ENGAGEMENT ANNOUNCED—Mr. W. E. Noyes, Alford, announces the engagement of his youngest daughter, Emma, 16, to John W. Farmer, Marston, to take place early in October.

MARSHFIELD—Rev. J. A. McGilivray, moderator of the General Assembly of the P. E. I. Synod, will address the Marshfield Presbyterian congregation, Thursday, Sept. 30th at 10:30 a. m. in the Baptist Church.

A FAVORITE HERE—Jimmy Evans opened at the Strand Theatre, Halifax, Monday afternoon, and he and his company were received with rapturous enthusiasm and greeted by hundreds of old friends to whom Jimmy Evans is a household word. His company is peculiarly attractive and was evidence that Evans is distinctly on the progressive road, always providing something a little better than on previous occasions.

ISLANDER DEAD—The death of S. J. Deroche occurred on Saturday at Pictou, Sask. following an illness of four days. Death due to pneumonia. He was 52 years of age and a native of Wheatley, P. E. I. He received his education at Saint Dunstan's and taught at Saint Dunstan's and For-ward until the outbreak of the war when he enlisted and served in the Canadian Expeditionary Force. He was killed in action on October 13th, 1918. Mr. Deroche is recommended by the most wonderful stories of Christian progress that has ever been told. On the evening of October 13th, at 8 o'clock, there will be a Public Meeting, held at the request of the Charlottetown Ministerial Association in St. Paul's Parish Hall, Charlottetown. His Honor Lieutenant Governor Heintz is expected to attend. Mr. Deroche will speak of his work, illustrating his address with some eighty excellent lantern slides from the West African field. On the evening of October 14th, at 8:00 o'clock in Epworth Hall, Sumner, a similar programme will be repeated. Christian workers and friends of the Bible Society all over the Province are urged to make a point of attending one of these meetings, to hear this distinguished visitor's message.

WOMAN OF STANLEY BRIDGE P. E. I. in writing to the Oakland, Calif. Maple Leaf says:—"I had the pleasure recently of meeting a woman of P. E. I. in Mrs. J. A. Clark, whose maiden name was Santa Barbara. She is far and away the most interesting woman I have met since I came to California. She is a native of Stanley Bridge, P. E. I. She was married in Colorado Springs to her husband who is a gentleman of England. They came to Santa Barbara twelve years ago. Their family consists of two sons, one of 17 years, who is a student at the Leland Stanford University, at Palo Alto, California, the other, 16 years of age, is in the high school in Santa Barbara. Mr. Clark is the manager of a large automobile business in that city. Mrs. Clark's sister, who used to live in Charlottetown, is now living in Yuma, Arizona. They own a large ranch near Yuma. They have three children, two daughters and one son, and they are all graduates of the University of Arizona. Mrs. M. A. Clark appealed to me as a woman of fine personality and of much intelligence. It is remarkable, she remarked, to have well the Maritimers have succeeded in California and the West. They owe their success to a large extent to the frugal way in which they were brought up here. Mrs. Clark left home when she was 14 years of age to go and visit her sister, Mrs. Hobart, who was then living in Colorado.

NOTED MISSIONARY COMING—The Prince Edward Island Bible Society announces that Reverend A. W. Banfield, Secretary in charge of the work of the British and Foreign Bible Society in West Africa will visit this Province in the interests of the Society's work on October 13th and 14th. Mr. Banfield is recommended by the most wonderful stories of Christian progress that has ever been told. On the evening of October 13th, at 8 o'clock, there will be a Public Meeting, held at the request of the Charlottetown Ministerial Association in St. Paul's Parish Hall, Charlottetown. His Honor Lieutenant Governor Heintz is expected to attend. Mr. Deroche will speak of his work, illustrating his address with some eighty excellent lantern slides from the West African field. On the evening of October 14th, at 8:00 o'clock in Epworth Hall, Sumner, a similar programme will be repeated. Christian workers and friends of the Bible Society all over the Province are urged to make a point of attending one of these meetings, to hear this distinguished visitor's message.

