"OLD-TIME FLOWING MATCH"—An attempt to revive the old-time flowing matches will be made at Bridgetown on Oct. 1 under the sponsorship of the Dundas Carry On Canada Corps. The sponsors have met with generous response from merchants and others in preparing the prize list, and have also had cooperation from the federal and provincial governments. It is hoped, if the match is a success, that it will develop into a County affair next year.

In Memoriam

In loving memory of my dear husband Elmer McCarville who was killed in Halifax on September 19, 1940.

He is gone but not forgotten, And as dawn another year, In our lonely hours of thinking Thoughts of him are always near. Days of sadness will come o'er us, Friends may think the wound is healed, But they do not know the sorrow That lies within the heart concealed. Inserted by his wife, Mrs. Elmer McCarville, and Son Desmond, Halifax, N. S.

In Memoriam

In loving memory of Elmer McCarville, Freetown, who was killed in Halifax on September 19, 1940, one year ago today.

We seem to see in the soft, dim light A face we loved the best, And think of him when the sun's last ray Goes down in the far off west. We miss you no less Elmer as the time passes on the day of your going Than we did on the day of your going. For absence can never close the door of our hearts And the lamp of our love is still glowing. Your heart was the truest in all the wide world, Your love the best to recall For no one on earth could take your place, You are still the dearest of all. Some day we hope to meet again, Some day we know not when To clasp your hand in the better land, Never to part again. Inserted by Mr. and Mrs. Ollie McCarville and Family.

Island Minister Weds in Ont.

Miss Mary Evelyn Punter, daughter of Mr. and Mrs. Fred Punter, and Rev. Wallace Wadland, son of Mr. and Mrs. S. Wadland of Woodstock, Ont., were married in Beaches Presbyterian Church with Rev. J. R. Sanderson officiating. Mr. Albert Punter, the bride's brother, was at the organ, and Mr. Harold Neal played a violin solo.

The bride, given in marriage by her father, wore a white brocaded tulle gown made on old-fashioned lines, a veil of French silk net falling from a halo of white flowers, and carried a bouquet of deep red roses and bouvardia. She also wore the groom's gift, a gold carved heart-shaped locket. Miss Doreen Allingham, maid of honor, was gowned in blue net, full skirted, with a pink velvet sash, a head-dress of pink carnations and she carried a nosegay of the same flowers. The flower girl, little Miss June Punter, the bride's niece, was frocked in pink tulle with white velvet bow trim, a wreath of roses-buds in her hair, and carried a nosegay of blue cornflowers.

Mr. William Wadland was the usher and Mr. Harold Keefer and Mr. Joseph Bettridge.

The reception was held at the home of the bride on Fernwood Park. Mrs. Punter received wearing a powder blue crepe gown with blue flowered hat and corsage of Tallinn roses. She was assisted by Mrs. Wadland in navy blue crepe with touches of white, and corsage of pink roses.

The bride went away in a dusky pink crepe dress with black halo hat and black accessories. The couple will live in Prince Edward Island—(The Toronto Telegram).

U. S. Legion Takes strong Defence stand

MILWAUKEE, Sept. 18—(AP)—The American Legion today elected Lynn U. Stambaugh of Fargo, N. D., its new commander in the closing session of its 23rd convention, in which the delegates took a strong stand for national defence and the President's foreign policies.

Stambaugh, 51 year old lawyer who served overseas as an artillery second lieutenant in the first Great War, succeeded Neuthey, commander of Toledo, Ohio, the retiring commander.

One of the last ceremonies of the convention was the pinning on to Warner of gold insignia which carried with it an honorary presidency of the Canadian Legion.

The delegates reiterated their organization's previously stated opposition to Communism, Fascism, and Nazism.

Defence highlighted the convention. The delegates pledged support to the United States government, President Roosevelt, and the War and Navy Departments. They also for repeal of Neutrality Act and abolition of the restrictions on use of American troops outside of the country's boundaries. They stated that they would stand "hand and hand" for "all diverting controversies should be subordinated to the main objective. They agreed to national unity in carrying forward the defence program.

But today they refused to go on record as recommending legislation for conscription of capital, labor, industry and property as well as fighting manpower during time of national emergency or war.

Such a program would set up a Fascist form of government, one delegate told the convention.

YARMOUTH, N. S., Sept. 18—H. H. Wetmore of Yarmouth, president of the Nova Scotia Teachers Union announced today that a recent meeting of the union executive at Halifax had decided to urge the provincial government to assist them in obtaining a cost of living bonus for teachers. The Union intends to ask the government to cooperate on a 50-50 basis with all towns and school sections granting the proposed bonus, he said. The Union will also ask the government to advance salary arrears which the government has undertaken to attempt to collect and for an immediate actuarial study of the Nova Scotia teachers pension system.

