The Guardian understands that in the near future Charlottetown is to have a new baking plant, for turning out fancy baking, on an entirely new and novel plan. For sometime past experiments along the line of fancy baking, on the home-made basis, have been conducted by Cameron's Grocery in a quiet way, but nothing on a large scale has been attempted. It is now proposed to turn out home-made pies, tartes, cakes and all lines of fancy baking on a large scale. A new plant, including a printing will also be inaugurated so that the whole city will be covered and new methods of baking and putting up of goods will also be used while the price will be most moderate.

The regular monthly meeting of the P. E. Island Poultry Association was held in the Prince of Wales College last week. It was one of the best attended meetings held this year showing the interest that is being aroused as the coming Poultry Exhibition draws near. The minutes of the preceding meeting were read and adopted, and the report of the Secretary regarding taking the show to Summerside being discussed, it was decided to go up on the Saturday following the show in the market basement, Charlottetown. The Secretary was instructed to notify those looking after the Summerside end to that effect. This will give residents of the western part of the Province, a two days Poultry show, with lectures in the evening, such as they have never had before, and if they are alive to their own interests, a show that will be greatly beneficial to them educationally, in the economic breeding of good poultry. Special rates will be given from all stations on the P. E. Island Railway to the Summerside as well as to the Charlottetown show. After the approval of twenty applicants for memberships, and settling minor arrangements regarding the Charlottetown Show the meeting adjourned.
