REBEL BLOCKADE THREAT DRAWS WARNING

CHAMPIONS ARE DECLARED AT FOX SHOW

TROPHIES ARE AWARDED BY T. GOVERNOR

Grand Finale to Greatest of Silver Fox Exhibitions.

What can truthfully be claimed as one of the greatest Silver Fox Shows of all time came to a close yesterday afternoon at four o'clock with His Honor Lieutenant Governor George D. Delhousie presenting the trophies and cups to the successful exhibitors.

Because of the change of date there were not as many visitors from other provinces, particularly Ontario, as last year. The conflicting of dates with the Royal Winter Fair was the cause, and local attendance was cut down due to snow storms which made it impossible to get automobiles except on the paved road between Summerside and Charlottetown. In all other respects such as number of entries, quality of foxes shown, and the keenness of competition, this Show was undoubtedly the best ever held on Prince Edward Island and probably one could go further and say to the world.

It was indeed an inspiring sight from the medium to extra pale stages were shown, to look down at the table and see anywhere from 10 to 40 beautiful animals with thick necks varying in amount according to the class, and sparkling their backs. Good judges of foxes like Dr. R. H. MacDonald of Saskatoon, President of the Western Silver Fox Breeders' Association, Mrs. J. J. Johnson of Norway, and many others, enthused over them.

Years ago quite a number of inferior animals would be entered as the exhibitors were not so well acquainted with what is required, but that is no longer true, and now from the last placed fox on the table is a desirable one.

Probably the most interesting phase of the whole Exhibition was the judging of groups, herds and championships. These represented the creme de la creme, the very choicest of the 600 entries, and were certainly a sight to see. This feature speeded up the attendance and yesterday was on a par with Wednesday in that respect.

Ray Woodside, a comparatively young rancher from Malpeque, whose meteoric rise in this fascinating industry was one of the most talked of events in connection with the show, was crowned Grand Champion—or rather his fox was—in the final judging, with W. B. McArthur, Kensington, a name that has figured in prize lists over since shows were held, runner up and owner of Reserve Champion.

The Champion Female of the Show and the Reserve Champion were both won by W. B. McArthur.

- The adjourned special meeting of the shareholders and patrons of Dunstaffnage Cheese and Butter Co., Ltd., will be held on November 25th at 1:30 sharp. L-420-11-16-21.

First Canadian Woman Minister Ordained

Rev. Lydia Gruchy (FRONT ROW RIGHT), shown after she was ordained at Moose Jaw, Sask., as a minister of the United Church, following the new ruling permitted women to be ordained. She is reported to be the first woman minister in Canada. She has been assisting to the minister at St. Andrew's church here. Sitting (LEFT) Rev. Dr. J. L. Nicol, president of Saskatchewan Conference of Churches. Standing (LEFT to RIGHT): Rev. T. H. Sendall, secretary of the conference; Rev. Dr. George Dorey, superintendent of missions; Rev. Dr. D. S. Dix, St. Andrew's college principal; and Rev. Geoffrey Royer of St. Andrew's church in Moose Jaw.

Eden Outlines Foreign Policy Defines Circumstances Under Which Britain Would Go To War.

LEAMINGTON, Warwickshire, Nov. 20—(CP-Havas)—Foreign Secretary Eden tonight outlined the circumstances under which Britain would go to war.

Referring to British armed forces at home and abroad in a speech to his constituents here, the Foreign Secretary declared: "These arms will never be used in a war of aggression. They will never be used for a purpose inconsistent with the Covenant of the League of Nations or the pact of Paris."

"They may—and if the occasion arose they would be used in the defence of France and Belgium against unprovoked aggression, in accordance with our existing obligations."

France Faces Grave Domestic Problems

PARIS, Nov. 20—(CP-Havas)—Left-wing supporters of the Popular Front Government tonight stressed their determination to seek a new press law "with teeth in it" to put an end to defamatory attacks on public figures, such as those blamed for the suicide of the late Socialist Interior Minister, Roger Salengro.

Despite the situation created by Italo-German recognition of the Spanish Insurgents, and General Francisco Franco's threat to blockade the port of Barcelona, the grave domestic problems caused by Salengro's death continued to preoccupy political circles.

To honor Salengro's memory two demonstrations will be held over the weekend, one tomorrow night at the Velodrome and another Sunday. At the same time Salengro will be buried at Lille, the town where he died and of which he was mayor.

TEACHERS' INSTITUTE HOLDS MEETING

Mr. George Hart Elected President—Address on Credit Union by Prof. Croteau.

