SIX LIVES LOST IN PLANE CRASH

Tragedy Occurs At Opening Festivities of St. Catherines Airport

(Canadian Press)
ST. CATHERINES, Ont., Sept. 15.—A tragedy that cost the lives of six persons cast its shadow of gloom over the Niagara Peninsula late today and marred the opening festivities of St. Catherines airport. Five passengers and the pilot of a travel air cabin plane, operated by the Skyways Limited, of Toronto, crashed to their death shortly after 7.30 o'clock last night less than two miles from the landing field. An explosion followed the crash and the gasoline flames quickly devoured the cabin and non-metal structure, the bodies of the six victims were roasted amidst the leaping tongues of fire. Three bodies were disengaged from the burning plane by frantic rescuers while the others were burned and charred almost beyond recognition. Not an occupant of the plane escaped and all met instant death. A government board of inquiry has already been named and held its first sitting here this afternoon.

Acquire Site On St. Lawrence

(Special to The Guardian)
NEW YORK, Sept. 14.—Announcement was made today that the Niagara Hudson Power Corporation, the \$450,000,000 system recently formed by J. P. Morgan and Company and associates, has purchased the Frontier Corporation, thus acquiring a site on the St. Lawrence River capable of developing 2,400,000 horsepower. The Morgan system already controls water-power installations at Niagara Falls and other points, of a capacity of 1,700,000 horsepower, and through its recent purchase acquired control of nearly every important water power site in New York state. The corporation owns Riparian Rights and islands adjoining the Long Sault rapids on both the American and Canadian sides of the St. Lawrence, together with the stock of the St. Lawrence River Power Company, Ltd., of Cornwall, Ont. WASHINGTON, Sept. 14.—The announced plans of the J. P. Morgan and Company interests for further acquisition of power facilities in upper New York state may result in blocking the development of the St. Lawrence waterways project, Senator Walsh, Democrat, Montana, said today.

WILL USE AIRPLANES

(Special to The Guardian)
CANBERRA, Australia, Sept. 14.—Airplanes will be used extensively in the Australian general election owing to the short time available for the campaign. All party leaders are planning to make cross country journeys by airplane. The election takes place October 12, and nominations are to be held October 1. Premier Bruce will deliver his policy speech September 23 and James H. Scullin, Labor leader, will make his the following day. An unusual turn has been given the political situation by the charge, deliberately made in the House of Representatives on Thursday, that large United States film interests were using their influence against Premier Bruce owing to proposals for an additional tax made in the budget. It was pointed out that 14 percent of the gross profits made in Australia by United States films, which constituted 90 percent of all films exhibited, goes to the United States.

SUBMITTED TO LEAGUE

(Canadian Press)
GENEVA, Sept. 14.—The protocol providing for admission of the United States to the world court for international justice was formally submitted to the League of Nations assembly this afternoon by M. Politis of Greece in the form of a report of the committee on legal and constitutional questions.

WICHITA, Kans., Sept. 15.—Helen Williams, 24, was killed yesterday when she fell 2,000 feet at Braley's Field here after leaping from the plane of Elinor Smith, endurance flier, in a demonstration of a safety parachute. The chute failed to open.

CHARTRES, France, Sept. 14.—An airplane from the base here burst into flames today on a training flight and crashed to the ground. Its four occupants were killed.

Owing to the death of Dr. S. R. Jenkins, Chief Aide de Camp to the Lieutenant Governor, the dance which was to have been held at Old Government House on Tuesday night, September 17th, in honour of the Canadian Good Roads Association, will not now take place.

H. DORIS GILL,
Social Secretary,

TASCHEREAU MAY RETIRE

(Special to The Guardian)
MONTREAL, Sept. 14.—Political circles here are humming with the report that Hon. Louis Alexandre Taschereau will shortly retire as Premier of Quebec to be succeeded by Hon. J. L. Ferron, now Minister of Agriculture. Hon. Mr. Taschereau did nothing himself to allay these reports today, when in an interview at Quebec, he said regarding Hon. Mr. Ferron, "I don't know what will happen. Everything is in the realm of possibility." That statement was the reply to the question whether it is true that Mr. Ferron will soon leave the legislative assembly for a rural constituency.

What makes some of the people, wisecracks, believe that big things are in the offing for the Taschereau cabinet personnel is that the Premier today categorically denied that there would be fall elections in Quebec, and that there was much possibility of voting next year. But when it came to the political future of Mr. Ferron, Premier Taschereau rambled once more in the attractive realm of the indefinite. That Mr. Taschereau has wanted to return to the calm of private life has been hinted a number of times. But he has always been credited with a desire for the bench—either the Supreme Court, or the Superior Court of Quebec. When he does leave the legislative buildings, it appears he will resume law practice in conjunction with his two sons.

