. The groom was ably supported by his brother Fred of New Glasgow. After the ceremony the happy couple drove to the residence of the bride's parents where a sumptuous wedding breakfast was served and where a reception was also held in the evening for the happy couple. The customary "charivari" clothed in regalia peculiar to that body gathered at the house in the evening to extend congratulations. The wedding presents were beautiful and numerous, all testifying to the esteem in which the contracting parties are held in the community. The numerous friends of Mr. and Mrs. Sherry wish them a happy journey through life.

—James Farrell, Lot 16, was a visitor to Summerside yesterday.—S.

—All news, advertising and subscriptions in Alberton and vicinity should be handed to H. Clark, Agent. drtf.

—Lorne McLellan of the Royal Bank of Canada, Dalhousie, N. B., is spending his holiday at the home of his parents, Dr. A. A. and Mrs. McLellan, Summerside.—S.

—William Williams, student at McGill, who has been spending his holidays at his home in Tyne Valley was a passenger by the Empress yesterday morning en route to Montreal.—S.

—Fred Sherry has returned to New Glasgow, N. S., after spending a pleasant week at his home in Fernwood. While home Mr. Sherry attended the marriage of his brother George.

THE QUEBEC BRIDGE WILL BE THREE FIFTHS OF A MILE LONG.

The new Quebec Bridge, according to contracts awarded, will cost \$12,000,000. The bridge is on the line of the Transcontinental Railway, where it crosses the St. Lawrence River near Quebec, and will be the largest cantilever bridge in the world, the suspension span being the longest single truss span ever designed, exceeding that of the celebrated Forth Bridge, Scotland, by 90 feet. In working out the design, Mr. Graham has had in consultation a commission of the world's most expert bridge engineers, whose work has extended over a period of two and a half years. This will be the only bridge over the St. Lawrence River east of Montreal, and will be used by the Transcontinental Railway and any other roads that may require it. It is expected that the bridge will be ready for traffic by 1915. The St. Lawrence Bridge Company, which succeeded in competition with German, British and United States firms, is a purely Canadian company, comprising the Dominion Bridge Company, Montreal, P. Q., and the Canadian Bridge Company, Walkerville, Ont. The design which has been adopted will have K web system in the cantilever and anchor arms. The suspended span is of a modified Pratt type. The length of the centre span is to be 1,600 feet. The total length of the structure is 1,228 feet, or about three-fifths of a mile. The suspended span is 640 feet long, 110 feet deep to the centre and 70 feet at each end. The cantilever arms are 580 feet long, 70 feet deep at the end and 310 feet high over the main post. The anchor arms are 520 feet long, the width of the bridge between the trusses is 88 feet. The bridge will be 150 feet above high-water. The depth of the water in the centre of the river is 280 feet. All members in the anchor arms and those immediately over the main pier as well as the floor arms, will be built of carbon steel. The cantilever arms and suspended spans will be of nickel steel. The piers are all to be built of cement concrete below water and granite faced masonry filled with concrete above water. The abutments are to be of granite masonry. The caisson over the main pier on the south side will be 80 feet in length. The north side will be built in two sections, each section being 65 feet long by 70 feet wide. The bridge will accommodate a double track railway, and will have a four-foot sidewalk on each side for foot passengers. There are over 100,000 cubic yards of masonry in the piers and abutments. The weight of steel in the superstructure is estimated at 100,000,000 lb. The transportation of this immense quantity of steel will require the use of 1,677 freight cars of 60,000 pounds capacity, or 67 trains of 25 cars each.

Loss of Appetite

Is loss of vitality, vigor or tone, and is often a forerunner of prostrating disease.

It is serious and especially so to people that must keep up and doing or get behindhand.

The best medicine to take for it is the great constitutional remedy

Hood's Sarsaparilla

Which purifies and enriches the blood and builds up the whole system.

Get it today. Sold by all druggists everywhere. 100 Doses One Dollar.

"Cut Out" Coal Extravagance

There's just as much room for economy in buying coal as any other necessity of life.

While Inverness Coal has more heat units to the ton than any other coal it costs no more than the common coal.

