The New Round Eye Glasses

We fit up is very becoming when the right shade either dark or light is used and the large size is a real benefit because the range of vision is extended and rim or edge of lense more out of the way. We have tested and fitted many with satisfactory results.

Kryptok Double Vision Lenses

When the age of forty to forty-five years is reached one needs another pair of glasses—a pair for reading and a pair for distance vision. Kryptoks combine these two pairs into one, the upper half of the lens for distance vision and the lower half for reading. Kryptoks are not two lenses cemented together—they are two strengths of glass fused into one.

KEEP THE TOWN SPIRIT ALIVE
Is our town on the DOWN grade. Are things slackening up? Are the weeds commencing to grow on our main thoroughfares? Do people shun our community? Maybe it isn't as bad as all that. And yet we feel that all is not right. The hustle and bustle of business is wanting. We don't GET TOGETHER as often as we used to. Each man is keeping too close to himself. If this is so, our town needs a TONIC. We must GET AFTER ourselves. We must start a campaign in the interests of HOME TRADE. We must keep our town ALIVE at all costs. Even if it DOES cost money to keep the town spirit alive, it is surely money well spent. There's no use in waiting. We must make things THUM now.
