The tugs St. George and St. Andrew owned by Governor Snowball; Chatham N. B. with the government dredge Cape Breton in tow came in Summerside Harbor yesterday morning for shelter. The dredge is being taken from Miramichi River to Pictou where it will be overhauled on the slip and laid up for the winter.

A MANITOBA correspondent writing to The Wesleyan says.—"Many of the harvest bands are going East. We were amused to see a young man who had his trunk checked for Summerside, P. E. I., and ticket for home. He discovered another trunk checked for the same place. Then he hunted up the other fellow from the Island. They found out that they had come from P. E. I., had worked but a short distance of each other. To their surprise two others turned up, checked their baggage for Summerside, and there was a merry band of young men facing East for home. Now these lads were a good sample of young men; well dressed, well behaved, looking pictures of health. Someone said: "Do you think that you will come back?" In an instant three of them said: "You bet, this is the country for young fellows." Thus it is that scores of these young men come and go back, go back to advertise the country.

THE STRENUOUS LIFE

A Great Strain.

No one disputes the fact that we are living in a "rapid" age; it is rush, rush, rush from morning until night, and competition is so fierce that the struggle does not cease until the machine is worn out. Women, too, even when surrounded by every comfort, become infected by the common-spirit, and what with their clubs and many social duties, have no time to give thought to their physical well-being, until they are suddenly brought to a sharp realization of the fact that nothing in their lives is so important as attention to correct or rational living.

It may surprise the reader to learn that women are more prone to piles than men, and in most cases because it is difficult to impress upon them the importance of regular movements of the bowels; irregularly means straining at stool, and straining means piles, with the certainty (under the usual methods of treatment) that the sufferer will "have them always with her," by "usual methods" is meant the application of aches and lotions, or (as a last resort) a surgical operation.

If there is a complaint which entails more distress and suffering upon those afflicted than piles or hemorrhoids, it is not known to the writer; fortunately, however these are learning that there is a remedy that effectually cures all forms of piles; it is known as the Pyramid Pile Cure is in suppository form, is applied directly to the parts, and does its work quickly and painlessly; it is sold by druggists at fifty cents a package, or will be mailed by the makers to any address upon receipt of price.

Mrs. L. M. Joliff, Parliaburg, Ohio, says: "I feel it my duty to acknowledge the great benefit I have received from the use of Pyramid Pile Cure. For several months I suffered untold agony from the bleeding piles, and was finally advised by a Columbus doctor to get Pyramid Pile Cure at once, which I did, and one box completely cured me. I advise all sufferers to use it. Write the Pyramid Drug Co., Marshall, Mich. for their little book on the cause and cure of piles."
