HELD AT HOME—On Thursday a Missionary gathering of the ladies of the Nazarene Church was held at the home of Mrs. Leon Woodside. The guest of honor was Mrs. Neil Buchanan, the oldest member of the Society who was presented with a gift. Delicious refreshments were served.—O.

STUDENT AWARDS—The following Summerside High School students were awarded silver pins for excellence in dramatics over a period of two years: Peggy Preston, Gloria Mellish, Betty Lou Tremelick, Dorothy Callan, Marcellus Melior. The following were awarded credits for dramatics: Arlene Jordan, Gwendolyn Clark, Jean Dunn, Kaye MacFarlane, Diane Dewar, Patsy Ozden, Beth Jenkins, Joan Morrison, Nan Pope, Joan Compton, Marion Rogers, Ronnie Leard, Alexander Campbell, Robert Ellis, Gordon MacDonald, Bill Nicholson, Gordon Lidstone, John Cameron, Ross Lefurkey.—S

ALBERTON TOWN COUNCIL MEETING—The June meeting of the Alberton Town Council was held on the 14th inst. at 7.30 p.m. Mayor C. R. Profit presiding. Councillors Corbett, Currie, Weeks, Moran and Matthews were in attendance. Bills amounting to \$191.10 were approved. The same committee reported that bushes had been cut in preparation for machine work. There was a discussion regarding the amount of gravel and where it should be placed. The fire committee reported shortage of funds for their department and plans were made to raise money for this purpose. It was reported that since issuing of current year's tax bills there had been rumours of dissatisfaction among taxpayers in regard to the present system of assessment. The Council decided it could do nothing except to advise ratemakers to appeal their tax bills.

FUNERAL YESTERDAY—Funeral services for the late Linwood were held yesterday afternoon from the home of Mr. and Mrs. James Callaghan, Kinross, to St. Paul's Church and cemetery, Summerside. Prayers were read by Rev. Louis Callaghan of Fort Augustus. The funeral service was conducted by Rev. Mgr. G. J. McLellan, pastor at Summerside, who also conducted the service at the late Linwood's home. A letter from the Rev. Mgr. Callaghan, Executive men paraded in a body and the Legion service at the grave was conducted by Comrade Roland Phillipson. The last Post was sounded by Bugler Alban Gallant. The pall bearers were Dr. R. L. Noonan, E. P. Foley, R. E. Ellis, Peter Clark, Frank Daley and Jack Peters. —S

W. A. semi-annual meeting Thursday, June 30, at the late Linwood, St. Thomas Church, Burlington, 10.30 a.m. Business sessions at St. Mark's Church, Kensington.

C.W.L. MEETING AT INDIAN RIVER—The monthly meeting of the Indian River sub-division was held on June 12th with a good attendance. The meeting was opened by prayer led by the president, Mrs. W. C. McLeod. Reports were read and approved. Correspondence included a letter from Mrs. Ernest Rossiter, convener of public relations, regarding the "Canadian League" campaign. A letter from Mrs. Ambrose Steele, convener of social welfare was read. Also a letter from Mrs. W. J. Sullivan regarding the Women's Closed Retreat which is to be held in Notre Dame Convent, Charlottetown, July 15th and 16th. It was announced that a little orphan girl who has been a ward of the C.W.L. of Indian River was able

ARRIVED shipment of Robin Hood Flour in 35's, 40's and 24's, Smallman's Grocery.

THE BAPTIST Sewing Circle, Central Bedouque will hold their Tea, Bazaar and Fund Sale at the Paragon Wednesday, June 29th, from 4 to 7 P. M.

VISIT LENOX ISLAND—Mr. Douglas Hardy, Asst. Scoutmaster of the O'Leary troop of Boy Scouts, took his boys on Wednesday, June 22nd to visit Lenox Island. He made plans to have the Indians make three headresses, one for each of the three O'Leary Scouts who will attend the Canadian Jamboree in Ottawa in July. The Scouts are Billy Matheson, Arthur Seaman and Peter Pate.—O.

INJURED ON HIGHWAY—Robert Peterson of Summerside is a patient in the Prince County Hospital with bruises on his body and badly shaken up after being knocked from his bicycle yesterday afternoon on the highway about a mile east of Summerside. He was struck by a truck that failed to stop. He was picked up by the occupants of a car that was following and taken to the hospital. He may be released from hospital today. An employee of the Pioneer Office, he is a son of Mrs. Alex Peterson, Russel St.—S

PRETTY WEDDING—A quiet but pretty wedding was solemnized at the United Church Manse in O'Leary on Tuesday morning, June 21st when Miss Ruby Jean Milligan of Poplar Grove became the bride of Mr. Arnold Penton Boylan of West Devon. Miss Audrey Milligan was bridesmaid and Mr. Ronald Vincent was best man. The officiating clergyman was Rev. W. G. Dickson. Mr. and Mrs. Boylan are two of the most popular young people of the district and their friends wish them every success in their married life.—O.

