**Caledonian Club  
Hold Annual  
Meeting**

The annual meeting of the Caledonian Club was held in the Board Room, City Building, on Monday evening, Oct. 28th. The President, Clansman W. R. Shaw occupied the chair.

There was a good attendance of members present, and a considerable amount of business was brought before the meeting. The minutes of the last quarterly meeting were read and adopted, and after the passing of several bills, the usual routine of business was carried out.

Ex-Chief J. G. McFadyen referred briefly to the great loss the Club had sustained by the passing of our esteemed Clansman, Ex-Chief James Paton, and as we meet here this evening to transact the usual business of the Club, we are made painfully conscious that a most valuable and highly esteemed brother Clansman is not present with us at this meeting. We certainly miss from us not only the kindly presence but the help and wise counsel of Clansman Paton.

Many expressions of deep regret were heard from different members and a committee was appointed to tender to the relatives of our late Clansman, the sincere sympathy of the members of our Club.

The following officers were duly elected for the ensuing year:

Chief—F. A. A. Mutch (re-elected)

President—W. R. Shaw (re-elected)

1st Vice-president—John B. Manderson (re-elected)

2nd Vice-president—J. W. Shaw, Financial Secretary—A. B. Brown, (re-elected)

Treasurer—John Anderson (re-elected)

Recording Secretary—T. M. McMillan (re-elected)

Corresponding Secretary—T. F. White (re-elected)

Club Pipers—John B. Manderson, John Reid.

Directors—Clansmen J. J. McGillivray, P. J. McDonald, J. R. Burnett, S. A. McLeod, D. J. McDonald, D. B. McDonald, W. H. Scott, Ronald McDonald, Alexander McDonald.

The annual festival of St. Andrew's Day will be celebrated by a dinner at the Canadian National Hotel on Monday, Dec. 2nd, and the following committee was chosen to make arrangements for this event: Clansmen W. R. Shaw, J. G. McFadyen, T. F. White, D. F. Bethune, J. M. McFadyen, W. H. Scott, A. B. Brown, J. W. Shaw and T. M. McMillan.

A special meeting will be held to make the necessary arrangements for the annual Burns Anniversary celebration.

**ENJOYED HOLIDAY**—Mr. and Mrs. E. D. Bigelow of Norwood, Rhode Island, accompanied by their son Dr. Bruce E. Bigelow, Director of Admissions of Brown University, Providence, Rhode Island, left yesterday morning by motor for their home after a most enjoyable week spent visiting Mrs. Bigelow's sister, Miss Christena Macmillan and brother, Mr. James A. Macmillan of Charlottetown. This is Mr. Bigelow's first visit to Prince Edward Island.

**FOG HOLDS PLANE**—Dense fog camped on the Northumberland Straits last night and for the first time since May 28, the Canadian Airways plane with Pilot Jones and his controls was unable to make the crossing. He was forced back to Moncton, N.B., after finding air conditions at Cape Tormentine impossible. Fog settled last night in Charlottetown after the third day of warm Indian summer weather. Federalists doffed their coats, golfers made for the links and sportsmen left in droves to prey on ducks and partridges.

**MEETING OF THE PROVINCIAL GOVERNMENT**—At a meeting of the Provincial Government held Tuesday night the following appointments were made: Old Age Pension Commission—Joseph S. Perry, Summerside, David Macdonald, Glenfinnan, William W. Cox, Morell; Bursar at Falconwood—Bruce W. Butler, Murray River; Butcher at Falconwood—P. Fitzpatrick; Manager of School Supply—Alvin T. Myers, Hazelbrook; Clerk of the County Court, Dundas, Fred Matheson; Justice of the Peace—James Herring, Murray Harbour.

**LUCKY OLD "13"**

(C. F. By Guardian's Special Wire) MONTREAL, Oct. 30.—Number "13" proved lucky today for Antoine Bouchard, 21, of Moncton, N.B., when he appeared before Judge Enright in summary court on charges of shoplifting. Bouchard's conviction today proved to be his 13th, but he escaped with "time in jail."

He escaped with "time in jail" and an order to leave town when he informed the court that he could find a job in Moncton.

