TALK OF WAR EXCITES AMERICA

Washington Says No Cause For Alarm But General Opinion Is That Mikado's Government Will Give Way To Popular Indignation

New York, June 11.—Following the publication of the resolutions adopted by the council of the Progressive party in Japan yesterday there was a gentle war here in Wall street today. The most disturbing despatches came from London where the various Japanese bond issues declined in amounts ranging from small fractions to one point. Japanese funds suffered several declines in Paris.

and Japan is bound to come some time. The Japanese really in San Francisco, while trifling, really indicates where the chief trouble is coming from. The people of the Pacific coast will not agree to a general immigration of Japanese. The new Japanese want the freedom of the world and will not brook being considered an inferior race.

The Sun's Washington correspondent writes: "With the feeling that it is virtually bound and helpless and powerless in the tide of misunderstanding and 'cockiness' on the part of industrial Japan, the Washington government, with what patience and calmness it can muster, is watching the trend of events that slowly but surely seem to be undermining the cordial relations that have existed and officially exist between Japan and America."

"The two nations are diplomatically on the best of terms. Nothing has occurred up to this time to show conclusively that the government of Japan sympathizes with the anti-American policy that had gained such headway in that country. But it is apparent to the administration that a large and powerful section of the Japanese people inclined by agitators who stop at no exaggeration in a movement that has for its object either the humiliation of the United States or war with that nation."

FEELING THAT WAR MUST COME.
The feeling in official Washington and in army and navy circles is and has been since the Russia-Japanese war, that a sharp conflict between the United States and

Japan is bound to come some time. The Japanese really in San Francisco, while trifling, really indicates where the chief trouble is coming from. The people of the Pacific coast will not agree to a general immigration of Japanese. The new Japanese want the freedom of the world and will not brook being considered an inferior race.

GOOD FISHING ON THE BANKS

NORTH SYDNEY, June 10.—Vessels arriving from the Banks report fishing good. The brig Couronne, which left here a short time ago arrived at St. Pierre on Saturday with eleven hundred quintals from north of the Grand Banks. The brig will land her catch at the French Colony, and is expected here this week for bait before the caplin strike in. The schooner Trévis, also arrived at St. Pierre with a catch of eight hundred quintals. The captain reports the prospects good at the Banks, but lately very rough weather greatly retarded the operations of the fleet. The ice has done much damage to gear and boats. Another vessel, the St. Christophe, has just arrived at St. Pierre, and reports communicating with French and American fishermen on the Banks, all of whom are well fished. The Christophe has a catch of one hundred quintals.

TO PROVE WHALE SWALLOWED JONAH

LEXINGTON, Ky., June 10.—J. W. McGarvey, a resident of the Bible College of Kentucky University, will be called upon to give his deposition in the lawsuit in St. Louis, in which Dr. Gustave A. Hoffman, of St. Louis, who is suing for \$5,000, will try to prove by Mr. McGarvey's evidence that the Biblical story of Jonah and the whale is true.
Dr. Hoffman gave his name for \$5,000 to the Bible College of Missouri. When the note fell due he refused to pay, because, he alleges, the college, among other things was teaching that the story of Jonah being swallowed by the whale was a myth.
Other high authorities of the Christian Church besides Dr. McGarvey will be called to make depositions, and all are said to have implicit faith in the Jonah story.
Whether Jonah was swallowed by the whale and "several other disputed points in the Bible may be judicially determined by Judge McMillen, of the St. Louis County Circuit Court.

BIG HUSKY MEN WILL SAY "YES"

New York, June 10.—Proposing by women is bound to come in the course of time, according to Mr. H. H. Wood, a lawyer. When the heavy line does come man's marriage chances will depend on his good looks and bank account.
"I've a married man and woman equal at the beginning of the long journey," she said. "The mother's age came first. During that time the mother suffered. No one knew or cared who his father might be. Aryan and Semite history shows this. We have another example in the Dyak tribe, where the women take partners until they find one who suits them."
"As to man's position in the church, home and government he came a subject of dispute. But the patriarch is a subject of dispute. When man and woman have assumed their proper positions, men may will feel surprised and women will shame in avowing her love.