TOURING MISSION FIELDS—Rev. W. W. Link of the Nazarene Church is making a tour of the Home Mission charges of the denomination in the Maritime Provinces. On Sunday afternoon, June 19th he was the special speaker at the O'Leary Nazarene Church. Rev. Mr. Link was accompanied by his wife and daughter and all are accompanied by their host, Rev. Mr. Link also presided at the Mount Pleasant and Emsdale Churches.—O.

Miss Hilda MacLeod, Charlottetown, is the guest of her brother-in-law and sister, Mr. and Mrs. Daniel Hickox, Burlington.—Bur.

Carl Champion, young son of Mr. and Mrs. Everett Champion of Kensington suffered a painful accident on Thursday afternoon

Airman Injured in Fall From Truck; Is Flown To Boston

An airman from the R.C.A.F. Station, Summerside, who had hitched a ride on a truck from Town to the station Saturday evening lost his hold and fell off as the truck was rounding a curve at the western outskirts of town. He was taken to the Prince County Hospital and yesterday morning he was flown to Boston for treatment as it was feared he had suffered a brain injury. The R.C.A.F. withheld his name last evening pending notification of next-of-kin. Dr. G. J. Gallant, the station doctor, accompanied the injured man on the flight. No word had been received last evening as to his condition but it is feared that it is serious. It is understood that the decision to fly him to Boston was made when it was learned that both Halifax and Montreal were closed in by weather. The vehicle was a light delivery truck and he was standing on the back of it.—S

to leave the Provincial Sanatorium where she has been a patient and is now in the Orphanage. The members were shown pictures of her looking happy and the picture of good health. Appointment of the following conveners was announced: Social welfare, Mrs. J. J. McQuaid; Education, Mrs. B. C. McLellan; Publicity, Mrs. L. G. Ramsay. The meeting closed with prayer.—K.

OPEN FOR BUSINESS AGAIN—The Olympia Restaurant on Water Street, Summerside, which was badly gutted by a fire on Saturday, June 4th, is open for business in front while workmen are busy tearing the back out of the building preparatory to rebuilding and enlarging it. The fire, which for a while threatened surrounding residences, badly damaged the third storey building, the back of the second storey and the kitchen on the ground floor as well as a number of sheds to the rear. In about a week after the fire Mr. Chester Gaudet, the proprietor, had the restaurant open with a small improvised kitchen set up in a cloak room. The banquet hall remains closed and is in fact open to the weather. In the meantime, Mr. J. Henry Gaudet, the owner of the building had a gang of workmen on the job under the direction of Mr. Stanley Gaudet and lowered the roof of the building to a two-storey structure. All the sheds to the rear were torn down and work is now commencing on extending the main building to the boundaries of Mr. Gaudet's property. When completed the restaurant will be the same size but the banquet hall will be much larger with many added facilities such as cloak rooms and wash rooms for men and women. He will thus be able to cater to much larger gatherings than in the past without crowding. Living quarters for Mr. and Mrs. Chester Gaudet and their host of friends will thus be in the rear of the building. When completed the new building will be a considerable improvement to the neighborhood. —S

Former Tryon Man Passes Suddenly—Mr. W. Ellsworth Rogerson, 39, Toronto, Ont., formerly of Tryon died in London, Ontario about 9 o'clock yesterday morning. He had been in the hospital for some time. He was a former student of Prince of Wales College. After completion of his studies he worked in the Royal Bank at Summerside. He was transferred to Toronto to head office in Toronto. He married Miss Kaye Wood of London, Ontario. Besides his wife and two children he is survived by his mother, Mrs. Bessie Rogerson, Tryon, one sister Eletha, Mrs. Bert Cameron, East Royalty and two brothers, Charles and Irving, Squir, Manitoba.

when he fell from a fence and received quite a number of stitches to close the wound.—K.

Mr. and Mrs. J. N. McLellan and Mrs. C. B. McLellan and Grand River were visitors to Kensington and Clermont on Sunday.—K.

Mrs. Wm. McRae and baby daughter arrived from Boston, Mass., on Monday night to visit her parents, Mr. and Mrs. Wm. Higgins, Summerside.—K.

