

SYDNEY TO BE THE PORT.

SYDNEY, April 1.—One of the harbor commissioners of North Sydney who has just returned from Ottawa stated to the Herald that the government had definitely decided to make North Sydney a terminal port of the fast Atlantic service. This coincides with Mr. Mulock's views as expressed in a recent interview in London.

BIG HEARTED BEN.

A. C. P. R. Engineer who never loses an opportunity to help a fellowman in hard luck.

HAYWOOD, Man., April 1.—A pathetic hard-luck story, but with a very happy ending is being told in this neighborhood. The subject of the story is Peter Lavique, a wood chopper, and the hero is Ben Rafferty, the well known C. P. R. engineer. As told by Mr. Lavique himself, it is something like this:—

"I have a family of five. It takes me all my time to keep the wolf from the door. When I am well and able to work hard every day, we can get along, but for the last few years my back has been failing me.

"At last it gave out altogether, and I had to quit work. I tried day after day to do a little chopping but had to stop and come home again. I was in such despair for my poor family, that I would have shot myself, had I not met Mr. Ben Rafferty.

"He bought me two boxes of Dodd's Kidney Pills. I commenced on three pills a day. In two weeks I was working as hard as ever, and have not had any trouble since."

AN EASY WAY.

To Keep Well.

It is easy to keep well if we would only observe each day a few simple rules of health.

The most important thing is to keep the stomach right and to do this it is not necessary to diet or to follow a set rule or bill of fare. Such pampering simply makes a capricious appetite and a feeling that certain favorite articles of food must be avoided.

Prof. Wiechold gives pretty good advice on this subject; he says: I am 68 years old and have never had a serious illness, and at the same time my life has been largely an indoor one but I early discovered that the way to keep healthy was to keep a healthy stomach not by eating bran crackers or dieting of any sort on the contrary I always eat what my appetite craves but for the past eight years I have made it a daily practise to take one or two of Stuart's Dyspepsia Tablets after each meal and I attribute my robust health for a man of my age to the regular daily use of Stuart's Tablets.

My physician first advised me to use them because he said they were perfectly harmless and were not a secret patent medicine but contained only the natural digestive tones and diastase and after using them a few weeks I have never ceased to thank him for his advice.

I honestly believe the habit of taking Stuart's Dyspepsia Tablets after meals is the real health habit, because their use brings health to the sick and ailing and preserves health to the well and strong. Men and women past fifty years of age need a safe digestive after meals to insure a perfect digestion and to ward off disease and the safest, best known and most widely used is Stuart's Dyspepsia Tablets.

They are found in every well regulated household from Maine to California and in Great Britain and Australia are rapidly pushing their way into popular favor. All druggists sell Stuart's Dyspepsia Tablets, full size pkgs. at 25 cents and for a weak stomach a fifty cent package will often do fifty dollars worth of good.
