His Language, it Says, is Calculated to Cast a Doubt on His Loyalty—Elections in Great Britain—Dowie in Boston.

GLOBE'S COMMENT ON LAURIER.
LONDON, Oct. 24.—(Special)—The Globe discussing the expression of Sir Wilfrid Laurier in which he regretted that Canada has not treaty making powers says "Laurier's present indiscretion, to call it no worse if it stood alone ought to be charitably attributed to a momentary gust of unpatriotic impulse, but on previous occasions similar ill considered language has slipped from his lips and is calculated to cast a doubt on his loyalty and his devotion to the British Crown."

There is no medicine which gives such prompt and lasting relief for every form of Kidney disease as Dr. Chase's Kidney Liver Pills. They are positively effective even in the most chronic cases.

PARDONED BY ROOSEVELT

LEOMINSTER, Mass., Oct. 22.—Joel G. Tyler, who on March 27, 1901, was sentenced to five years' imprisonment for defalcation from the Saf-Fund National Bank of Pittsburg, of which he was then paying teller, has been pardoned by President Roosevelt and was released from the jail at North Pittsburg to-day. He returned to his home here.

A COMPROMISE SAYS AYLESWORTH.

LONDON, Oct. 22.—Upon leaving Liverpool to-day, A. B. Aylesworth, one of the Canadian Commissioners to the Alaska boundary tribunal, said in justification of his refusal to sign the award: "It was more of a compromise than a judicial decision. Its effect will be that Dominion goods traversing the disputed territory must pay high tariff duties to the United States. The Canadians feel so keenly on this subject, that although there will be no cry of separation, they probably will demand a larger power of self-government in order to prevent in the future a repetition of such decisions."

THE SALVATION OF ENGLAND.

CHICAGO, October 21.—The Tribune says to-day: "As representative of Joseph Chamberlain, for whom he is investigating the results of the protective tariff in the United States, Ernest Augustus Hamlyn, of the Honorable Artillery Company of London, reached Chicago last night. The results of Mr. Hamlyn's investigations thus far are embodied in a preliminary report which he forwards to London from Chicago. In it he declares: "The commercial greatness of this country is due to the tariff. Your protective tariff policy will be the salvation of England. The manufacturers and tradesmen I have seen during 6,000 miles of travel while visiting the trade centres in this country, frankly admit that the English tariff will be a detriment to the continued industrial prosperity of America. They admit that it will be best for England." The report concludes with an offer by Mr. Hamlyn to contribute \$500 to a fund with which to bring to America 100 English workmen from fifty manufacturing cities to study the effects of a tariff on the wages and living expenses of the working classes."

"I am well now and enjoying better health than ever before in my whole life."

That is the statement of a woman who had never been well until she was made well by the use of Dr. Pierce's Favorite Prescription. There are a great many other women in like case. They have always been sufferers from disease. They have never known the joy of perfect health.

For all such women Dr. Pierce's Favorite Prescription holds out the prospect of perfect and permanent health, by the cure of the womanly diseases which weaken women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"It gives me pleasure to let you know of the great benefit received from Dr. Pierce's medicines and the advice which you so kindly sent, writes Mrs. Bertie Parker, of Bonham, Tarrant Co., Texas. "I took your 'Favorite Prescription,' 'Golden Medical Discovery' and 'Pleasant Pellets,' and followed your advice regarding the 'Lotion Tablets,' and am cured. I had been treated by different doctors and spent one hundred dollars for treatment and medicine, but received very little relief. I have only spent seventeen dollars and fifty cents for your medicine and it has cured me in three or four months of ulceration and falling of uterus. I suffered severe misery in my back, also irregular periods. Had bearing-down in lower portion of body and great pain all through my body. Pain in uterus was very severe. Had smothering spells, breath was very short all the time, had pain in stomach, pain in my thighs, pain in breast, also between my shoulders. Bowels constipated. I am well now and enjoying better health than ever before in my whole life. Am happy to tell you that I was cured by your good advice and good medicines, the 'Favorite Prescription,' 'Golden Medical Discovery,' 'Pleasant Pellets,' and 'Lotion Tablets.' These medicines cured me and will cure others also."

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss, therefore accept no substitute. Dr. Pierce's Pleasant Pellets regulate the bowels.

THE FUTURE OF DOMINION STEEL

MONTREAL, October 21.—On Friday next there will be a special meeting of shareholders of the Dominion Iron and Steel Dominion Coal Companies, at which the final agreement in the separation of the two concerns will be ratified as the law requires. The members of the Dominion Iron and Steel Company's committee of management have become optimistic as regards the future possibilities of the plant at Sydney, and, while not actually promising anything, they nevertheless express the private opinion that the works will ultimately make money and rescue the stockholders from a very bad position. As soon as the final ratification comes on Friday next, the million and a half which has been subscribed by the directors will be placed in the plant, completing the same and bringing it up to a position where an actual start can be made.

NERVOUS AND SLEEPLESS.

Two horrors crowd into one life, the product of poor digestion and the poisons that are thereby formed within the body. There's just one method of cure for this terrible condition—plenty of food, but mind, food properly digested. That's the difficulty—the digestive power of the stomach must be improved. Bile, red blood formed, strength given to the organs to drive out poisons; then comes strength, vigor and endurance. Ferrozone does all this and more; it makes sick people well; weak people strong. See Ferrozone and you reap health. Sold by all druggists.

ANOTHER BANK CLOSES DOORS

PITTSBURG, Oct. 22.—Following the suspension yesterday of the Federal National Bank, Pittsburg, the First National bank of Allegheny failed to open its doors for business today, and its directors have notified the comptroller of the currency that the institution has gone into voluntary liquidation, and requested him to take the necessary action in such cases. For some time the Allegheny bank has been connected by rumor with the Federal National bank, but it was believed up to late yesterday that it would weather the storm notwithstanding the heavy run made on it, brought about by the suspension. The directors, however, at a meeting last night, decided that it was in the best interests of all concerned that the action noted above should be taken.

CHAMBERLAIN'S POLICY TAKING

LONDON PRESS ON ALASKAN AWARD.

LONDON, Oct. 20.—The Pall Mall Gazette concludes a short sketch of the career of Judge Jette, and remarks that the dominion case could not have been in more competent hands, and if he failed to score a win, it is pretty certain nobody else could have been more successful. The Scotsman has fears of future friction from the Alaska decision, not only between the dominion and Americans, but between the dominion and the mother land. The Glasgow Herald hopes Canadians won't become peevish, and say disagreeable things because if it did not get what was wanted it was because the Canadian and American commissioners were doubtless biased, but Lord Alverstone had none. The Freeman's Journal says Canada feels it has been sold by Great Britain to make peace with the United States, and there can be no doubt that this attitude is justifiably regarded by Canadians with resentment. We have not heard the end of the Alaska arbitration. The News says if Chamberlain wishes to know how the colonies will receive his scheme he should read the telegram from Toronto describing Premier Ross's speech to the British Empire League, which shows that Chamberlain will rue the day he lays a finger on Canadian industries.
