## PERSONALS

Hon. Chas. Dalton and Mrs. Dalton came to Charlottetown yesterday from Tignish.

Hon. A. E. Arsenault, Summerside, came to Charlottetown by the Express last night.

Messrs Reagh Tinney and James Brady, Charlottetown, spent a very pleasant week end at Hartsville.

Mr. Samuel Doyle and bride returned by the Northumberland last evening from their honeymoon.

Hon. James McNeill, Commissioner of Public Works, was among those arriving in Charlottetown by the express train last night.

Mr. Vincent Callaghan, Ottawa, arrived in Charlottetown last night on a visit to his parents, Mr. and Mrs. John Callaghan, Grafon St.

Mrs. J. R. Darke left yesterday morning for Providence, R.I., where she will pass the winter months with her mother.

Miss Sellar, dressmaker, of this city, leaves by this morning's train en route to Boston, where she will spend three months visiting friends.

Mr. Daniel J. Shaw, who has been spending his holidays at his home in Ugg was in the city yesterday on his way to his school at the Head of Hillsboro.

Messrs Wm. McLeod and Arthur Coffin drove to Charlottetown after a nightfall on Thursday night, conveying the lecturers on Powdery Scab to Charlottetown.—L.

Mrs. Andrews, who has been visiting her sister, Mrs. J. B. Russ, Charlottetown, leaves this morning on return to her home in St. Andrew's, N. B. En route she will visit relatives in Malpeque and Summerside.

Rev. Dr. McKinnon, Principal of Pinehill College, N.S., who preached an eloquent sermon from Matthew xvi 3, in St. James' Church on Sunday evening, left Charlottetown yesterday morning for Halifax.

Mr. A. McCannell, keeper of the Drill Shed, who was rather seriously injured some weeks ago as the result of an accident—the door of the shed having fallen on his back—is so much better as to be able to be outdoors. Mr. McCannell's friends are pleased to see him around again.

Mr. Horace McEwen, Superintendent of the P. E. I. Railway, came in from Ugg yesterday morning by the Murray Harbor Express. On Sunday he supplied the pulpits of Orwell Road and St. Andrews Church in the place of Rev. Dr. McEwen, who is suffering with a bad cold.

Mrs. Harold Thorne and her little niece, Miss Imojene MacNeill, who have been visiting the former's parents, Mr. and Mrs. Neil Currie, Rocky Point, and Mrs. Chas. Newson, sister of the latter, leave this morning for their respective homes in Winnipeg. Miss Sadie MacNeill, of Rocky Point, leaves with them for the same place. Mrs. Wm. Mutch, Rocky Point, sister of Mrs. Thorne, accompanies them to Summerside.

"There is more real pleasure in a Marguerite, than any other medium-priced cigar on the market. A trial will convince you of the superiority of the Marguerite. Price 10c. each, 3 for 25c. The Two Macs, 149 Great George Street.

## CANADIAN TROOPS REVIEWED

**BY LORD ROBERTS.**  
SALISBURY PLAIN, England, Oct. 25.—The week end in the Canadian camp has been marked by visits from three distinguished figures connected with the Imperial forces, Lord Roberts, Bishop Taylor Smith, Chaplain General, and Dr. T. K. Macnamara, Financial Secretary of the Admiralty. Lord Roberts, accompanied by Major-General Alderson and Major-General, the Hon. Sam Hughes, motored down on Saturday morning and reviewed the Canadian troops. Although showing signs of his age, the veteran Field Marshal, who is now in his eighty-third year, paid a brief visit to several miles apart, which are each of the four camps, which are the lined-up troops in each camp, exhibiting the greatest interest in the men and all the arrangements. A third distinguished visitor to-day was Dr. T. J. Macnamara, Financial Secretary of the Admiralty, who is the Canadian-born son of a private who was once stationed at Halifax.

## TRURO MAN BURNED TO DEATH

IN FIRE IN HIS BARN.

TRURO, October 26.—At four-thirty o'clock this morning, an alarm was rung in for a blaze on Cottage street. The fire department quickly responded and the fire was discovered in a barn owned by a man named Barney Quinn. The barn was filled with hay and the flames were well advanced when the firemen got there. After the conflagration, the firemen were horrified in finding the charred body of a man, which, on a later examination was found to be that of the owner of the building, Mr. Quinn. A horse and several hens that were in the building met the same fate. It appears that Mr. Quinn had returned from the centre of the town, where he had spent the evening and had evidently gone in the barn to see if everything was all right and had probably taken a weak turn. He was a great smoker and in falling probably set fire to the hay with his pipe. The deceased was about 62 years old, and owned a small farm out on the Hilden road. His wife, at present in the United States, one daughter home, and a son, Joseph, at present in Calgary, survive him.

## GOD KEEP THE KASIER WHEN TRUTH IS TOLD

Patient at Bad Nauheim Says Country Is Being Woefully Deceived.

ENGLISH ALWAYS INSULTED.

Pity for France, Fear of Russia—Hatred of England is People's Attitude.

