MON.—TUE. and WED.

One night, she came into Roth's office, weary but smiling triumphantly. "It's all set," she shook the envelope at him. "We open October first."

"It isn't too late to get out of it, Emily. Aren't you taking an awful chance?"

"She dropped into a chair. "No time to think about that now."

"But the money, Emily. Have you got that kind of money?"

"Billy and I have sold our last bit of stock—everything. I'll have to put up all I have. The bank is coming through with a loan."

Roth grunted. "Banks I hate them. He stood and walked to her. "Before you get in too deep with the banks, you and me got to have a little talk."

"What do you mean?"

He shrugged his shoulders. "Long as you're going to be a fool I might as well be, too. I'll go in with you."

It seemed to Emily that the place would never open. Even after the invitations had been sent to the trade and the press, to Broadway and Park Avenue, even in those last three days, there were fabrics to be returned, appliances to be adjusted, furnishings and draperies that did not match the approved samples.

She did not go to bed that final night. She stood in the midst of the chaos that would erupt in the chaos, she felt, and darted about the building, advising her, listening to complaints there.

When she came upon Billy, asleep on a mat in the room that was to be the exercise room, she shook his head and fingered his hair back into shape. "Time is it?"

"Three or later."

"Let's get out of this firetrap."

"Firetrap! Oh, Billy how can you when I've got this?"

He stood quickly and took her hands. "That doesn't mean anything. It's just a saying. He smoothed her rumpled hair from her face. "It's going to be swell."

She softened. "You think so?"

"Sure. It's always like this. You know, like a dress rehearsal. Bad dress rehearsal, great opening. That's the way it always is. It's going to be swell, Karie."

Those were the words she needed. "You sure?"

"Absolutely." He kissed her gently on the forehead. "Let's beat it."

In a minute, there are a couple of things—

Three hours later, in a silky mist that was turning gray with the rising sun, they left.

The opening, limited to those invited, was scheduled for two o'clock, but Emily arrived long before that. Though she had not been able to sleep, she was in a buoyant state. The excitement of the opening, the day itself—clear and sharp with fleecy clouds sailing high above the city—was all that she needed. She was relieved by the thought that she had done all she could to make the venture a success.

She was further encouraged as she looked up at the newly decorated facade; and she paused briefly to admire once more the elegant simplicity of the new design. Karie Ellis in gold on the black marble strip above the door.

She was in a cheery mood as she saw the final instructions to the well-groomed young women guides—officially titled "Consultants"—who had been chosen for their complexion, their hauteur and their accents.

From then until the reception began, there was nothing for Emily to do but stand about in the lobby, to do but stand about in the lobby, to do but stand about in the lobby, to do but stand about in the lobby.

CHAPTER XXV

It was pleasant for Emily to picture that afternoon when she could walk into the inner circle and announce, casually, "I've just bought out Roth's."

And then the excitement! The instant, high-pitched chatter spreading from table to table, that would be an afternoon. And all those who had said, "You'll be the queen of the comedies industry some day"—as if to say, "you certainly are not at present"—could no longer back in complaisant security.

But far beyond its effect on the club, would be the position itself, its power and prestige — its chance to prove all those immoderate claims Roth had been too timid to attempt. Given a free hand, there was no limit to what she could accomplish.

When at the end of the first year as its president, Aaron Roth and Company showed one of its best profits, everyone concerned but Emily was greatly surprised.

Though the proof was there before him, Roth had difficulty in believing it. Certainly he could find no reason for the success. Emily had behaved in thoroughly unbusinesslike fashion. She spent hours—often days and nights on end—over inconsequential details, ignoring or postponing important transactions. She would worry for a long period over a new shade of lipstick or a catch phrase for an advertisement.

Two or three times Roth spoke to her of his fears. "Look, you're the boss now, and it's none of my business, but why don't you let somebody else take care of a few details once in a while?"

She would thank him and promise to do so, but she had so frightened her staff by rate, that wild outbursts that now, even if they were free to do so, none would complete the smallest transaction without her approval.

As Roth knew, Emily was going to open a retail shop uptown, and though he thought this rather frightful, he did not wholly disapprove of it.

Roth had supposed that Emily would open a small shop—one that, even if it did no more than break even, might be a good advertisement for the product. But the establishment, Emily outlined to him was to take up the first three floors and the roof of a building on Madison Avenue.

good quota of top ranking actresses; a smattering of the smartest night club entertainers, to give dash to the gathering; and a solid background of richly dressed suburban matrons and women about town.

Through it all, though the many trips and the moments with chatting groups, Emily maintained her light banter. There were a few really bad times, but she survived these too. She found Billy and walked with him to a crowded corner where a bespectacled girl in green pulled a cocktail on him. "Darling," Emily told him, "from now on, it's just a question of getting them out of here. Will you sort of pass the word around among the help?"

"Sure, Karin. Anything else?"

"No. That's all. How do you think it went?"

"Swell."

She squeezed his hand. "You've been a lamb about helping out."

"Nothing to it," he said. "Only I'm glad we don't have to go through this to open my office."
