LOOKING FOR WORK

Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it isn't the work half so much as their own lack of physical strength that makes it hard.

Rich blood, strong lungs and healthful digestion make work pleasurable in business, in school or even housework, and if those who are easily tired —who are not sick, but weak and nervous—would just take Scott's Emulsion for one month and let its pure concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength —you would find work easy and would look for more. Insist on Scott's.