His friends point out that the prime minister is not a rich man and that security for his family takes precedence over his personal ambitions at all times.

Major Seagrave Won First Race

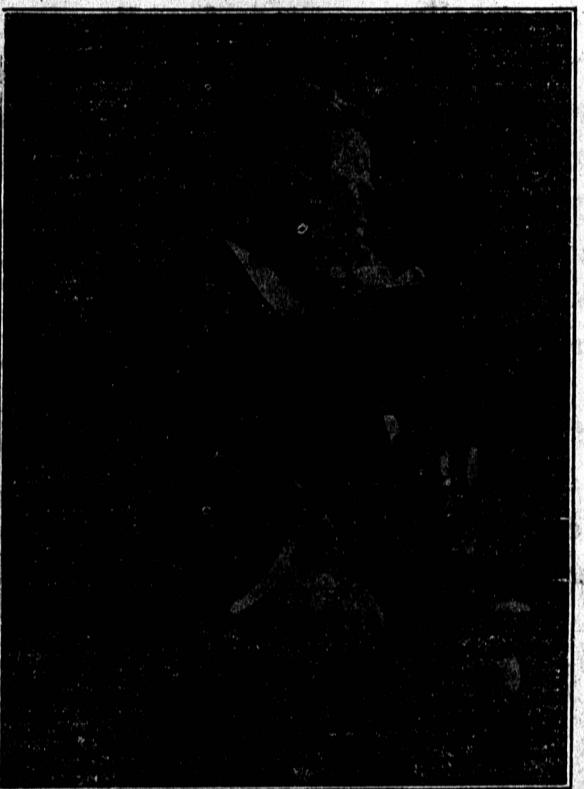

(Canadian Press)
VENICE, Sept. 14.—Orlin Johnston, acting as mechanic for Phil Wood, was seriously hurt today by a fall from the United States speedboat competing in the speed races here. Major H. O. Seagrave won the first day's race for Count Volpi's Cup, with an average speed of 88.56 kilometers or 55.35 miles an hour. Phil Wood and Orlin Johnston were thrown from their seats in Miss America VII during the first lap for the Volpi's cup. The boat continued after its occupants had been tossed into the water but stopped after several hundred yards. Wood and Johnston were picked up, but the Miss America VII was out of the race. At the time of the accident Miss England was a hundred yards in the lead. The United States boat struck the wash thrown up by Miss England on the straight away in front of the main grand stand, wavered and overturned.

SYDNEY GETS ROTARY CONFERENCE

(British United Press)
SYDNEY, New South Wales, Sept. 14.—In March next year the third Pacific Rotary Conference will be held in Sydney. The two previous Pacific conferences were held at Honolulu, in 1926, and at Tokyo, in 1928. It is expected that the attendance at the Sydney conference will more than equal the gatherings at previous meetings. Official representatives from Rotary International, America, and from Royal International, British Isles, are expected to be in attendance. The conference promises to be one of the most important international gatherings ever held in Australia.

Beloved Citizen Has Passed Away

Death Yesterday Of Dr. S. R. Jenkins Will Be Mourned Throughout City And Province.

THE LATE DR. S. R. JENKINS

An outstanding figure in the medical profession and a citizen known and esteemed throughout the city and Province passed away yesterday evening in the person of Dr. Stephen R. Jenkins. The deceased, who became ill last Monday while engaged at his duties at the Charlottetown Hospital, was seized with a gall bladder attack but by Wednesday, his symptoms having improved, was again able to be about. On Thursday morning, however, left sided pneumonia developed and his condition from that time on became steadily worse. Despite loving care and most expert attention he gradually sank, passing away at 5.15 p. m. yesterday at his home, Brighton Villa.

The late Stephen Rice Jenkins, M. D., F. A. C. S., was born in Charlottetown on Nov. 12, 1868. His father, the late Dr. J. T. Jenkins, was a native of Prince Edward Island while his mother, who bore the maiden name of Jessie R. Rice, was born in Newfoundland. Stephen R. Jenkins was educated in the public schools and in St. Peter's School, Charlottetown, and King's College, Nova Scotia. His preliminary medical training was received in his father's office, after which he entered the medical department of the University of Pennsylvania, where he graduated in 1894. After his graduation he served for some time as house surgeon at Brockley Hospital, Pennsylvania, and in 1895 returned to Charlottetown, where he entered upon the practice of his profession, his first duty being the taking over of the small-pox hospital and the combating of this dread epidemic, which had broken out with great violence in the city. In the following February he was commissioned surgeon of the Fourth Prince Edward Island Regiment of Artillery. He enjoyed a large and constantly increasing practice and bore throughout a lengthy career the highest reputation as a skillful and careful surgeon, being connected in this capacity with both of the local hospitals.