Mail enroute from Canada to Uinter Kingdom lost at sea

OTTAWA, Sept. 18—(CP)—The Post Office Department announced today receipt of word that 1,546 bags of Canadian mail destined for the United Kingdom and leaving the Dominion during the last week in August had been lost through enemy action.

The mail was made up as follows: 14 bags of registered mail, 153 bags of letters, 433 bags of newspapers, 946 bags of parcels. Included in the shipment were 1,283 bags from the Base Post Office at Ottawa containing military mail for soldiers overseas.

Postal authorities said it was difficult to say exactly what the date of mailing would be on the mail lost, but probably most of it had been mailed during the first 2-12 weeks of August.

Bulgaria calls Up more men; Nazis build roads

ANKARA, Turkey, Sept. 17—(Delayed)—(AP)—Balkan informants reported tonight that Bulgaria had mobilized 350,000 men in a continuing call to the colors and that German road building experts were hastily constructing highways in south and southeastern Bulgaria which would be useful for any land-sea action directed toward Suez.

Three German divisions and other Nazi units are in Bulgaria, these persons reported—in addition to the "organization Todt" which is building the military roads under high pressure.

In Yugoslavia, the same informants said, 600 German engineers are directing thousands of Serb laborers in repairing the Belgrade-Nis and Salonika-Sofia railroads, which are essential to eastern Mediterranean military movements. The former was destroyed by the Yugoslav army.

On the other hand, a diplomatic observer just arrived from Syria said Britain was moving artillery and other military units northward toward the Turkish frontier in a steady stream.

A reported axis attempt to get Italian warships into the Black Sea via the Dardanelles by "selling" them to Bulgaria appeared doomed to failure, if, indeed, the attempt was seriously made.

Today the Turks informed British authorities that Bulgaria had made no proposal for transit through the straits of any Italian destroyers and submarines.

Warned strike Cannot succeed

OTTAWA, Sept. 18—(CP)—Strikers at the McKinnon Industries Ltd., war production plant at St. Catharines, Ont., were warned today by Labor Minister McLarty that their strike could not possibly succeed and served only to impede Canada's war effort.

The Minister's statement was made in a telegram to Robert S. Stacey, international representative of the automobile workers of America and representative of the strikers.

The Minister said the company could not grant increases in wages beyond the limits set in the wartime wages policy of the government and which now are being met by McKinnon Industries in fulfillment of recommendations of a board of conciliation.

and pieces' branch.

Mr. Jeckell was relieved of his duties as executive assistant to H. P. Bell, director-general of aircraft production, to head the new branch. Its purpose is to spread contracts among smaller plants so that all available machine tool capacity will be kept busy on war production.

Mr. Jeckell said he was receiving valuable co-operation from the Canadian Manufacturers' Association which recently completed a survey of all Canadian industry through a questionnaire form returned by 5,283 plants, and submitted its report to the government.

NEW TYPE CARGO

(Continued from page 1)

Speaker Sam Rayburn of the House of Representatives. He said the funds were needed to prevent any "interruption in the flow of aid to those countries whose defence is vital to our own."

The navy was obviously delighted with the new type of cargo ship. The first of its kind, named the Sea Otter, has already been launched at Orange, Texas. Authorities said the new vessels could be built by the hundreds in much less time than ordinary freighters, constructed inland and run down to the sea via rivers or canals. They would provide a "new bridge from this country to the free nations of the world," the navy asserted.

The announcement said: "The real revolution in design was wrought in the application of power. A means has been discovered of driving an 8-foot propeller, not on the stern of the ship, but sunk into the water amidships. No less than 16 gasoline engines, such as are used in propelling motor boats, drive the vertical shaft much after the manner of the outboard motor. The engines are 100-horsepower, six cylinders, developing a total of 1,700 brake horse power...."

OMINOUS

(Continued from page 1)

tive opinion coincided with the gloomiest of surveys of the Russian military position in the south.

Isolation of Crimea, now regarded here as fact, means the loss to the Russians of service on the Crimean peninsula. This, it was explained, Crimea cannot easily be reinforced when the Germans bring to bear the full force of their attack.

This, the London sources expected, would come soon in a land-air-sea offensive to seize not only Crimea but the industrial Donets basin. They considered the present threat to Crimea to be more grave than that to Leningrad on the north, because "every vantage point to Leningrad has to be won by extremely hard fighting through a very heavily fortified area."

