Are You Sure Your Children's Eyes Are Right?
A responsibility rests upon every parent to give his child every possible advantage in life; to give the child the best of weapons with which to meet the struggle of the years ahead. Surely good eyesight is "the priceless gift" that your child should have. Remember that poor eyesight means poor concentration and will retard the youngster's progress. Many a child considered dull or lazy in school or music studies has simply been suffering from defective vision. And after correct glasses have changed entirely the record of performance. Perhaps your youngster's report-card is reflecting the presence of eye-strain. Perhaps you are not doing your own child full justice. Have an examination made and know. Consult

MAKING GOOD RECOVERY
Mr. R. A. McLeod, Uig, recently received a letter from the nurse in charge of Sir Andrew McPhail at the Royal Victoria Hospital, Montreal. She states that the Doctor is doing well. The bullet has been extracted from his shoulder but the doctors declare that they do not expect any serious after effects from the operation.

THERE WILL BE a grand concert at the Strand Theatre on Monday night, January 9th next for the benefit of the Charlottetown Hospital. We all know what a serious loss was sustained by this institution and we should all strive to attend this concert, and not only help such a worthy cause but we are assured by the management that the concert will provide an evening of rare enjoyment as artists of the highest standing in the musical profession and entertainers of exceptional ability in their respective lines have kindly volunteered their services to make this concert the best of the New Year attractions. The tickets are very moderately priced and are on sale by the Ladies of St. Charles Auxiliary Society of the Charlottetown Hospital.