The annual meeting of the Charlottetown Teachers Institute was held at Rochford Square School yesterday with the President, Miss Mary Callaghan, in the chair. The newly elected officers were: President: Mr. George Hart, Prince Street; Vice-President: Miss Madelyn Clarkin, Queen Square; Secretary: Miss Ester Rattenbury, West Kent; member of Executive: Miss Mary Callaghan, Rochford Square.

President's Report

Miss Callaghan in a report of the year's work said that four executive meetings had been held during the year and many topics of interest were discussed. Two resolutions were drawn up and presented to the City School Board. As a result of the first a sum of money has been voted by the Board to defray the expenses of any teacher wishing to attend one of the summer schools. The second resolution dealt with the procurement of a course in Domestic Science for pupils of Grade VIII. The Board have been asked to give this matter serious consideration. The President also mentioned the dissatisfaction expressed by the

Strike Peace Move Fails

(A. P. by Guardian's Special Wire) SAN FRANCISCO, Nov. 20—Another labor department attempt to bring about resumption of longshoremen's and seamen's strike peace negotiations failed tonight when employers announced rejection of a proposal which would have provided "neutral port committees" for settlement of individual controversies between shipowners and unions.

The plan was advanced during the day by Assistant Labor Secretary Edward P. McGrady. T. G. Plant, spokesman for the shipowners, said the plan was "impracticable."

Labor Hears Fascist Menace To Peace

(A. P. by Guardian's Special Wire) TAMPA, Fla., Nov. 20—Labor support for an amendment to the United States constitution to prevent "the vast uncontrolled forces of private industry" from plunging the nation into another depression was urged today by Edwin S. Smith, National Labor Relations Board member.

Smith's speech followed upon a ringing pledge by President William Green that American Labor would fight Fascism to its death. Organized labor, Green said, would stand as a "Rock of Gibraltar" against dictatorship.

"We are not concerned with the brand of dictatorship," he shouted. "We are against every brand of dictatorship." Controversy centred about two ed by a denunciation of the Mussolini and Hitler Governments by fraternal delegates from the British Trades Union Congress.

Fog Halts Shipping In St. Lawrence

(C. P. by Guardian's Special Wire) MONTREAL, Nov. 20—Dense fog settled over the St. Lawrence river tonight, bringing shipping on a 200 mile stretch between Lake St. Francis, above Montreal, to Quebec to a halt.

Signal Service here reported 29 ocean-going vessels had either dropped anchor or were proceeding very slowly. Fourteen vessels, out bound from Montreal and including the Duchess of Bedford and Ascania, were caught in the heavy mist, accompanied by snow and rain, between here and Quebec.

Bound for Montreal, eight ships were delayed after passing Quebec earlier in the day.

PARLIAMENT PREPARATIONS UNDERWAY

(C. P. by Guardian's Special Wire) OTTAWA, Nov. 20—Preparations for the forthcoming session of Parliament and consideration of the Canada-United Kingdom trade agreements are the chief subjects occupying the government, and the ministers are making no announcements pending the conclusion of negotiations of the last named subject.

Prime Minister Mackenzie King was in close conference with his cabinet this week both in formal sessions and in private discussions in his office. Session preparations involve the consideration of estimates with which are bound up the Government's much talked of defence program.

The Prime Minister said he would announce the opening date of Parliament within the limit of time which will give the statutory 40 days notice. It is anticipated the date will be Jan. 7. It is also expected formal announcement will come after one of the three Cabinet sessions scheduled for next week.

With respect to the Canada-United Kingdom trade agreement it is understood the Government would like to be in a position to present the basis for its renewal to Parliament at the forthcoming session. Negotiations opened early last summer but there have been several knotty angles which remained obstacles even after the Prime Minister had visited London a few weeks ago.

It is possible these points will be matters for discussion when the Imperial Conference is held after the Coronation ceremonies in May. In that event the likelihood of a fall session next year would be strong. The hope is, however, that the treaty, which expires in the fall of 1937, may be renewed by action at the forthcoming session of Parliament.

One of the first outward signs of the imminent parliamentary session is the presence in his office of Mr. Speaker, Hon. P. F. Casgrain, who has been in Ottawa several days.

Firemen Discuss Convention Plans

TRURO, N. S., Nov. 20—Plans for the publication of the fire chiefs' year book and tentative arrangements for the Maritime Fire Chiefs' Association convention in Charlottetown next summer, were discussed today at an association executive meeting here. Chief C. A. Cunningham, Saint John, and Chief G. P. Ryder, St. Stephen's, attended from New Brunswick.

GOVERNMENT TROOPS DRIVE BACK REBELS

Reoccupy University City as Heavy Snowfall Temporarily Halts Fighting.

(By Christian Ozanne) (Copyright 1936, by the Havas News Agency)

MADRID, Nov. 20—A heavy snowfall tonight brought comparative calm in the 14 day struggle for Madrid, with the War Ministry claiming complete reoccupation of University City.

