

THE KING'S COUNTY GUARDIAN

Offices in Montague, Capt. W. A. Johnstone, Agent, and in Souris, A. J. McDonald, Agent.

The latest news, first of all.

Harry James, Charlottetown, is in Souris on a business trip.

Lester and James Robertson, of Red Point, left for Maine on the 4th inst. The former only arrived home a few weeks ago.

His many friends of Red Point were pleased to have a call from William Ford recently.

The boys of Red Point and vicinity are gradually returning from the lumber woods of Maine, where an unusually large number spent the winter on account of the poor proceeds of last year's fishery. Talbot Stewart, Henry and Stanley Cameron of South Lake, Frank McDonald of West River and George LaPiere of Basin Head, are among the latest arrivals. They report plenty of work and fair pay.

John Bruce is sawing a large quantity of lumber in his new mill.

Miss Florence Stewart, Souris, spent a pleasant vacation east recently.

Archibald Hamilton, New Perth, spent a short time the guest of Wallace Stewart, Red Point.

The Rev. W. Toombs, Georgetown, will preach in Cardigan Presbyterian Church, Sabbath at 3 p.m.

The sad death took place at her home, Souris, Line Road, Friday morning, April 1st, of Miss Lena McPhee aged 31 years after an illness of short duration. She leaves to mourn a loving father, mother, five sisters and one brother. Her funeral took place Sunday afternoon at St. Mary's R. C. Church. Her remains were interred in the R. C. Cemetery there to await the final resurrection.

The many friends of Garnet Campbell, Cumberland, Lot 65, are pleased to see him out again after his recent illness.

Notwithstanding the discouraging results of last season's fishing, the fishermen of Red Point are again preparing their nets, trawls and dories.

All amounts for Guardian advertising and subscriptions in Montague and vicinity should be paid to W. A. Johnstone agent, and in Souris and vicinity to A. J. McDonald, agent.

The following are the Souris market prices—Potatoes, per bushel, 28 cents; oats, per bushel, 42 cents; pork, per pound, 10 cents; beef, per pound, 10 cents; butter, per pound, 27 cents; eggs, per dozen, 20 cents; hides, per pound, 8 cents; and hay, per ton, \$12 to \$14.

The dwelling house of the late Donald Campbell, Greenvale, Lot 45, with much of its contents, was destroyed by fire on Sunday evening, the 29th ult. The house was commodious and well finished, the contents valuable, with no insurance, so the loss is heavy. Leo Campbell, the owner, on the Island, and teacher of Kingsboro School, is now given a month's leave of absence to make some provision for another dwelling.

There died at Souris River on Monday, the 21st of March, Francis Mossey aged forty years. Although deceased was in failing health for some time, he was not near death in spite of careful attendants and medical care and consoled by the last rites of the Roman Catholic Church on the above date, he peacefully breathed his last. Besides a large circle of friends he leaves to mourn a sorrowing widow and three children.

HIGH PRESSURE DAYS.
Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

Donald F. McDonald, brother of the popular Guardian manager at Souris, who has been confined to his bed during the past week with an attack of appendicitis, is improving very favorably, and will be able to be around next week.

In Montague yesterday dealers were paying forty-two cents a bushel for oats, twenty-two to twenty-five cents a bushel for potatoes; seven to ten cents a dozen for eggs; ten and a half cents a pound for butter; twenty-two cents a pound for lard and ten cents a pound for hides.

Josiah Roberts and family and Murray Harbor, left on Monday last for their summer home. They have gone to join other members of their families who are already settled there. They have for a long time been residents of Murray Harbor. The Methodist and Presbyterian churches, and the community at large, have to sustain a heavy loss by their removal. For 30 years, Mr. Roberts was an efficient and faithful teacher in the Methodist Sunday School. He served his church for a long time, as a member of the Trustees and Quarterly Official Boards. Mrs. Roberts was a devoted and active member of the Ladies Aid and Women's Missionary Societies of the church, and at the time of her removal, was President of the W. M. S. When health and circumstances permitted Mr. and Mrs. Roberts and their family were found in their places in the services of God's house, and gave an attentive and sympathetic hearing to the preaching of the word. Their home there was always a kind and large welcome for the ministers and they gave willingly of their means to the support of the gospel. Mr. and Mrs. McLeod were kind and good neighbors. They were loyal in their support of the Presbyterian church and its various schemes, and were ever ready to help forward any noble cause. Both families will be followed to the place of their future homes in the West, by the growing west, by the best wishes of their many friends of Murray Harbor and vicinity. NEW TAXATION.
Sir—I am in full accord with the Government's proposition now before the House, to readjust the present system of local taxation. Not that I am especially fond of paying extra taxes, but every reasonable man must admit that additional moneys must be got from some source, in order that additional obligations can be met. And it seems, that the whole trend of the discussion is to lay the additional burden on the land. If that is so, I can assure you there will be lots of trouble ahead for some one to face. And, apart from that, I think it is not fair and just, if we are to have more taxes, let it be put on capital and income proportionally. I am well aware that some farmers have undervalued the proper value of their farms and are not paying their proportionate taxes to the state. I am thoroughly well aware that many capitalists are dodging their legitimate share as well.