MONEY WINNERS—The Frederick Exhibition which closed Saturday night had a number of high winners in the "Livestock" classes. The heavier winners are as follows: Thomas, Essex, Aulac, \$501; McIntyre Bros., Sutter, N. B. \$342; J. E. Baker and Son, Riverview, N. S. \$322; Dickie, (Ross), Truro, \$287; J. M. Blizant and Son, P. E. I. \$188; Dr. P. R. Taylor, K. C. \$163; C. R. Trenholm Fort Lawrence, N. S. \$146; M. Roderique, Compton, Que. \$143; S. L. Boswall, P. E. I. \$137; P. E. I. \$138; Dr. P. R. Taylor, K. C. \$134; Harding Bros., Welsford, \$101.

ISLANDER SPEAKS—The Saint John Telegraph-Journal says:—"Rev. J. S. Bonnell, chairman of the Rotary education committee, was the speaker at the Rotary luncheon Monday and his subject was 'The League of Nations.' Mr. Bonnell reminded the members that the chief object of Rotary was the promotion of international peace and he told how the Rotary Clubs of Great Britain and Ireland are operating in work for international peace. He said that in January, 1925, there had been a conference at the Hotel Cecil, London, when the high officials of the League of Nations Union of Great Britain had met with representatives of the Rotary Club and had worked out a system of co-operation. The vice-president of Rotary International of Great Britain Mr. Bonnell said, had asserted that the only way in which Rotary could effectively work for international peace was by supporting the League of Nations and in return for this support, the League of Nations was assisting the Rotary Clubs in working out their international co-operation which should go a long way towards eliminating friction between nations, caused by improper or unfavorable business methods internationally.

ED'S TAXI day and night service. Phone 687 or 209-J.

SECOND CROP RASPBERRIES AND ROSES—We have received from Mr. T. J. Craig, Orwell Cove, a sample of Baby Rambler Roses, Cactus Dahlias, Hollyhock (double flowers) and Purple Raspberries, the latter growing on canes of this year's growth after this year's crop had been gathered off the old canes. The rambler roses have been in bloom all season and the hollyhock stocks from which the double flower were cut are 11 to 12 feet high. The purple raspberry canes are also 12 feet high.

STERLING INSTITUTE—The September meeting of this Institute met at the home of Mrs. W. A. Graham, Seaside House, on Thursday afternoon, the 16th with a fair attendance of members and two visitors present. The Honorary President, Mrs. Walter Simpson, presided and the meeting opened with a song. This was followed by several interesting readings and instrumental music. The minutes of the last meeting were not read as the secretary was absent. A letter in regard to the Dental Clinic to be held in Cavendish was read, and one ordered to be written to Miss Wilson in order to find out why Stanley School was not included in the list of schools. A report of the funds made at the teachers' banquet recently held in Cavendish. General regret was expressed that the Supervisor was unable to attend this meeting, but we will look forward to a visit from her in the near future. A very dainty lunch was then served by the ladies and the meeting closed by singing God Save the King, (one new hymn) was welcomed.

WOMEN'S INSTITUTE—The regular monthly meeting of the Charlottetown Women's Institute was held at the home of the Misses MacKinnon, York Point, Monday afternoon, September 27th. Opened by singing of the ode followed by reading and adoption of minutes. The roll call was answered by 17 members. It was decided at this meeting that each one answer her name with her particular labors. Members were appointed to make arrangements for the holding of the annual memorial service at the Soldiers' Monument, Central Park, day, September 28th. It was decided to sell the half organ, which has been replaced by a piano by the Institute, and that the money be paid to Mr. C. Marchionni for his repairs. After a delicious lunch served by the York Point ladies, meeting closed with National Anthem. Mrs. Clifford Bain, Cornwall, invited the members to her home for next meeting, Monday afternoon, October 11th when it is expected that Mr. Hindman will give an illuminating demonstration.

