

ENGINEER TALKS OF SOUTH AFRICA

Man Who Ought To Know Says the Country is Harassed by the British Government... Has His Fears of Revolution.

New York, Dec. 20.—E. H. Garthwaite, the British Mining Engineer, who for the last eight years has been attending to the Rhodes Mining interests in Central South Africa, arrived here yesterday on the Atlantic Transport Liner Minneapolis. He will start for California today, where he will take a month's rest.

Mr. Garthwaite has come directly from the neighborhood of Victoria Falls, on the Zambesi River, and spoke enthusiastically yesterday of the project of harnessing the Falls for power. He said:

"The Victoria Falls are the largest in the world, and when the work of utilizing them for electric power is completed I am confident that it will revolutionize the diamond industry in South Africa. I mean by this that the transmission of power from the Falls to the mines will reduce the actual working cost about 40 per cent. The great horde of coolies now at work can be in a great measure dispensed with, and the high powered steam engines used in running the ore crushers will be supplanted by dynamos which will be the power transmitted from the Falls, 67 miles away.

"The power will be used also in the working of the gold mines at Witwatersrand, some 700 miles from the Falls. The project is being backed by Lord Kelvin and R. E. Blondin, of Paris, Prof. Kingenber, Berlin and Dr. E. T. Isot, of Berlin. Sir Douglas Fox and Sir Charles M. Galloway, N. B. "Rubbed on my slight, trouble is gone by morning. I have proved Neville's a great medicine. Everyone says he says, and Neville always makes good, 25c. bottles sold everywhere.

Mr. Garthwaite said South Africa has picked up considerably since the war. "It is a great country," he said, "but it is harassed by the British government much in the way this country was 120 years ago, and there is great danger of similar results."

Mr. Garthwaite said the reports heralding the cotton of Rhodesia as a rival to American cotton were absurd. The African cotton, he said, was exceedingly coarse and could not at anytime compare with the cotton of the United States.

ATTACKED BY ANGRY BULLOCK

Ernest Dunbar, of Guelph, Has Nose Broken and Face Cut and Bruised

Guelph, Ont., Dec. 20.—Attacked by a bullock in a slaughter house on Tuesday afternoon, Mr. Ernest Dunbar was very seriously injured.

Perhaps it is in the neck or shoulder. First thing is a good rub with Nerviline. No more speedy remedy can be adopted. When applied to the muscles Nerviline gives them flexibility and vigor; fullness, softness and stiffness disappear. "Whether in the chest or throat, nothing can surpass Nerviline," writes G. B. Denton, Lumber Merchant at Oak Bay, N. B. "Rubbed on my slight, trouble is gone by morning. I have proved Neville's a great medicine. Everyone says he says, and Neville always makes good, 25c. bottles sold everywhere.

seriously injured. But for the assistance of some others in the place he would have fared even worse. It occurred in the slaughter house of M. A. Barber. A bullock was led in and the animal was excited as it failed to stand successfully. Malnourished with pain, the animal turned and at a moment's notice it was upon Mr. Dunbar, who happened to be Ernest Dunbar. He was thrown to the ground and trampled on the face before the bullock could be driven back. After being carried out from the house Mr. Dunbar was unconscious for a full hour's time. On examination it was found that his nose had been broken and one eye was badly bruised and lashed.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupies space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any fun's expenditure to this end be adjudged extravagance.—American Medical Journal

Before you get Pen-Angle garments all the shrink is taken out. Pen-Angle Underwear keeps you comfortable as well as warm, because the short fibres that make some underwear itch are taken out of Pen-Angle wool. In a variety of fabrics, styles and prices in all sizes for women, men and children, and guaranteed by your own dealer. Perhaps you want to do your Xmas shopping in a hurry. I can save you lots of time. I can show you as many nice useful articles to give in five minutes as you could see in a half a day visiting the different side-line furnishing counters in general stores.—H. H. Brown, The Young Men's Man. 12-22dlf-14.
