ALLIED COMMITTEE ON GUARANTEES MAY CONTROL GERMAN FINANCES

PARIS, Sept. 26.—Germany's ing of Belgium's industrial program next year, which is res. German deliveries during the first half of 1921 including 100,000,000 francs, worth of various kinds of machinery, as compared with 40,000,000 francs last year; 52,000,000 francs' worth of railroad material, as compared with 12,000,000 francs' worth of chemical products, as compared with 20,000,000 francs' worth of glass manufactures in Belgium are closing their factories in many districts, glass importations from Germany totalled almost 8,000,000 francs during the period under review, as compared with 2,500,000 francs.

German dumping in Belgium, it was pointed out, is facilitated by the fact that no legislation exists in Belgium to prevent infringement on Belgian trade marks, that counting of German goods in Belgium is responsible for the sudden halt

I. O. O. F. May Form Junior Branch Ages 16 to 21

TORONTO, Sept. 22.—A proposal to organize a juvenile branch of the I. O. O. F. for members between the age of 16 and 21 was presented to the Sovereign Grand Lodge of the Ontario at a meeting of delegates from Minnesota. The tentative bill as presented embodied the suggestion that the branch be given its own governing council. For years there has been an influential body of the order working for the lowering of the minimum age limit from 21 to 18 and the Minnesota measure is designed to meet this demand. It was referred to the committee on legislation, which will report tomorrow or on Thursday.

Another proposal emanating from the Illinois delegation, was that subordinate lodges be permitted to resume the use of foreign languages in their ritualistic exercises. The adoption of this suggestion would lift the ban, imposed shortly after the United States entered the late war, on the use of German in the order.

The Minnesota representatives also gave notice of a bill for the establishment of a tuberculosis hospital for the treatment of Ogdets members of their families. Representative S. H. Pape, of Pennsylvania, proposed an amendment to the code to permit grand encampments to authorize non-beneficial subordinate encampments to expend funds for the benefit and advancement of the order.

Representative P. W. Mahoney, of Wisconsin, moved to reduce the age at which members may become non-beneficial members from 50 to 45 years.

It was the unanimous decision of the grand lodge to meet in 1922 in Detroit.

The sub-committee on finance reported a balance on hand on Aug. 1, 1920, of \$59,570.50.

Receipts during the year were \$186,550.72; expenditure, \$173,465.99, leaving a balance on hand at July 31, 1921, of \$73,055.25.

Mileage was set at 11 cents a mile and the per diem allowance at \$7.50 for accredited representatives of the Sovereign Grand Lodge.

Lengthy discussion followed the presentation of the report of the committee on appeals sustaining the appeal of John A. Moolville and others of New Orleans, against the action of the Grand Lodge of Louisiana, which arrested the charter of lodges in New Orleans. The committee's report was finally adopted by a large majority.

The proposal to reduce the age limit to 18 was re-introduced by the submitting of notice of a motion calling for amendment to the constitution. The measure will come up for discussion at next year's session.

TOO ILL TO GO TO SCHOOL

Mother Tells how Daughter was Made Well by Lydia E. Pinkham's Vegetable Compound

Cobourg, Ont.—"Lydia E. Pinkham's Vegetable Compound was recommended to me for my daughter. She had had trouble every month which left her in a weak and nervous condition with weak back and pain in her right side. She had these troubles for three years and frequently was unable to attend school. She has become regular and feels much better since she began taking the Vegetable Compound and attends school regularly. She is gaining steadily and I have no hesitancy in recommending Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Blood Medicine."—MRS. JOHN TOMS, Ball St., Cobourg, Ont.

Standing all day, or sitting in cramped positions, young girls contract headaches, backache, irregularities, nervousness and bearing-down pains, all of which are symptoms of woman's ills. Every mother who has a daughter suffering from such symptoms should give Lydia E. Pinkham's Vegetable Compound a fair trial.

JUST WHY SOME LOVERS JILT

The psychologist, or mind doctor, sees love as a disease or affliction of the mind. Not a disease in the physically-destroying sense, but an obsession or overcrowding of ideas and emotions in one particular direction.

Most persons think that the "jilt" is a heartless flirt. As a fact, among many lovers who suddenly put a full stop to their love affairs, there are few of the callous type.

As a rule, psycho-analysis says, the "jilt" is often at a loss to know why he or she has ended without a word of warning the sweet association with another which should have reached its perfection in marriage.

All the lover knows is that love has unaccountably died, and that it is impossible to "carry on" to the old way any longer.

The abruptness and brutality of the break is caused by the fact in his overwhelming distress and shame the jilt seeks refuge in utter silence. After all, what can he say? The only thing to be said by the jilted one is, "I can't marry you!" And by his silence this is all too painfully understood.

House painters and novelists are responsible for some highly colorful stories.