He succeeded the late Dr. Warburton as registrar of the Medical Council of Prince Edward Island and was a past president of the Maritime Medical Association and the Canadian Medical Association, having presided as president of the latter organization at its last annual meeting at Montreal. During the War, although past military age, Dr. Jenkins, at great financial loss to himself, took command of Rockhead Military Hospital, Halifax, giving up his practice in Charlottetown while so engaged. The deceased leaves to mourn, besides a sorrowing widow, the following sons and daughters: Dr. J. S. Jenkins, D. S. O., Charlottetown; Mrs. Ivan Reddin, Pincher Creek, Alberta; Harry G. Jenkins, Paris, France; Miss Helen Jenkins, Charlottetown; Miss Nora Jenkins, R. N., New York; Miss Hilda Jenkins, R. N., New York; Miss Margaret Jenkins, Charlottetown; Charles Jenkins and Miss Stephanie Jenkins, Charlottetown. Also two brothers, Hon. L. L. Jenkins, formerly Speaker of the Provincial Legislature, now residing at North Wiltshire, P. E. I., and Harry Jenkins, Twin Butte, Alberta; and two sisters, Mrs. A. W. Holroyd, Winsloe, P. E. I., and Mrs. John S. Moir, Charlottetown, to all of whom The Guardian tenders sincere sympathy.

All the family, with the exception of Mrs. Ivan Reddin, are now at home. On Thursday noon, anticipating the seriousness which followed, an urgent message was despatched to Dr. Ray Brow, of Montreal, a native of this Province and an expert in serum treatment of pneumonia and a recognized authority on the heart. Dr. Brow immediately threw up his other duties and proceeded to Charlottetown at once, arriving here by aeroplane on Friday. The nature of the illness was such, however, that the serum could not be used with any hope of success. Announcement of the funeral, which takes place Tuesday afternoon, appears elsewhere in The Guardian.

Notice! A snappy show this time. New action. Canoe Cove tonight, Vernon Tuesday, Victoria Wednesday. 7670

ALL FORCES MOBILIZED

Vladivostok Officials Advised By Soviet Govt. That a State of War Exists.

(Special to The Guardian)
MUKDEN, Sept. 14.—An official communique today says the Chinese Intelligence Service has learned the Soviet government has advised Vladivostok officials that a state of war exists. The communique says the Intelligence Service had learned that the Soviet had mobilized all its forces along the Siberian fronts and had ordered all military commanders to attend a secret conference.

hearted generosity and humanity, as well as to his sage counsel and brilliant professional abilities. He was also senior member of the staff of the Prince Edward Island Hospital, and saw both hospitals grow from small beginnings into their present important position in the community. He was also a member of the Charlottetown School Board.

The late Dr. Jenkins was a devout Christian, in the true sense of the word. Though he never paraded his religious or moral opinions, no one could converse with him for long without recognizing this characteristic of the man. He was a devout member of the Roman Catholic Church, ever faithful and loyal to its interests, and took a leading part, as layman, in all Church activities.

A staunch Conservative, Dr. Jenkins took an active part in local politics, being elected for the constituency of Charlottetown in 1912 and 1915. In the latter year he became a member without portfolio in the Executive Council. As a member of the House, Dr. Jenkins was little given to speech-making, but he possessed a keen grasp of affairs and his wide experience as a medical man proved invaluable in the consideration of measures of public importance.

During the War, although past military age, Dr. Jenkins, at great financial loss to himself, took command of Rockhead Military Hospital, Halifax, giving up his practice in Charlottetown while so engaged.

The deceased leaves to mourn, besides a sorrowing widow, the following sons and daughters: Dr. J. S. Jenkins, D. S. O., Charlottetown; Mrs. Ivan Reddin, Pincher Creek, Alberta; Harry G. Jenkins, Paris, France; Miss Helen Jenkins, Charlottetown; Miss Nora Jenkins, R. N., New York; Miss Hilda Jenkins, R. N., New York; Miss Margaret Jenkins, Charlottetown; Charles Jenkins and Miss Stephanie Jenkins, Charlottetown. Also two brothers, Hon. L. L. Jenkins, formerly Speaker of the Provincial Legislature, now residing at North Wiltshire, P. E. I., and Harry Jenkins, Twin Butte, Alberta; and two sisters, Mrs. A. W. Holroyd, Winsloe, P. E. I., and Mrs. John S. Moir, Charlottetown, to all of whom The Guardian tenders sincere sympathy.