The once-beautiful campus grounds, studded with faculty buildings wrecked by insurgent shells and machine gun fire, were illuminated tonight by planes from the French-owned Casa Velasquez, which until the siege housed the art institute. Some observers declared the fire was started by insurgent Moors retreating toward the Manzanares river.

The hospital clinic and other surrounding buildings were retaken by militiamen after a sharp clash, according to the official announcement, which said a Moroccan detachment was trapped inside the San Cristobal asylum. On the Guadarrama front, the statement said, enemy troops launched two attacks today, but both were routed with heavy losses. Government troops drove the insurgents back beyond their original positions, it was claimed.

Inspired to new confidence by their success in defending Madrid.

German U-Boat Sinks, Eight Are Missing

LUEBECK, Germany, Nov. 20—(AP)—The German U-boat number 18 sank in Luebeck Bay tonight with eight men missing of the 20 aboard. The submarine collided with another ship during a practice run and went down within a few minutes.

Hope was abandoned for the eight men after futile efforts to reach them. The U-18 was one of a new series of submarines and was a unit of the Weddigen U-boat flotilla, the first flotilla formed after the Anglo-German naval treaty.

Industrialists See Marked Improvement

(C. P. by Guardian's Special Wire) SAINT JOHN, N. B., Nov. 20—Such major barometers of industry as newspaper, and coal production are showing marked improvement in Canada. This improvement "is going to grow throughout 1937," and all classes of industry may expect great benefit from the Federal housing and improvement plans.

This optimistic report of business at present and in prospect was presented in a joint interview tonight by two leading Montreal industrialists—Harold Crabtree, president of Howard Smith Paper Mills, Limited, and chairman of the board of Fraser Companies Limited, and Arthur M. Irvine, vice president of Dominion Steel and Coal Corporation, Limited, and a director of Fraser Companies Limited. Visiting this city on private business, the Montreal executives arrived this noon and will remain until Sunday afternoon.

Britain Seeks Guarantees Of Safe Anchorage Will Not Tolerate Any Interference Of Shipping On High Seas, Is Intimation.

LONDON, Nov. 20—(CP)—Great Britain will tolerate no interference with British shipping on the high seas, it was intimated tonight in connection with the Spanish Insurgent threat to blockade Barcelona, but draws a sharp distinction between shipping in Spanish territorial waters, which may be the scene of military operations, and shipping outside territorial waters, in other words on the high seas.

(The Associated Press quoted informed sources as saying British warships would fire on Spanish Insurgent vessels as "pirates" if they interfered with British merchant shipping. Since the British Government has not recognized either side in the civil war as a belligerent, these sources said, under international law any molestation of her shipping must be regarded as out-and-out piracy.)

Greek Freighter Is Refloated

(C. P. by Guardian's Special Wire) POINT ESCUMINAC, N. B., Nov. 20—Prisoner on a reef near here in Miramichi Bay since Wednesday night, the Greek freighter Delphos was floated at eight o'clock tonight by the powerful tug Foundation Franklin.

The 4,739 freighter steamed away under her power and was believed to be heading for some port in Maine. She was enroute from Montreal to Newcastle, N. B. In ballast at the time of grounding and original plans were for her to load pulpwood for Rotterdam. The extent of damage, if any, was unknown pending examination in port.

Blockade Threat

Regarding the threat to establish a blockade, it was pointed out that Britain has not recognized the Insurgents as a belligerent. Until such rights have been accorded the Insurgents have no authority to impose a blockade. Furthermore, the Insurgents must be able to make the blockade effective, and London naval circles strongly doubt that the Insurgent fleet is strong enough to do this. The Madrid tonnage is considerably greater, but is handicapped by a lack of officers.

One question to be taken up by Sir Henry Chilton with the Burgos authorities concerns bombardment of Barcelona. It is recognized

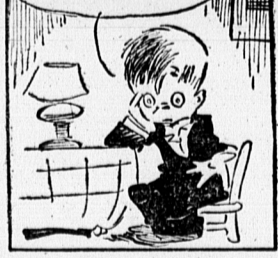

Seven Killed in Chemical Blast

ROME, Nov. 20—(CP-Havas)—Seven persons were killed and at least 20 injured yesterday in an explosion which rocked the chemical plant at Sinico, 10 miles from the Austrian frontier, according to an official communique issued here tonight. Earlier reports had placed the casualty toll at 10 dead.

Still earlier dispatches received at Vienna said 42 persons had been killed and 21 injured. According to the communique, a tank of nitrate of ammonia for the manufacture of agricultural chemicals exploded.
