Woman's Realm / Social and Personal / Fashions / Literature

Do they whisper this about YOU?

Help heal ugly, repelling blemishes this medicated way!

● Don't give them the chance to say unpleasant things about *your* complexion!

If your skin is "pimply," if it looks rough and dry, go to any drug or department store and get a jar of the Medicated Skin Cream, Noxzema. Use it regularly for just 10 days, both as an overnight cream and as a foundation. Then look at your skin; see if you don't notice a big improvement!

Nurses were among the first to discover how effective Noxzema is as a skin aid. That's because it is not just an ordinary cream, but a *medicated formula*. It not only smooths and softens rough, dry skin but *helps heal* ugly pimples and irritations.

Don't go on being miserable about your complexion! Get Noxzema today and see for yourself how much it can do for you! 17¢, 39¢, 59¢.

NOXZEMA Skin Cream

BETTER ENGLISH

By C. D. Williams

1. What is wrong with this sentence? "Marv has heaps of nice things."
2. That is the correct pronunciation of "marshmallow?"
3. Which one of these words is [illegible] perceptable, pernicious, perpetration.
4. What does the word "destiny" mean?
5. What is a word beginning with fa that means "an exact copy?"

ANSWERS

1. Say, "Marv has many nice things." 2. Pronounce second a as in at, not mellow. 3. Perceptible. 4. That to which any person or thing is decreed beforehand, as by Divine will. "We are born for a higher destiny than earth." Lytton. 5. Facsimile.

A JOB ONLY YOU CAN DO

Prince Control Questions and Answers

Questions and Answers on Price Control will appear in The Guardian as a regular feature each day. The questions are those which have reached the Wartime Prices and Trade Board from housewives in this region. The answers are provided by the Board Readers. Persons who have intelligent questions to ask on price control are invited to send them in writing to the Women's Regional Advisory Committee of the War Time Prices and Trade Board.

Q. I have a used bicycle and I want to sell it. Is there a maximum price that I may charge?

A. Yes, there is. If you will call the office of the Wartime Prices and Trade Board, Chappell Building, Charlottetown, and give them the details as to the type and kind of bicycle they will tell you the maximum price at which you may sell it.

Q. Last month I bought a couple of jars of canned grapefruit without coupons and this week my dealer asked a preserve coupon for one jar. Is this correct?

A. Yes, grapefruit in glass containers was removed from the list of rationed fruits for some time . . . however, it returned to the ration list on October 15 . . . you are entitled to 20 oz. of this fruit for each preserve coupon.

Q. Recently I purchased several books and notice the price much higher than it was some time ago Is there no ceiling price on the cost of books?

A. Only books printed in Canada come under Board regulations. We have no control over books printed in the United States. No doubt the books you purchased were printed in the United States.

Give me your tired, your poor,
Your huddled masses, yearning to breathe free,
The wretched refuse of your teeming shore:
Send these, the homeless tempest tossed to me:
I lift my lamp beside the golden door.

Never Before Has Fine Quality Meant So Much

Dorothy Dix Says—

HUSBAND-SNATCHING A RACKET

Easier To Understand Predatory Women Than Girls Vamping Men For Sport Of It

DEAR MISS DIX: Why does the public not do something about suppressing the type of female devil who deliberately seeks to infatuate a married man and take him away from his wife? She is everywhere. On th street. In the shop. In the office. In the schoolroom. In the church. And she wrecks more lives than all the whiskey that has ever been distilled.

The finest human being that has ever graced this world is a good woman, but the most detestable that has ever disgraced it is the she-devil whose specialty is the infatuation and beguilement of married nincompoops.

DISGUSTED MAN.

CONSIDER PHILANDERING MEN

ANSWER: The professional husband-snatcher is all that you say she is, and something with boiling oil in it should be done to her, but before she can be eliminated from society we will have to also purge it of the married men who are always on the lookout for some good-looking woman to lead them astray. There is nothing easier to find than temptation if you are hunting for it.

(Continued on page 10.)

Living & Leisure

THE WOMAN'S REALM

THE POODLE

The Poodle-dog has ever borne
The brunt of jokes and words of scorn.
Just why this is, tis hard to tell,
Since these dogs in strong points excel.
Its colors vary—white, brown, black;
Its pedigree extends far back
To ancient times and ancient ways—
Back to the "good old lap-dog days!"
—By Aletha M. Bonner.

You destroy vitamins when you prepare orange juice or other fruit juices way ahead of the clock. That goes for opening a can of fruit juice too. Squeeze your fruit juice just a few minutes before it's going to be used or, if it's coming from a can the best method is to punch two holes in the lid (one to let the air in and one to let the juice out in case you don't remember the laws of pressure.) If you don't want to use all the contents of the tin at once remember it is just an old wives tale that fruit juice shouldn't be kept in a can after it has been opened.

