Cucumber Crop Half That Of '47

The cucumber growers of the Province produced this season but little more than half of the 1947 crop. Mr. John R. Gordon, local manager for the Matthews-Wells Company, said yesterday. The three million pounds, however, which the Company received at its Charlottetown plant this season were much superior in quality to the cucumbers produced last year. Mr. Gordon said that the plant has not been receiving any cucumbers since last week as the season is practically over. In the meantime, they have taken in some cauliflowers as an experiment but have not yet decided whether they will arrange for larger receipts next year.

Coming Our Way Soon

Scenes similar to the one in the above photograph will soon be enacted in Charlottetown and Summerside when the Red Cross Blood Transfusion Service gets underway. Immediate plans call for a house to house canvass in Charlottetown and Summerside late in November. (See story below).

Blood Donor Week Here Scheduled For Oct. 18-23

Citizens of Charlottetown between the ages of 18 and 65, in normal health, will be asked to register as voluntary blood donors when the Red Cross Blood Transfusion Service, with the co-operation of the Kiwanis Club, inaugurates "Blood Donor Week" - October 18 to 23, according to information received yesterday from the Provincial Red Cross Blood Donor Committee. Plans have been completed for a similar registration in Summerside during the same period.

Following is a full text of the statement released yesterday by the Provincial Blood Donor Committee. Plans for a door to door canvass in Charlottetown and Summerside, which will result in a minimum of 2,500 citizens, who are in normal health and between the ages of 18 and 65, as voluntary blood donors will be given their blood at least once during the week. The giving of blood is a simple procedure with no pre-treatment and no discomfort.

In announcing a house to house canvass for voluntary blood donors which is to begin October 18 and continue for one week, it is with the hope that everyone within the age limit and in good health will register with the canvasser. The first call-up of donors will be undertaken later, probably in November, when the Mobile Red Cross Blood Donor Clinic will visit Charlottetown and Summerside.

Voluntary donations of blood received under the scheme, which is already operating in British Columbia, Alberta, and Nova Scotia, will provide whole blood and plasma. Free of any charge whatsoever to hospitals and the patients they serve.

The willingness of every citizen to register as voluntary blood donors to support the Red Cross Blood Transfusion Service can mean the difference between life and death to a loved one or friend. The period between October 18 and 23, will be an opportunity to do a great and humanitarian service.

Dr. and Mrs. Ralph Foss of Peabody, Mass., who have been staying at the Charlottetown Hotel last night, returned home. Mrs. Foss was formerly Miss Annie Jenkins, a sister of Mr. W. R. Jenkins, Charlottetown.

The friends of Miss Frances Peters, Cape Traverse, who is attending Rochford Square School will be pleased to hear that she is improving after an operation for appendicitis in the City Hospital.

Girl Guide News

Our Guides of Prince Edward Island are taking big strides these days with new Companies popping up all over the place. The Big News this week is the 1st Lennox Island Company, and what an enthusiastic meeting it was. There are 47 pupils in the lovely new bright and airy school and these have been split up to form Guides and Scout Companies. Mrs. Tupling is Guide Leader with Joan Sark as Lieut. Sister Mary Carmelita and Sister Superior have also kindly consented to help. Patrols were formed with Patrol Leader Marensa Sark. The girls listened intently while the Guide Promise and Laws were explained by the Guide Field Secretary, and after a little practice were very smart at giving the Guide Salute. Mrs. Tupling will be able to pass the Tenderfoot Test and Mrs. Tupling will soon be able to pass the Tenderfoot. (Go to it girls and let's make a record. Remember inspection on the next visit.)

Tenderfoot Test Cards have been sent to Sister Carmelita today. There is lots of fun in Guiding and everyone wants to join in. If you are interested in forming a Company in your area, contact the Field Secretary Girl Guide H. Q., Charlottetown.

TERRARIUMS

The Terrariums have been judged and the winner will be announced very soon. Did you see the display in Rogers Hardware and have you visited your Terrarium from there; if not will you please do so as soon as possible?

LITTLE HOUSE EMBLEM

All Guide Captains were requested to send in a list of those Guides wishing to take courses for the above badge. So far only two lists have been received, St. Paul's and Zion. Will other Captains please co-operate as we are anxious to complete our lists and arrange courses. List should be sent to Mrs. F. Jenkins, 76 School St., or Guide H. Q.

ASK INCREASE

would boost the Welfare Council figure to \$48.50. Mr. Millard said the conference considered a report today. "However, the feeling was that, if we mentioned \$48.50 as our goal, and in the meantime the cost of living climbed, employers might say we need at that time, and we were changing our tune."

"With the present swiftly-changing situation, we feel we should ask when the time comes for what we need at that time, and we certainly think that by next spring it will require more than \$48.50 to give the steelworker and his family a decent standard of living."

EXCEPTIONAL

ment on its arrival. The poultry industry has continued to be an important phase of provincial production. The provincial hatcheries have had a very successful season and a total of 186,014 baby chicks have been distributed from the hatcheries during the previous year. This is a considerable decrease over the previous year but apparently the majority of these chicks were pullets as the egg production at the present time was 93 per cent over that of the same period last year.

Big Year In Dairying

The dairy industry has experienced a very successful year. Pastures have been excellent all during the summer and fall and dairy production is well above that of the previous year. In the seven month period from January to August we showed an increase of 6.6 per cent in butter and 13.6 per cent in cheese. During the month of September, butter production was 93 per cent over that of September, 1947, and cheese at least held its own during the same period.