ROTTERDAM, Oct. 26.—(Delayed.)—I have seen George Edwards, manager of the Gaiety Theatre, who had been at Bad Nauheim suffering from heart trouble since May 5. He was permitted to leave on Saturday upon the urgent request of the American Consul, who said that Mr. Edwards would die if detained much longer. Mr. Edwards said:—"We had an awful time. No sooner did the war break out than the English visitors were insulted, jeered at and abused, not only by residents, but even by the waiters at the hotels, who refused to speak a word of English. "Most of the English visitors were elderly persons, who were staying for the benefit of their health. About fifty are still there, unable to obtain the money sent them, and enduring petty spite and irritating restrictions. "The Germans profess pity for France. For Russia they have contempt, mingled with fear. For England they have the bitterest hatred. We had no idea how the war was going. The German stories made gloomy reading. In my opinion, however, the Germans have been badly deceived by their rulers. I would not be surprised to see a revolution when they learn the truth. They are patriotic enough, men, women and children, but from what I could hear from the wounded, many soldiers have had enough, and when the German people have had enough it will be "God Help the Kaiser."

"An American journalist reported my case to a Chicago paper and as the Germans are extremely anxious to be well thought of by Americans, they decided to let me go, but my health did not trouble them."

## HOW BRITISH ARMY IS FED.

PARIS, Oct. 26.—Unobtrusive, but marvellously efficient. It was the British Army Service upon which this verdict was passed and what lends it weight is the fact that the man who uttered it not only had had full opportunities of forming a judgment right up at the front of the British lines, but he himself, when at home in England, is probably one of the most experienced organizers in the country. "Marvellous efficiency," repeated this authority. "Those London motor delivery vans, driven by London busmen, are maintaining a service almost as regular as they do at home, and though their work is not so spectacular as that of the troops in the firing line, they take their share of danger, too, for the motor wagons that carry the ammunition and supplies not only go right up to the front and sometimes come under fire themselves, but they have also frequently been compelled to pass through districts infested by the enemy's patrols, and they never know sometimes when they pass through a wood whether a volley from unseen Uhlans lurking there where they sit before they even suspect that there is an enemy there.

## As Well Fed as at Home.

The feeding of the English army in the field is indeed being carried out so well that the soldiers themselves admit that with allowance made for the difficulties of supply necessarily prevailing during the time they have been actually under fire, they are as well fed as at home and the officers praise especially the bacon.

The soldiers who have now been fighting for a fortnight on the Aisne feed in different fashion, according as they are actually in the trenches engaging the enemy, or held in reserve. The whole of the infantry of the British force is not, of course, in the firing line manning the trenches at once. The trenches are held by "shifts," changing usually at night,

## BRITAIN'S SEA POWER MAY BE DECIDING CARD

Not Only is it Starving Germany But is Aiding in Land Campaign.

MOVING TROOPS RAPIDLY.

Transport by Water Twenty Times Faster than Forced Marches.

NEW YORK, Oct. 23.—The Times today, under the caption "British Sea Power," says editorially:—"The reports of former meetings state that the Dakota Red resists the disease? Mr. Holmden: As far as I have gone, I have not found a Dakota Red or a cross-bred infected. Is the disease really very harmful There is a destructive form but it has not been found in P. E. Island. It, however, shuts the potatoes out of the American market. You say it is not found in any of the states except Maine? I suppose you are aware that Maine and the Maritime Provinces supply the whole of the seed potatoes for all of the other states. You also say Belgium is free from this disease. Are you aware that Belgium imports large quantities from Germany and the British Isles? Does not this embargo seem rather strange? I am not prepared to discuss that. The United States have imposed it, and we are here to give you information regarding its nature and the best way to get clear of it.

What steps are being taken to have the embargo removed? Mr. Gussow went to Washington last July and made recommendations which have been accepted by the Federal Board of Horticulture. These negotiations must be put through by the British Ambassador at Washington, and if the war had not broken out the likelihood is they would have been completed before this. I cannot say the form they will take but I think I am safe in saying that they will permit of potatoes being sent from this Province into the United States under certificate.

## AN OLD OFFENDER CAUGHT.

For years it has caused endless trouble, but when Putnam's Corn Extractor was applied, he came out, roots and all. Any corn or wart cured in twenty-four hours by "Putnam's Extractor." 25c. at all dealers.

## RICH STRIKE OF GOLD AND SILVER IN ALASKA.

OTTAWA, Oct. 26.—The Mines Department reported to-day the details of a wonderfully rich strike of gold and silver which has been made in the Broad Pass district, 250 miles north of Weward, Alaska. C. H. Collins, of Prince Rupert, sends the report. Great ledges, wide and deep, are reported to have been found, bearing exceptionally rich deposits of gold, silver, lead and zinc. There is a stampedede of miners and prospectors to the district. The Canadian Mines Department will send two geological experts to Broad Pass with a view to determining the probability of an outcrop to the eastward in the Yukon.

Buy Rexall Remedies and help swell the Patriotic Fund. From now until December 31, we will give 5 per cent of our total sales of Rexall Remedies to this great cause. MacKinnon Drug Co., Cor. Great George and Kent Streets. Metf.

so as to save the relieving and retiring bodies of men from being fired on as they go.