Don't sprinkle rolls with water when you reheat them. Just cover and heat as they are.

NOW THE DOODLE-BIRD

In spite of Himmler some inhabitants are getting out of Germany and arriving in Britain by air.

After the doodle-bomb comes the "doodle-bird" —the Black Redstart. It has smoke-grey plumage and a fiery tail.

(Call it Ruticilla phoenicurus if you want to be academic.

It is a common garden bird in Germany but it is not often seen in England. Now it has nested for the first time in London's bombed out buildings. Almost every day you can see two or three of these birds hopping among the wild flowers that have grown up in the old ruins in the Temple.

—British Information Service.

When a dog comes up to you wagging his tail, he is trying to make you understand that he takes you for a gentleman and a friend. Don't abuse his confidence with a kick. He has paid you a great compliment and has a right to expect courtesy in return.

Passenger cars in America are now using about 15 per cent. of the petroleum produced.

Australia is now building Beaufighters, a twin-engined, heavily armed attack plane and torpedo bomber.

The smallest monkeys in the world are South American marmosets;a fully-grown pair can sit in the palm of a person's hand with out crowding.

Dropped and discarded nails in construction and wreckage operations about some army camps are picked up by a special magnet powered by a gasolene truck, and sold to junk dealers.

An American Holstein cow has just completed a record production of 541 pounds of butterfat and 15,265 pounds of milk in 365 days; this is more than three times the national average per cow.

ARTFICIAL DRYING

The artificial drying of grass by electricty instead of by usual haycuring methods, is said to be a growing practice; the grass is cut earlier than when cut for hay, because then the proteins and other nutritive values are higher.

MORNING SMILE

ALL CONFUSED

Having extended her visit longer than she meant to, the old lady was going home after dark—and it was dark.

Presently, in spite of all her care, she bumped into a dimly seen man and they both crashed on the pavement. At once the man was all apologies.

"So sorry," he murmured. "Careless of me. Let me help you up. So sorry."

"Never mind all that," returned the old lady, curtly. "Will you please tell me which way I was facing before I was knocked down?"

NOT NOW

When he put a penny in the slot of a stamp machine outside a suburban post office, a Glasgow man was surprised to receive not only half-a-dozen stamps but a small shower of coppers. Into the post officer he went, and said: "That stamp machine—"

He got no farther.

"Oh, I know," said the official. "It's jammed again," and she pushed a penny across the counter.

MODERN ETIQUETTE

By Roberta Lee

Q. Is it proper for a person to take the last helping of any dish, when the dish is passed to this person?

A. Yes; if one would decline this last helping it would give the impression that one doubts the supply.

Q. Would it be all right for a child's mother to write the invitations to his party?

A. Yes, unless the child is old enough to write the invitations himself.It would be nice to have him write them if he can.

Q. What would be good refreshments to serve at a mid-afternoon card party?

A. Tea, sandwiches, a beverage, and fancy cakes.

COOK'S CORNER

COTTAGE CHEESE TARTS

These tarts are very delicious indeed, whether served warm or soon after they have cooled.

Pie paste
1 cup cottage cheese
¼ teaspoon salt
2 tablespoons cream
¾ teaspoon grated nutmeg
1 teaspoon finely grated lemon rind
2 eggs, slightly beaten
1-3 cup brown sugar, lightly packed
½ cup sultana or seedless raisins, washed and dried

Line 18 medium-sized, rather shallow muffin pans with rolled-out pie paste.

Mix the cottage cheese, salt, cream, grated nutmeg and lemon rind; add slightly beaten eggs, part at a time, mixing well after each addition; stir in brown sugar and raisins; mix thoroughly. Fill the prepared tart shells two-thirds full with the cheese mixture.

Bake in a hot oven, 425 degrees for eight minutes, then reduce heat sharply to rather slow, 325 degrees, for about 20 minutes longer—until tarts are set and filling golden brown on top.

BLACKHEADS

Don't squeeze blackheads — dissolve them. Get two ounces of peroxine powder from any drug store and apply gently with wet, hot cloth over the blackheads. They simply dissolve and disappear by this safe simple method.