All the family, with the exception of Mrs. Ivan Reddin, are now at home. On Thursday noon, anticipating the seriousness which followed, an urgent message was despatched to Dr. Ray Brow, of Montreal, a native of this Province and an expert in serum treatment of pneumonia and a recognized authority on the heart. Dr. Brow immediately threw up his other duties and proceeded to Charlottetown at once, arriving here by aeroplane on Friday. The nature of the illness was such, however, that the serum could not be used with any hope of success. Announcement of the funeral, which takes place Tuesday afternoon, appears elsewhere in The Guardian.

Prospects Bright For Naval Agreement

(Special to The Guardian)
WASHINGTON, Sept. 14.—An air of cheerful confidence at both the state departments and White House today indicated that the negotiations for an Anglo-American naval agreement had about reached a successful termination. There are minor differences still to be ironed out, but these are not likely to prevent or delay a final agreement. It is said they relate not to the matter of cruiser tonnage which has been settled, but to the distribution of 30,000 tons of the cruiser tonnage allotted the U. S. navy. This may be distributed among three cruisers, each of 10,000 tons or among four or five cruisers capable of carrying only six inch guns.

A prominent naval officer is quoted today as saying that the disposition of this tonnage was not a serious matter, in view of the fact that the total tonnage of the United States navy exceeds 1,200,000 tons. It seems to be pretty well understood that the agreement will bring about parity in all the categories of naval vessels by 1936. There will be no premature scrapping of vessels, but many will not be replaced when they go out of commission as obsolescent. The net result will be a considerable reduction in armaments, especially destroyers and submarines, so that all the various arms of the naval service will be stabilized by this agreement, as were capital ships and naval plane carriers by the Washington agreement of 1922.

LONDON, Sept. 14.—With agreement on naval power reached in principle, further Anglo-American negotiations for disarmament will wait until Premier Ramsay MacDonald confers personally with President Hoover three weeks from now. It is understood in well informed circles here tonight progress has been so steady and the understanding arrived at so satisfactory, it is stated, that it will be unnecessary to take with him a group of naval or technical experts when he leaves England on Sept. 8 for the United States.

Unlike the memorable Washington arms conference of 1921-22 it appears there will be no array of experts forming a huge delegation. Rather, Mr. MacDonald's mission will be a personal one.

"As things are going at present" a political observer remarks today, "it seems as if the prime minister's travelling equipment will consist only of his golf clubs." A cabinet meeting this evening, attended by 12 ministers caused considerable speculation as to whether the disarmament problem was discussed, but there was no announcement made.

SANATORIUM CAMPAIGN UNDER WAY

Nearly \$8,000 Already Received. Committees Report Much Enthusiasm For Campaign.

That the Provincial Sanatorium campaign is away to a most auspicious start is evident from the advance subscriptions reported by the Campaign office. Not only does this give promise of successfully realizing the objective but it shows conclusively how popular this appeal is both within the Province and upon the mainland. The following are some of the larger subscriptions that have been received and it will be noted that some of them are from firms in Montreal and elsewhere.

- W. H. Aitken Co., City . . . \$2500
- Prowse Bros. City . . . \$1000
- T. Eaton Co., Moncton, . . . \$1000
- Imperial Oil Co., . . . \$500
- F. E. I. Telephone Co. . . . \$500
- A. Home & Co. . . . \$500
- R. T. Holman Co., Ltd. . . . \$500
- MacKinnon & McLure, . . . \$500
- Salada Tea Co. Montreal . . . \$250

Mr. Williams, the Campaign Manager, tells us that he has had several telephone calls from various Women's Institutes throughout the Province, all asking for a further supply of pledge cards and reporting especially bright prospects for substantial returns. Special mention was made of the Sanatorium drive in all of the city churches as well as in many of the country parishes. It is unusual to find a movement receiving such widespread support and it is a splendid indication of how successful the final returns will prove. There is no question but that the general public of this Province is ready to assist to the fullest extent any object which is worthy; the seriousness of our Tuberculosis situation is realized by all classes of our citizens and they are quite evidently determined that a Provincial Tuberculosis Sanatorium shall be available in the near future.

EVACUATION BEGINS

(Special to The Guardian)
LONDON, Sept. 14.—Evacuation of the Rhineland by the British Army begins today with departure for England of six officers and 60 men from Leicestershire and Dorset infantry regiments stationed at Kongstein and Bad Schwabach. This first contingent will be followed daily by other contingents until December 13, when the last of the 6,000 British troops will be withdrawn and the British flag hauled down.

QUEBEC, Sept. 14.—Philip Snowden's stand at The Hague was eulogized by Hon. Peter Larkin, Canadian Trade Commissioner at London, when he arrived here today.

THE ONLY WAY TODAY, TO KEEP WELL-HEELED IS TO KEEP ON YOUR TOES