Those who have left the trenches march back to a sheltered position in the rear, where they are in comparative security from the German shells and can rest in peace till their turns for duty comes round again. Sometimes this safe resting-place is protected by a rise of ground; sometimes it is deep in the thick woods that stretch in places behind the British line. The Camerons have been lucky; they have found a great underground sandstone cave, rainproof, windproof, and shellproof, where half a battalion can sleep and eat and move about as freely and almost as comfortably as in their barrack-room at home.

When the soldiers are back here in reserve the men have an excellent diet. They get bacon, cheese and jam and tea, and often even of excellent After a fortnight without the long marches to which they were accustomed in the first few weeks of the campaign, many of them are getting perceptibly fat.

## Hot Tea in the Trenches.

When their turn came to go up again for their spell—generally 24 hours—in the trenches they take a stock of preserved beef and biscuits with them. That is the main supply for the day, and it is not as unpalatable as it sounds, for the biscuit is of excellent wheaten flour and is easily broken—not teeth smashers the old kind of biscuit was. But sometimes even there in the trenches they have hot food brought to them from the rear. And the orderlies who come along during a lull in the firing with a big can of hot tea hurry and often with a despatch of the gratitude they get, for the German guns may open fire again at any moment, and when "Jack Johnson" are flying, the only safe place is underground.

And so, there, under the shelter of the earth parapet, outside which the German shells are bursting, the English private eats his ration as comfortably as if he were at a picnic and with far more appetite.

## FARMERS MEETING IN SUMMERSIDE

(Continued from Page One.)

Mr. Holmden said he would as soon use dry lime and sprinkle plenty of it.

The reports of former meetings state that the Dakota Red resists the disease?

Mr. Holmden: As far as I have gone, I have not found a Dakota Red or a cross-bred infected.

Is the disease really very harmful There is a destructive form but it has not been found in P. E. Island. It, however, shuts the potatoes out of the American market.

You say it is not found in any of the states except Maine? I suppose you are aware that Maine and the Maritime Provinces supply the whole of the seed potatoes for all of the other states.

You also say Belgium is free from this disease. Are you aware that Belgium imports large quantities from Germany and the British Isles? Does not this embargo seem rather strange?

I am not prepared to discuss that. The United States have imposed it, and we are here to give you information regarding its nature and the best way to get clear of it.

What steps are being taken to have the embargo removed? Mr. Gussow went to Washington last July and made recommendations which have been accepted by the Federal Board of Horticulture.

These negotiations must be put through by the British Ambassador at Washington, and if the war had not broken out the likelihood is they would have been completed before this.

I cannot say the form they will take but I think I am safe in saying that they will permit of potatoes being sent from this Province into the United States under certificate.

Several old stocking legs sewn together make the softest, finest kind of mop. Dampened with kerosene, they make an excellent dust mop.

An exceedingly handy cloth for brushing off the kitchen stove is quickly made from two old stocking legs. Fold one to about the size of the hand; fold the second one to end with the pad between and catch in place with thread, leaving the top fold free. To use, slip the hand into the free fold, and the thick pad protects the hand from the heat of the stove.

Stocking legs are good for many kinds of cleaning because they are soft, leave no lint, and may be wrung dry with the greatest ease. If there is much cleaning to be done, all these things help.

GOODNESS. "It is not easy to be good. If it were goodness would be worth very little. It would not mean struggle, persistence, aspiration, development, character, as it does now."

Real goodness—efficient, beneficent goodness—is valuable because of what it costs, day by day, and it never comes at a bargain.

## THE JURY DISAGREE ON THE CARMAN MURDER CASE.

MINEOLA, N. Y., Oct. 26.—The jury in the case of Mrs. Florence Conklin Carman, charged with the murder of Mrs. Louise Bailey, failed to reach a verdict after thirteen hours and ten minutes of deliberation. The jury reported its inability to agree at 10.55 a.m. to-day, and was discharged.

Mrs. Carman collapsed upon hearing the verdict, and was carried from the court-room. Her attorney announced that bail would be furnished for her release to-morrow, should the court consent, pending a new trial.

DALHOUSIE DEFEATED BY U.N.B. TEAM.

FREDERICTON, Oct. 24.—The U.N.B. football team defeated Dalhousie University here to-day by a score of 8 to 3. The defeat of the Halifaxians was somewhat of a surprise both for the local followers of the game, as well as the visitors themselves, and showed that Coach Campbell is developing one of the best teams the Red and Black has ever had.

## THOSE OLD STOCKINGS.

Several old stocking legs sewn together make the softest, finest kind of mop. Dampened with kerosene, they make an excellent dust mop.

An exceedingly handy cloth for brushing off the kitchen stove is quickly made from two old stocking legs. Fold one to about the size of the hand; fold the second one to end with the pad between and catch in place with thread, leaving the top fold free. To use, slip the hand into the free fold, and the thick pad protects the hand from the heat of the stove.

Stocking legs are good for many kinds of cleaning because they are soft, leave no lint, and may be wrung dry with the greatest ease. If there is much cleaning to be done, all these things help.