Then there is the mortgage indebtedness, on which the farmer has been paying taxes all those years. In very many cases half the value of his land is covered by indebtedness. This is a question, whether it be small or little, should be relieved and the man that owns the mortgage made good.

Is Your Breakfast, Madam, Just a "Gulp-and-Git"?

"Things ain't what they used to be".
No, Madam, "they never was".
Breakfast, for instance. Once a full meal with a dessert—now, alas, degenerated into a mere "gulp-and-git".
Ah, Mistress Housewife, spare your folks their morning spread, the meal which breaks the longest fast of all the four-and-twenty. Let not our stomach think it is well-fed when it is only well-filled. Banish the predigested provender, the shredded doormats, the gripe nuts, perforated peanuts, the food fads all.

Give 'em something sustaining, substantial to answer to our insides' cry for help.
For instance:
Oldstyle griddle cakes browned on the hot side in the whiff of blue smoke from the sizzling ham and covered dripping with trickling syrup from corn or maple.
Hot, flaky, dainty rolls of the scrumptious kind, thickly buttered, toothsome, sweet, nutritious.
Slices of satin-textured breadstuffs, golden-topped, creamy crumbs all covered with apple butter, maple, brown and spicy, or even cow butter, or wholesome cheese?
Such breakfast revelations, Madam, will that FIVE ROSES flour afford you?
Rolls, pies, popovers, pancakes and griddle, crullers or fritters, you know.
Or just crisp, crinkly toast, the most easily digested food on earth, bread at its best.

That's the way to break the overnight fast, Mistress Housewife, topping it off maybe with a wedge of your "own-made" pie.
So that at 10.30 o'clock of a man's busy day there is no aching void but can carry him on till noon without the stomach kissing the spine.
What! Is your mouth watering too?
Nourishing breakfasts, Madam, sustaining, digestible breakfasts.
That display your cooking art to best advantage, raising you to the dignity of "artist".
While relieving your Cost of Living.
Since even the cheapest food besides being less healthful, digestible, nutritive, costs you 5 to 9 times more.
Besides being most wasteful and hard to keep fresh and sound.
Why not make breakfast the successful beginning of a good day's work, Madam?
Why not make the wait till dinner easier to bear?
Why not get FIVE ROSES soon?

The Financial Position of the Acadia Sugar Refining Company is Very Strong.

Few of our large local industrial concerns have made as much improvement in their financial position as has the Acadia Refining Company.

Looking over a period of five years, 1904 to 1909, we find that the Reserve Fund to meet depreciation has increased \$180,000 to \$300,000. The Contingent Account has more than doubled, \$60,000 to \$130,000 and one-half of the bonds have been redeemed affecting a saving of \$100,000 in interest.

We offer for sale, in lots to suit purchasers, a block of the Common shares of this Company. Par value is \$1.00 or \$150. Full particulars and price will be given upon application.

Housekeeping? but the young woman who contemplates Home-making, views the matter more seriously. SHE knows that the heavy end of house-keeping comes in the kitchen and that the peace and happiness of the "Household-to-be" depends largely on kitchen conditions.

Therefore to begin right she must start the kitchen on the right basis and to do this she needs the best stove that can be purchased—and that is—

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure. It is Catarrh. Catarrh is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood, purifying and cleansing the system, thereby destroying the foundation of the disease, and giving the patient strength by building up his constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Referring to the above I have much pleasure in announcing to my friends and the public generally that I will continue to carry on the business under the old and well established firm name of Beer & Goff at the same stand 123 Queen St. I hope by continued fair dealing and strict attention to business to merit not only a continuance of the patronage extended to the old firm in the past but also to have the pleasure of making many new customers whom it will always be my aim and ambition to please.

Being fashion plates, wearing New York town creations, I am satisfied that there is very little to choose between the two cities. But the hats of the ladies! How the gentlemen of Charlottetown will be interested in them. For you know, although the ladies wear the hats, it is the gentleman's privilege to pay for the same.

"Are the ladies' hats really worth their cost?" asked the reporter.

"Well," said Miss Delahunt, "if you could have seen the hats worn by the ladies of New York on 5th Avenue that Easter Sunday morning, in the full glow of their summer coyness, I believe that you would think as I do, that as artistic pictures of millinery beauty, even surpassing the famous 'Gainsborough' hats of this season could not be valued intrinsically—this must be done artistically." There was a heaving variety of style, and although the hats I saw were very

It was a revelation in millinery art, an object lesson which I could not possibly learn in millinery publications, or second hand. It could only be learned by personal visit and inspection—like mine."

The reporter was interviewing Miss Delahunt, surrounded by boxes and boxes of this year's ladies' headgear, and to illustrate the Parisian style of the day, called "Chanteclair."

Miss Delahunt picked up a hat that she had made of satin straw, with maline, sea green in color and surmounted with the magnificent head and tail of a Chanteclair, with his crimson comb and sparkling eyes, altogether making a highly picture-

Let capital bear its just share with the land. The country will very generally agree to this demand, but to lay all the extra burden on the farmers is a scheme that will throw this Province into such chaos as has not been seen for many years. We are ready for a legitimate tax in order that the school teachers may get some compensation for their work. We have been underpaying them long enough. It is a crying shame to enslave them longer, and we feel that Premier Hazzard will adopt the old Roman motto: "Do the right, avoid the wrong and render unto every man his due."