No such fortifications protect Crimea on which the Germans are reported advancing on a broad front.

London sources were pessimistic, too, about the effect on either the German Ukrainian drive or the siege of Leningrad of Russia's counter offensive in the central sector of the long eastern front.

The Red army successes in the centre, they said, are too far distant from either the Leningrad or the Ukrainian salients to constitute a real threat to the flanks of the advancing Nazis.

850,000 tons Lease-lend cargoes Arriving weekly
(By Eddy Gilmore)
(Associated Press Staff Writer)
A BRITISH PORT, Sept. 18—(AP)—Disgorge today on the docks of this port a truly all-American cargo of everything from California planes to Georgia peaches—part of 850,000 tons of supplies which, officials say, is arriving every week in Britain.

To Selma, Ala., boy watching it unload it was like old home week. "Hey you guys!" sang out Arin Masterson of Hollywood, superintendent of plane unloading. "Watch that plane!"

The plane was a grease-smeared Douglas attack bomber from Santa Monica, Calif., which Britons call a "Boston." At least a dozen others were coming off the ship.

"I have been here for three years unloading these babies," said Masterson. "They are beginning to roll now."

Masterson said the Royal Air Force gets the planes into the air three days after he unloads them. He can unload two an hour, he said. At the next wharf sweating workers were tackling food, wide-eyed and smacking their lips at what passed through their hands.

The Ministry of War Transport said that lease-lend cargoes and other imports had been landed at the 840,000 tons weekly rate for the last 10 weeks.

Shuffle school Authority as Pupils strike

NEW WATERFORD, N. S., Sept. 18—(CP)—A shuffle in scholastic authority was ordered tonight by the school board after a dispute climaxed by a "strike" of more than 90 per cent of Central School's pupils for three days.

Ambrose Currie, recently named supervisor of schools, was given supervision of St. Agnes and Mount Carmel schools, Roman Catholic institutions. Victor A. Fisher, principal of the Protestant Central School, was placed in independent control of that school. Both are to report to the board.

The strike started after Mr. Currie, who replaced Mr. Fisher in the supervisor position, suspended his predecessor for insubordination back to classes.

Only about 20 of the Central School's 371 students reported for classes today. The division of authority was expected to bring the ordination.

London press urges All-out effort now

LONDON, Sept. 18—(CP)—Two newspapers, the Times and the News Chronicle, today urged consideration of possible British military moves to relieve German pressure on Russia.

The Times, in a full column editorial, said the British people are universally convinced the nation must make the most of the present opportunity not only to help on the eastern front but also to "develop other fronts where the enemy will have to extend his strength."

"No feeling is more discredited than the feeling that time necessarily is on our side," the Times said.

The News Chronicle said: "Are we, too, going to play Hitler's game and let him dispose of his enemies one by one? Will invasion of the continent be easier in six months, 12 months or two years if Russia is broken through lack of timely diversion? The answer is no. It will probably be impossible and a large proportion of our great army will rot in idleness on our coasts."

Strange life Story unfolded In N. B. Court

HAMPTON, N. B., Sept. 18—(CP)—A story of roaming Canada and the United States since the age of 12 was told in the Kings County Court today by Joseph Boudreau, 49, native of Halifax, before Judge P. D. Tilley sentenced him to five years at hard labor in Dorchester Penitentiary on charges of burglary and escaping from the county jail here.

He was sentenced to two years for the escape Dec. 19, 1938 and to five years each on two counts of burglary in 1939. He had served a year in the penitentiary for a burglary at Cambridge, O., he elected special trial here and pleaded guilty to the three charges.

In proposing sentence Judge Tilley described how Boudreau, serving a nine-month term for burglary at Sussex, had seen through his cell bars in a manner permitting him to escape. He had been on two occasions at night he had climbed through the cell window, broken into a drug store here, returned through the window with the help of another prisoner and distributed among the prisoners some of the articles he had stolen.

Boudreau told the court today he had been born in Halifax in 1912, had never seen his father, did not remember his mother and had been informed at an orphanage in the city that his parents were killed in the Halifax explosion of 1917.

When eight years old he left the orphanage under adoption by a farmer near Antigonish, N. S., ran away three years later, worked for about a year for a farmer near Kentville, N. S., and then at the age of 12 "went on the road," he testified.

Since that time he had travelled through Canada and the United States and the only regular job he had held was in a hotel kitchen at Coburg, Ont., for two years.