SPOKE OF HIS MATE THE "DOOK"

DETROIT, Mich., June 10.—The Duke of Manchester, who now lives in London, is coming here to work in the railroad shops controlled by his father-in-law, Eugene Zimmerman, of Chicago.
It is not because his grace needs the money that he will resort to this manual labor, but because he is anxious to get a thorough knowledge of the railroad business.
Some say that the Duke contemplates stepping into his father-in-law's shoes when that gentleman gets too old for business, or passes into the world beyond.
That the duke will become one of the laborers in the railroad shops was announced by Eugene Zimmerman, his worthy father-in-law.

FREDERICK THE GREAT'S SWORD

LONDON, June 11.—May 17 was the centenary of a remarkable incident in the relations between the first Napoleon and Prussia. While that kingdom was at its feet after the battle of Jena, Bonaparte visited Potsdam, and there he saw the sword of Frederick the Great. He took possession of it, saying, "I value this sword more than all the treasures of Prussia." It was deposited at the Invalides on May 11, 1807, with military pomp and ceremony, to the immense gratification of the people of Paris.
But there came the black days of 1814, and with the allies on the point of entering the French capital, the governor of the Invalides, Marshal Berrurier, resolved to take steps for the preservation of the precious trophies then collected especially the sword of Frederick the Great. Interpreting this instruction in a peculiar fashion, the governor took effective measures for preventing them from falling into the hands of the enemy by making a bonfire of them; and it was said that he threw Frederick's sword into the flames.

A LIGHTNING RECONNAISSANCE

LONDON, June 10.—Very different to the general opinion which we extend to-day to Prince Fushimi from that which was received by the first British mission sent to the emperor's court at one royal guest. The difference is explicable on the spot of grounds; we are delighted to see him; the Japanese, half a century ago, did not want to be any other foreigners. As the tide of British warships, accompanying Lord Elgin steamed up to Nagasaki, a high official, seated on the deck of a boat at the water's edge, on the bank, looked on from the boat which he was visiting. He waved, a far as a signal for the war vessels to go. They did not. The official went on rejoicing. But there were others not so easily pleased. Two boats were skiffing through the wash of the vessel's paddle wheels, and in such a manner they were able to peer through the port holes, and shout out his observations to a shareholder. Of the arrangement of H. M. S. "Fulton" only the gun was missed by this ready reconnoiterer of a visitor's fighting power.

He had the scheme at heart and looked upon it as very important to make Canada a point of communication for a large portion of the empire.

MOTOR CORPS FOR CANADA MILITIA

TORONTO, June 11.—General Otter, chief of command of the Military Division of Western Ontario, has mooted a proposal to form a motor corps, similar to motor corps in England and European countries. In an interview, he discussed the matter informally with the secretary of the Ontario Motor League, and has decided to request the assistance of that body in forming the corps. He is at present obtaining full information regarding the organization of the British motor corps, which he expects to have in the course of a couple of weeks.
General Otter's idea is to give to owners of motor cars who will enter the corps commissions as officers. As the honor thus conferred will be a substantial one, it will be entrusted only to those who take up the matter seriously, rather than those who might take it up as a fad for a short time.
In Great Britain, Germany, Austria and other countries where motor corps are most exclusive, particularly the German corps, which is under the special patronage of the German Emperor, and all the cars are painted in uniform color.

SUN'S UNEQUAL FIGHT WITH RAIN

LONDON, June 11.—At last the weather shows some little sign of improvement. Old King Sol has been waging a fierce battle with the elements during the last few days, but his efforts are only just beginning to make themselves felt. The first part of the week saw nothing but deluges of rain, and although it was fine so near London as Epsom on Derby day it was wretched in London itself.
The sun would make an attempt to break through the clouds, and we were just beginning to congratulate ourselves that the weather was beginning to take a turn for the better, when rain came on as fast as ever again. If the weather is really improving it will be welcomed, for it has already done enormous damage to fruits and flowers, which are very scarce and dear.
Flower gardens have been ruined in all parts of the kingdom.

CRITICAL TIME FOR THE DUMA

ST. PETERSBURG, June 10.—The critical moment in the life of the Duma has arrived, and Premier Stolypin, and the constitutional democrats are fighting with two fronts to save the young parliament. The battle within the cabinet between M. Stolypin's backers, and the reactionaries is proceeding vigorously and each faction is manoeuvring for the support of Peterhof. No decision has yet been reached, but the latest indications are that the Premier is winning out. The constitutional democrats are bending all their might to secure a majority.
To compass this they are even willing to shelve compulsory expropriation and agrarian, both cherished, and a cardinal plank in their platform, and effective slogans in the last election.