The use of a little judgment or "horse sense" will tell any person that the coal with the greatest amount of heat-producing qualities is the most economical to buy. Inverness is properly screened coal—every particle of foreign matter is extracted, leaving nothing but a good, uniform standard of clean, screened coal.

Buy the coal that will save dollars.

That Comfortable Feeling Depends on the Underclothing You Wear, and Stanfield's Fills the Bill to Perfection

Why Should You Buy Stanfield's Here ?
1st Because 2nd

In red and blue label weights we get the drawers made heavier than the shirts to provide against the extra wear they get. The additional wool put into the drawers increases the cost to us, but we prefer giving our customers better satisfaction.

It is severely tested for us before leaving the factory, and is positively guaranteed not to shrink. We stand behind this guarantee and will refund the purchase price of any Stanfield's unshrinkable underwear garment that fails to fulfil this high standard.

BLAZER

More Good Words From Experienced Furnace Men For the **ENTERPRISE BLAZER FURNACE.**

It has met with such great favour in the East and the West.

Summerside, P. E. I. Aug. 21st, 1911.

The Enterprise Foundry Co. Sackville, N. B.

Gentlemen,—

For the past three years I have been installing your BLAZER FURNACE, and it has given every satisfaction. The fire pot in this furnace is one not used in any other furnace and is in itself worthy of a decision in favour of the BLAZER, besides its heating and fuel saving qualities which are unequalled.

(Sgd) The Thos. Johnston Co.

Why not prepare now for the cold days to come and install a heating apparatus of unquestioned power and economy—a furnace that will pay for itself in the fuel and labour saved? The Blazer will fill the bill, as hundreds of users testify. Send for circular or book of references.

THE ENTERPRISE FOUNDRY CO. Sackville, N. B.

STRATHCONA SEES END OF WAR

HALIFAX, Oct 3—"I do not think that the Turkish-Italian trouble will last very long and I do not believe that any other power will be drawn into the fight," said Lord Strathcona in the course of an interview.

In splendid health and spirits and carrying his ninety-one years as lightly as if he had not yet reached the Biblical three-score and ten, the High Commissioner for Canada, in London, had some interesting things to say, but would not discuss politics, although he spoke with enthusiasm of Canada as a great self-governing unit in the greatest Empire the world has ever known, and is confident that the Dominion will continue to progress as it is doing now. He also voiced the opinion that emigration from Great Britain to Canada is a splendid thing, as men from the Old Country will help to make the western part of Canada loyal to

SHERIFF KILLED OTHERS WOUNDED

JONESVILLE, Va., October 3—In a fight between a Sheriff's posse and a young woman, wanted as a murder trial witness at Gibson's Station, Va., today a Deputy Sheriff was killed and two other officers wounded, one fatally. The posse was beaten off, and another has been organized here to regain the bodies of the victims and arrest the men who did the shooting.

The dead man is William Collins, Deputy Sheriff of Bell County, Kentucky, John Collins, the Sheriff, will die, and George Tucker, Sheriff of Lee County, Virginia, was seriously injured. The posse headed by James Collins, went to the home of James Smith, near Gibson's Station, Va., to arrest Mrs. Ziralda Denny Barnett wanted at Pineville, Ky., as a material witness against her brother Charles Denny, accused of a murder that occurred near Middleboro, Ky., several months ago.

the Imperial idea. With regard to the Dominion being the best possible field for the men who want to enjoy the privilege of perfect freedom, His Lordship said that this was so well understood that Canada needed no particular advertising.

His Lordship, in speaking about the coming of the Duke of Connaught said that His Royal Highness would make a model constitutional governor, and that he had always taken a great interest in Canadian affairs. As an instance of this, Lord Strathcona had pleasure with which the Duke had received the Fenian Invasion Medal, although it was not bestowed until thirty years after the conclusion of the campaign. He also mentioned the interesting fact that the Duke and Duchess had been guests in his Montreal house, and spoke of the Duke's intimate knowledge of the French language, which would enable him to come into close touch with French matters in Canada.

We grate and attend to shipping of furniture and household effects. Beer & Weeks 8-28drt