ELLEN'S DIARY

By An Island Farmer's Wife

I felt like apologizing to Judy, for the particular brand of weather presented to her on this the first of her mornings at Alderlea. It could, however have been more disagreeable I suppose, for at least the rain that fell softly at first through the night and then heavier, had ceased to fall. I heard almost every rain-drop that pattered so ceaselessly on the roof above, for the weather was not alone in its misery last night. It must have been something like "malarium" as Tim our one-time-hired-man used to say that suddenly descended to torment me in the silent watches. Or perhaps it was only a common cold even though I overheard James when explaining my condition to Karolyn by 'phone say: "I don't know where she would catch a cold" and added as an afterthought" unless it was on her trip to town." James has an idea not altogether wrong, that most ills are picked up beyond the confines of the home and farm. His suspicions on this occasion were unfounded for my trip last evening was taken under the most comfortable conditions. But my chills and temperature disappeared almost entirely like the rain at dawn, and I was able to be up and about usual but not as industrious as ought to have been, considering the lateness of the season although the sun refused to shine and dampness lay on everything, women continued at the work of "clipping" turnips, vegetable to the right, top to the left one by one up and down the lengthy rows. From the porch, I could see the area filled with the peculiar green of the vet-to-be-clipped turnips gradually diminish as row after row fell to the worker's knives. It will not be too long before the very last of our harvest shall have been gathered home. Of course, as James tells me ominously: "If winter comes." Well, the weather is one thing I can "do nothing about" even for James.

* * *

Judy took over like a veteran, the work about the house this morning, allowing me to spend the day as I said lazily and much to my liking, I caught up on my story in the farm-magazine and then following dinner I was able to make up part of last night's lost sleep. The story continues to be interesting for me but not enough to warrant reading it aloud for James prefers stories of rural-life. This one is turning into a first-class detective yarn and I'm afraid maybe it will get so complicated, I shall presently be left behind. The heroine, a Canadian girl for it is a Canadian story, has not as yet caught up with the hero although it reminds me of James' story of the love-sick lady, who was told that in order to win her heart's desire, she must chew marbles. When someone asked her how she was "doing", she said they were "softening." I have an idea the hero in this tale is "softening" and will soon succumb to her charms.

* * *

When I returned to the kitchen Judy wished she might make cookies for as she said the day was "rather long" for her. They were excellent and I marvelled at her expertness in handling the woodfire, always something of a problem to me. These were oatmeal cookies —"dropped." Shortening, and I cautined her although there was really no need, salt, cinnamon, brown sugar, equal parts oatmeal and flour, milk egg flavoring and soda. Similar to a recipe I am familiar with but strangely enough different in results. Each female wields a different spoon!

* * *

This was a long day for the men, for many chores remained after the day's work in the fields. Long after dark I heard the noise, of a farm-cart on the drive-way. Jock returning from the mill with a load of chop for animals in stables and sty. And so another day has gone its way into the past, a day filled full of the common things that go to make up life on a farm. Now Judy is intent on chasing the darky-cat from under the stove. "Scat" she says "and find yourself a good fat mouse." However or wherever he can find one in the dark of this night is a mystery to me. James winding the old clock on the shelf says suggestively: "Would you believe it?" Well, time passes so swiftly I would! So Until tomorrow — Diary—Goodnight.

TAKE NO CHANCES WITH BABY'S COLD

DON'T LET your baby's little cold develop into something worse. Let Mrs. Geo. McBride of Scarborough tell you what to do. "My baby of 26 months caught a nasty cold, so I tried Baby's Own Tablets and she threw this cold off quicker than ever before. I certainly am for Baby's Own Tablets from now on."

Baby's Own Tablets help in the treatment of colds by their laxative action. They are sweet-tasting, easy to take—and may be crushed to a powder if desired. Effective in teething troubles, constipation, simple fevers, upset stomach, summer complaint, diarrhoea and other minor ailments. No "sleepy" stuff—no dulling effect.

Get a package today. Sickness so often strikes in the night. 25 cents. Your money back if you are not satisfied.

HOUSEHOLD SCRAPBOOK

By Roberta Lee

Chocolate Caramels

Take one cup each of grated chocolate, sugar, milk, molasses and a piece of butter the size of an egg. Boil until the mixture drops hard. Then pour onto a dish and cut into squares before it cools.

Hand Solution

To soften and whiten the hands try washing the hands every night in cornmeal, moistened with vinegar method that is often effective is to rub the hands with

Vegetables

Experience has taught that steamed vegetables hold their flavor much longer and are more healthful than cooked in any other way.

HOW CAN I !!

By Anne Ashley

Q. How canI keep a bowl from moving all over the table when beating its contents?

A. This will not happen if a folded towel is placed under it. The beating also can be done with one hand while the seasoning is added with the other hand.

Q. How can I avoid basting long seams when sewing?

A. Try fastening the edges of the material with paper clips, such as are to every office. This will eliminate basting of the goods.

Q. How can I keep blankets clean?

A. Blankets will keep clean for a much longer time if the sheets are over the top of the blankets.

KISS YOUR TIRED FEELING GOODBYE!

Pepless Many Suffer Low Blood Count—And Don't Know It.

The baffling thing about low blood count is that you can weigh about as much as you ever did—even look healthy and strong, yet —you can feel as if you had lead in your legs, dopey, tired and pepless.

Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.

Get Dr. Williams Pink Pills today. They are world-noted for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams Pink Pills today.