Mrs. S. R. Pendleton of Kensington left Tuesday morning for Halifax for further treatment in hospital there. Her many friends wish her a speedy and complete recovery.—K.

Mr. and Mrs. J. L. Saunders and Mr. Arthur Ready of Kensington left Thursday morning by motor for Boston, New York and Washington. They expect to be away about three weeks.—K.

Little Mariene Darrach, daughter of Mr. and Mrs. O. B. Darrach, Kensington, suffered a painful accident recently when she fell on some old wire inflicting quite a gash in her leg. Nine stitches were required to close the wound.—K.

Miss Jean McDonald of New Glasgow, N.S., arrived in Kensington Monday to attend the Clark-Johnstone wedding. It is pleasing to note that Miss McDonald, is making a good recovery from a serious accident she suffered in February.—K.

Mrs. Harold Gormley and sons Jackie and Edward and Mrs. Archie Gillis and infant son of Brookline, Mass., arrived on the

Clark-Johnstone Nuptials

The home of Mr. and Mrs. Orville Clark, Kensington, was the scene of a pretty June wedding on Wednesday, June 22nd at 3 p.m. when their youngest daughter, Anna Phelicia, was united in the holy bonds of matrimony to Archibald McEwen Johnston, son of Col. E. W. and Mrs. Johnstone of Long River. The ceremony was performed by Rev. Lewis Murray, pastor of Kensington United Church. Given in marriage by her father, the bride was a picture of loveliness in her period gown of white velveteen with a white satin made to close fitting bodice gathered to net yoke in sweetheart neckline and fastened with a cluster of seed pearls. A row of covered buttons down the back fastened the bodice which had long sleeves. A half hoop in the satin skirt accented the fullness in front. Her floor length veil of tulle illusion was caught to scalloped headress with clusters of pearls similar to those on the gown. She carried a bouquet of pink and white carnations. The flowers were sent from British Columbia by airmail by Miss Elizabeth Johnston, sister of the groom was her only bridesmaid and her dress was yellow brocade eyellet silk poplin made with sweetheart neckline, full skirt and short sleeves. Her shoulder length veil and headress matched her dress and she carried a colonial nosegay of pink and yellow snapdragon and roses. Mr. Murray Creed of the C.B.C. staff at Halifax, a close friend of the groom was best man. The wedding music was played by Mrs. George Dunning, an aunt of the bride, and during the signing of the register Mr. F. N. Parker sang "Because" and later Rev. Mr. Murray sang "O Perfect Love". The bride's mother was dressed in queen's blue with white hat and corsage of pink roses while the groom's mother wore a two piece dress of navy and white with matching hat and corsage of yellow Columbinas. After the ceremony the bride and groom received the greetings of the sixty guests who were present. A buffet supper was served. Mrs. Joseph Sheen and Mrs. Handford Reeves poured while those serving were Mrs. Keith Mann, Mrs. Roy Clark, Mrs. Everett Champion, Miss Jean McDonald, Mrs. John S. Burns, Mrs. Fred Parker, Arthur Arthur Scotia, Kenneth Thomas Humphrey. A beautiful three tier wedding cake and tall tapers centered the table. The toast to the bride was proposed by Rev. Mr. Murray which the groom fittingly responded. Before her marriage the bride was the popular and efficient teller of the Bank of Nova Scotia, Kensington. The groom is a graduate of the Truro Agricultural College and is associated with his father on their farm at Long River. Both have a lusty and happy married life. The honeymoon will be spent in touring the Maritimes. For travelling the bride wore a suit of loganberry red with navy and white accessories.—K.

Prince Co. Hospital Activities Reviewed

The following report was submitted by Mr. W.E. Darby K.C., president of the Board of Trustees of the Prince County Hospital at the annual meeting of the Hospital on Tuesday night. "It is gratifying to find so many present tonight at the 39th annual meeting of the Prince County Hospital. "At this time we submit to you, the shareholders of the Corporation, for such you are, a report of the Board on the business carried on during the year, both institutional and financial. The operation of a Hospital is somewhat analogous to that of Government; neither can be conducted by policies dictated wholly from business considerations nor can the measure of their success or otherwise be adequately assessed on a mere dollar and cents basis. "Our work is the care of the sick and the infirm through the medium of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and services generally consistent with the revenue of institutional treatment. The methods, technique and internal routine are the paramount concern of the Medical Staff, the superintendent, nurses and technicians serving within its walls. The Board itself exercises a supervising control over the supply of equipment, material, personnel and