WOMAN OF STANLEY BRIDGE P. E. I. in writing to the Oakland, Calif. Maple Leaf says:—"I had the pleasure recently of meeting a woman of P. E. I. in Mrs. J. A. Clark, whose maiden name was Santa Barbara. She is far and away the most interesting woman I have met since I came to California. She is a native of Stanley Bridge, P. E. I. She was married in Colorado Springs to her husband who is a gentleman of England. They came to Santa Barbara twelve years ago. Their family consists of two sons, one of 17 years, who is a student at the Leland Stanford University, at Palo Alto, California, the other, 16 years of age, is in the high school in Santa Barbara. Mr. Clark is the manager of a large automobile business in that city. Mrs. Clark's sister, who used to live in Charlottetown, is now living in Yuma, Arizona. They own a large ranch near Yuma. They have three children, two daughters and one son, and they are all graduates of the University of Arizona. Mrs. M. A. Clark appealed to me as a woman of fine personality and of much intelligence. It is remarkable, she remarked, to have well the Maritimers have succeeded in California and the West. They owe their success to a large extent to the frugal way in which they were brought up here. Mrs. Clark left home when she was 14 years of age to go and visit her sister, Mrs. Hobart, who was then living in Colorado.

PERSONALS

Mr. and Mrs. Thomas Murray of 75 Hazen Street St. John, N. B.; have left for a short visit to Charlottetown says the Times-Star.

Mr. and Mrs. William Howlett of Gowan Brae, Mrs. Peters and Mr. Edwin Peters of Rollo Bay and Miss Matilda Campbell of St. George's were visiting friends in Gasperaux the guests of Wm. Steele.

Mr. W. W. Thompson of the firm of Thompson and Anderson general merchants of Winnipeg Beach, Manitoba, is revisiting his old home in Dunstaffnage and renewing old acquaintances. He reports the crops in Manitoba very good this year, but the weather has been unfavorable for harvesting and threshing. Mr. Thompson is largely interested in bee culture which is a rapidly growing industry in the West. He is a son of the late Mr. W. I. Thompson of Dunstaffnage.

Mr. Grant Allmon, advance representative of the John R. Van Arman's Minstrels, arrived in the City yesterday and has completed arrangements for a two days presentation of the show in the Prince Edward Theatre. Since their appearance here a year ago the com-

CHICKENS

We have been fortunate in purchasing a "select" lot of Spring Chickens that weigh from four to five pounds each.

That Car Of Yours

By WILLIAM ULLMAN

Heart-to-Heart Talks With Automobile Owners and Drivers on How to Get the Most Out of Their Cars at the Least Expense.

NEW JACKS ARE BETTER

Careful use of the latest jack equipment for automobiles will alter a car's life in the matter of keeping the user's clothes cleaner. Balloon tires and lower bodies have brought the rotary jack with its long handle to the front in most tool equipment.

AN OLD TIP REITERATED

Motorists have been warned from time immemorial against "swiping" the curb when parking. Warnings, however, do not seem to have borne much fruit. This kind of careless driving produces the shock which is transmitted into the inner cords, thereby weakening them. It is a practice that costs heavily if persisted in.

MEETING THE EMERGENCY

Don't wait until everything else has failed before becoming acquainted with the emergency brake on your car. With better service on the equipment, motorists today are forgetting all about the emergency stopping arrangement and as a result when the time comes for one to use it, one's technique is so ragged that many valuable seconds are wasted in bringing the brake into operation. It pays to use this brake occasionally if only to know how to reach it quickly when it is needed.

ANOTHER NICKEL TO SAVE

Nickel trimmings on the car are most seriously damaged by rust when the car drives in the open air. A rain for the owner, under these conditions, believes the nickel needs no further attention. A few days later, lamps, bumpers and other parts are rust speckled. A rough polish is necessary and it does the nickel no good.

WHERE CAREFULNESS PAYS

Motorism still has the problem of careless use of the ignition switch. Too frequently engines are switched on before they come to a dead stop with the result that one of the cylinders fires at the wrong time, reversing the engine and sending a hazardous backfire through the intake.

IS YOUR CAR UP TO PAR?

It isn't difficult to determine the answer to this question. To test your car's performance, find out what is being achieved by several other makes called upon for about the same kind of work. Find the average of this performance, speed, slow and fast hill climbing, gas mileage, stopping and the like. In doing this, however, remember that your belt six cents a powerful eight but it should do more than a small inexpensive four.

