Nerviline is antiseptic-prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not using Polson's Nerviline. For nearly fifty years it has been the standard family liniment of Canada.

SICKLY CHILDREN.

More children die during the hot weather months than at any other season of the year. Their vitality is then at its lowest ebb, and an attack of diarrhoea, cholera infantum or stomach trouble may prove fatal in a few hours. For this reason no home in which there are young children should be without a box of Baby's Own Tablets, which promptly cure all stomach and bowel troubles. If the Tablets are given to a well child they will prevent these ailments and keep the little one well and strong. Mrs. Joseph T. Pigeon, Bryson, Que., says: "My little one was attacked with colic and diarrhoea, and I found Baby's Own Tablets so satisfactory that I would not now be without them in the house." These Tablets not only cure summer troubles, but all the minor ailments that afflict infants and young children. They contain no opiate or harmful drug, and may be given with equal safety to the new born baby or well grown child. There are imitations of this medicine and mothers should see that the words "Baby's Own Tablets" and the four-leaf clover with child's head on each leaf is found on the wrapper around each box. As you value your child's life do not be persuaded to take a substitute for Baby's Own Tablets—the one medicine that makes children well and keeps them well. Sold by all druggists, or you can get them by mail at 25 cents a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

"WEEKLY" CHANGED TO "TRI-WEEKLY"

The "Weekly Edition" of "The Charlottetown Guardian" was changed on July 1st to a "Tri-Weekly Edition." This was done because it is considered that the "Weekly" is too slow for a province with so many daily and tri-weekly mails as that of Prince Edward Island. In the past, four or eight pages have been printed on Friday, eight on Saturday or Monday and these twelve or sixteen pages have been held until the following Wednesday when eight more have been printed and then the entire twenty or twenty-four pages have been mailed as one paper to all subscribers. Thus the news of about two thirds of the issue is so old as to be of very little value when it reaches its destination the week following its actual publication. Now each section is mailed on Monday, Wednesday and Friday as soon as off the press. All the news is thus fresh, and each section of ads. and reading matter much more likely to be read thoroughly than if the entire twenty to twenty-four pages arrived but once a week, and all at one time. All advertisements will appear in but one section of each entire week's issue as in the past, unless it is desired that they appear more frequently, in which case arrangements can be made with the management. Regular advertisers in the past have been required to have "changes" in not later than Saturday, and by the time the paper reached subscribers the following week it was often desirable that other goods arriving in the meantime be advertised. Under the three-a-week issue "changes" received up to either Tuesday, Thursday, or Saturday at ten a. m. will be printed in either the Wednesday, Friday or Monday issue respectively, and thus reach readers when new and fresh. Transient advertisements can appear either once, twice or thrice a week as arranged for. It is believed that all readers will appreciate the change, as they will in future receive a paper, issued each Monday, Wednesday and Friday of every week instead of twenty to twenty-four pages issued but Wednesday of each week. Advertisers very much prefer that their ads appear but once a week in a tri-weekly rather than in a Weekly of two or three times the size, as they are much more likely to be read carefully.
