FERTILIZER FACTS!

The value of all Fertilizers consist in the amount of soluble Phos. Acid Nitrogen, and Potash they contain, and the brand which shows the greatest value in these is the one to buy, on the same principle that milk testing 4 per cent. butter fat is more valuable than 3 per cent milk. ENGLISH MANURES costing the same price, contain 20 per cent. to 25 per cent more Phos. Acid, Nitrogen and Potash than any other complete Fertilizer on the market.

Or in other words the Plant Food contained in a ton of other Fertilizer costing, say \$35, can be purchased from us for about \$28. All fertilizers are sold under a guaranteed analysis enabling any who may, to verify the above, and the superior quality of these Manures is being shown by actual testyear after year by the really wonderful results produced wherever

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.

PROF. MELVILLE B. BUCKLEY,
Instructor Boston Dental College, Boston Mass.

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductivity of rubber, and as aluminum is now so cheaply produced and making as it does a rigid, light, cleanly, unobjectional plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. HASKELL, D. D. S.
Chicago Ill. Dental School

The above quotations are from hundreds by eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.

Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a Metal Plate either of Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate.

We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day fully guaranteed because we make them ourselves, and know all about the material used. Call and see specimens of our work. Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.