IT WILL GET LOWER LATER

Cars that seem too high in the rear actually have a difficult time in catching the fancy of a prospective customer. This need not be the case if the prospect can be made to see that stiff seat cushions and up-standing springs may be an advantage in the case of a specific car. Use it for carrying heavy passenger loads.

IN MEMORIAM

MISS MARY PALMER

The many friends of Miss Mary Palmer who formerly lived in this city will regret exceedingly to hear of her death which took place Monday in London, England, after a long illness. The cable with the sad news was received by Mr. H. J. Palmer, Miss Palmer's brother-in-law, in Montreal on Tuesday. Mrs. J. A. Long, widow of Montreal and Miss Elbeth J. Palmer, also two brothers, Robert of Johannesburg, South Africa, to all of whom sincere sympathy is extended.

Many has been in the South and purpose revisiting the Southern States during the winter. There are 50 people in the show and Mr. Altman informs The Guardian, they have met with unbounded success throughout their tour.

Pain In The Loins Driven Out Quickly

That dragging, wearying sort of pain makes life a misery to many people. This pain is due to a passive inflammation of the adjacent tissue. Because every drop rubs in, because it penetrates so deeply, Servline gives a wonderful result. More powerful because five times stronger, more penetrating because it strikes through soft tissue, more healing to pain, Servline Liniment should be always on hand. Sold everywhere in large 35 cent bottles.

FINAL SHOWINGS TODAY AT 3.15, 7 AND 8.45 MATINEE—26c, 15c NIGHT—37c, 26c, 16c.

Slain Man Was Warned By Clow, States Accused

TRENTON, Sept. 27.—The slaying of Thomas McCall here on Wednesday night, resulting in a murder charge against James Clow, is causing much interest in Pictou County. This morning people from every town were present at Clow's preliminary hearing, and it is expected that the court room will not be large enough to hold the crowd on Monday, when the hearing is to resume.

The sympathy of the people here with the children, who are living at their home on Hampton Street, is causing much interest in Pictou County. This morning people from every town were present at Clow's preliminary hearing, and it is expected that the court room will not be large enough to hold the crowd on Monday, when the hearing is to resume.

King Albert Gives Up Autos For Motorcycle

BRUSSELS, Sept. 28.—Albert King of the Belgians, rigorously obeying his country's economy laws as an aid in budget balancing, eating only black bread instead of white, also has given up the use of his three automobiles to save gasoline.

The King was riding from his palace to his Brussels "office" on a motor cycle. He was exceeding the speed limit. Two soundarines stopped him, demanding to see his papers. When they read the driver's permit they found it was made out to "Albert of Belgium."

The policeman, somewhat flustered, were put at their ease by the King saying: "You are right. The King has done wrong. But you will excuse me, this time, won't you? I am a bit late for work."

Infant Tuberculosis Can Be Exterminated

MONTREAL, Quebec, Sept. 27.—Pasteurization, without taking any nourishment out of the milk, has succeeded in many cities, in exterminating in a single season infantile tuberculosis caused by crude milk, according to J. A. Amyot, Deputy Minister of Health at Ottawa, speaking before the social section of the French-speaking doctors' congress here today. He cited several cities where this had been accomplished.

"The last argument against pasteurization—that the process kills the vitamin supply—is unfounded," said Dr. Amyot. Pasteurization may affect slightly the amount of vitamin "A" in milk, but the vitamins generally are not appreciably depleted. This argument is not important, Dr. Amyot asserted, as during seasons when cows are kept in stables, the amount of vitamins in milk dwindles to nothing. The longer cows are kept in stables, the speaker said, the more they were susceptible to tuberculosis. In Florida where cows were kept in the open most of the year, the percentage of tubercular cows was very small—two per cent. The percentage steadily increased as the further north the herds were situated. He gave the average of tubercular cows in North America as 45 p. c. Diseased cows, Dr. Amyot asserted, were responsible for 25 per cent. of infantile tuberculosis, and crude milk was the sole cause of consumption caught from the milk. Germs of typhoid and other fevers were also frequently carried by cows.
