SPANISH LEADER CAUSES STRIKE

TORUNNA, April 28 (Special)—The arrival here of Senor Don Juan de la Cierva Penafiel, who was formerly conservative Minister of the Interior, who has been engaged as counsel in a court case, raised a storm among the laboring classes. The unions declared a general strike and the order was promptly obeyed. Now all the factories and workshops are empty. An ugly mob met Senor de la Cierva at the railway station and jeered him. The police had difficulty in preventing violence.

NEW DREADNAUGHT IS LAUNCHED

NAPLES, April 28 (Special)—The new Italian dreadnaught Duilio was launched at the navy yard at Castellamare in the presence of the King and Queen of Italy and a large gathering of the military and naval authorities. Queen Helena christened the vessel amid the cheers of an immense crowd of spectators.

KRUPP CHAIRMAN DENIES CHARGE

COLOGNE, April 28 (Special)—Herr Kuglenberg, chairman of the Krupp Board, in an interview published by the Cologne Gazette, says if the Berlin agent of the company bribed officials of the German War Office for the purpose of gaining information about armament contracts it was with his own money and without the knowledge of the company. The secret reports sought were only such as any company must have in order to know what its competitors are doing.

EUROPEAN SITUATION

BERLIN, April 28 (Special)—There are many indications here of the seriousness with which the German government and public regard the European situation, which has entered another crisis as grave as that which preceded the Austro-Russian demobilization. The press bureau of the German Foreign Office, contrary to its usual custom, is not prepared with a statement either in regard to the ultimatum to Montenegro or to the general situation. It is believed, however, that it is probable that force will ultimately have to be employed to expel the Montenegrins, who, it is thought, will not retire from Scutari, voluntarily or in return for a loan or compensation elsewhere.

After Measles Whooping Cough or Scarlet Fever

is a critical period—weakened throats, delicate bronchial tubes and unsound lungs often follow; sometimes impaired sight or hearing. But if SCOTT'S EMULSION is taken promptly and regularly after the fever subsides it quickly and effectually restores appetite, strength and flesh.

Scott's Emulsion contains the elements nature requires to restore sound health.

Interest on Debenture Stock will be payable from January 1st, 1913, and interest thereon and on instalments will be adjusted when all payments have been completed. Legal opinion of Mr. Hector McInnes, K. C., of Halifax, will be furnished upon request. IMPORTANT FEATURES OF THE ISSUE (As furnished by the President and the General Manager of the Company.) (1) A conservative valuation of the Company's mortgaged assets is \$20,000,000. (2) This issue of Debenture Stock ranks equally with \$1,000,000 now outstanding, and is secured by a mortgage to The Eastern Trust Company, on the Company's assets subject only to an issue of 5 p. c. Bonds limited to \$6,000,000. (3) After making provision for the Bonds issued, there remain assets to the value of \$14,000,000, equal to nearly five times the Debenture Stock issued. (4) The Debenture Stock is a senior security to \$1,030,000 Preferred Stock (which receives 8 p. c. dividends) and \$6,000,000 common stock (which receives 6 p. c. dividends.) (5) In addition to a large and modern manufacturing industry, including blast furnaces, open hearth steel plant, steel rolling mills, coke ovens, etc., etc., the Company owns 83 1/2 square miles of iron ore areas at Conception Bay, Newfoundland, (containing according to the report of eminent mining engineers 200,000,000 tons of proven ore and over 1,200,000,000 tons of ore reasonably supposed to exist), and coal areas at Cape Breton estimated to contain over 2,500,000,000 tons of coal. (6) The average earnings of the Company for the last three years (after providing interest and sinking fund on the Bonds) amounted to \$723,500 per annum, equal to over four times the interest on Debenture Stock, including this issue. LETTER OF THE PRESIDENT Regarding this Issue. Mr. Robert E. Harris, K. C., President of the Company, has written the following letter to Messrs. F. B. McCurdy & Co., and the Bankers Bond Company, Limited:— NOVA SCOTIA STEEL AND COAL CO., LTD. Halifax, N. S., March 6th, 1913. Messrs. F. B. McCurdy & Co., Halifax, N. S., and Bankers Bond Co., Ltd., Toronto, Ont. Dear Sirs: With reference to the \$1,000,000 of six per cent Debenture Stock recently issued by the Nova Scotia Steel and Coal Company, Limited, I beg to point out that the same is secured by a mortgage upon all of the lauds, iron ore and coal deposits, collieries, buildings, smelting furnaces, mills, and all other fixtures, plant, machinery, rolling stock, etc. of the Company, and ranks pari passu with the \$1,000,000 of Debenture Stock previously issued and immediately after the first mortgage bonds of the Company which are limited to \$6,000,000. The assets and property of the Company covered by this mortgage stand on our books at \$15,670,613.58, but the conservative estimate of the value of these assets and property exceeds \$20,000,000. The average annual earnings of the Nova Scotia Steel and Coal Company, Limited, for the three years ended December 31st, 1912, have been \$1,053,500. The amount required for interest and sinking fund charges on the First Mortgage Bond of this Company is \$330,000 per year, leaving the sum \$723,500, with which to meet the interest of \$180,000 on \$3,000,000 of Debenture Stock, or four times the amount required. In this connection, I wish to point out that during the year 1911 and 1912 the Company expended sums aggregating upwards of \$2,300,000 on buildings, plant, equipment, etc., and that much of this expenditure is only now becoming productive. TRADE CONDITIONS For the year 1913 we have sold a considerably increased quantity of ore at better prices than prevailed last year, the dumping of American Iron and Steel products which existed in 1912, has (owing to improved conditions in the United States) practically or entirely ceased, and the prices of our iron and steel products have therefore materially increased. We have orders for the whole of our out-put of iron and steel for the first half of the year 1913 at improved prices. We also estimate that the out-put of our collieries for the year 1913 will be somewhat larger than 1912. Under these circumstances, I have no doubt whatever that our earnings for the present year will show a considerable increase over any previous year in the history of the Company. PURPOSE OF ISSUE The proceeds of the \$2,000,000 Debenture Stock now being issued, will be used to repay a part of the expenditure on capital account for the past year, and the balance will be applied in equipping a new colliery, a new open hearth plant, and other improvements and additions to plant and equipment to provide for still larger outputs, thereby adding to the earning power of the Company.