**ROYAL WEDDING RADIO BROADCAST CANCELLED**

OTTAWA, Oct. 30.—The Canadian Radio Commission announced yesterday it had received word from the British Broadcasting Corporation that arrangements to broadcast the wedding ceremony November 6 of the Duke of Gloucester and Lady Alice Montagu-Douglas-Scott had been cancelled due to the death of the bride's father.

**CREAMERY BUTTER**

**COST OF MANUFACTURING BUTTER IN THE PRAIRIE PROVINCES**

Economy in the production of a commodity is always important and it is much more so when, as in the case of butter in the Prairie Provinces, a large proportion is shipped to distant markets, states a recent issue of the Economic Annalist. A knowledge of the factors affecting cost is therefore necessary in order that the most economical practices may be adopted.

It was for this reason that a study of creamery management and the cost of manufacturing butter in the Prairie Provinces was conducted jointly by the Department of Agriculture in the three Prairie Provinces, the Rural Economic Divisions of the Universities in these provinces and the Dairy and Economic Branches of the Dominion Department of Agriculture. Records from 91 of the 210 creameries operating in 1933 were obtained by personal visits to the creameries. Only 78 of the records were used for tabulation purposes and cover the fiscal year of 1933.

In this study, the cost of manufacturing a pound of butter includes all items of cost from the time the cream is received at the creamery until the butter is packed into 56-pound boxes. Charges for gathering the cream, costs of printing and shipping the butter are, therefore, excluded. Commissions on cream cheques have also been omitted. The average cost of manufacture in plants in which the production was under 100,000 pounds of butter for the year was 4.82 cents per pound, while in factories having an output of over 500,000 pounds, the figure was 3.18 cents per pound.

The range in cost from the lowest to the highest cost factory was from 2.62 to 6.86 cents a difference of 3.94 cents per pound.

The cost of manufacturing in the 78 plants averaged 3.45 cents, the average production being 350,000 pounds. Thirty plants in Alberta with an average production of 316,303 pounds had a cost of 3.56 cents per pound butter. The average production in twenty-five Saskatchewan plants was 404,178 pounds and the cost 3.47 cents.

The cost in Manitoba was 3.28 cents in 23 plants producing an average of 336,137 pounds of butter. Overhead and administrative costs were much lower in Manitoba than in the other two provinces. The greater volume of production in Saskatchewan brought costs per unit in this province lower than those in Alberta.

About one-third of the cream going to creameries was transported by motor trucks, one-third by railway express and the remainder delivered by the producers. In very small factories producers delivered about 60 per cent of the total cream trucked, the factories only 25 per cent was delivered and 75 per cent was either trucked or expressed to the creamery. The cost of trucking in most cases was over two cents per pound butter-fat and averaged 2.25 for all cream trucked. The cost of expressing cream averaged 1.74 cents per pound butter-fat. Cartage charges on cream delivered by express averaged .05 cents per pound butter-fat. The cost of trucking, railway express and cartage amounted to 2.08 cents per pound butter-fat on all cream so handled. The total charge divided by all cream used in the manufacture of butter amounted to 1.37 per pound butter-fat.

**PERSONALS**

The Misses Dorothy Greenan and Mildred Crosby, students at P.W.C. spent Thanksgiving pleasantly at their respective homes in South Melville and Bonshaw.

Mrs. George T. Medforth who has been spending the past week visiting in the city left yesterday morning on return to Amherst.

Mr. and Mrs. J. E. Palfrey and son Freddie spent the Thanksgiving holiday at the home of Mr. and Mrs. Benjamin Birt, Mount Stewart.

**MORE THAN TRUTH MAY BE FOUND AT BOTTOM OF WELL**

SANFORD, N. C., Oct. 30.—A lusty squawling baby finds himself something of a celebrity.

Franklin Woodrow Jordan was born under water—in a well. He owes his life, according to Dr. J. F. Foster, of Sanford, to the fact that he didn't begin breathing until some 20 minutes later when he was rescued.

The story of the baby's birth was related by his mother, Mrs. Alton L. Jordan, in the hospital to which she was moved last Tuesday after her husband lifted her from the deep well. She went there to get a bucket of water, became faint and fell in.

The mother, a flaxen-haired young woman of 26, said she swam around for a while, clutched to a knot for 45 minutes and then lost consciousness. She did not know she had a son until she awoke in the hospital hours later.

Dr. Foster said the mother and infant were little worse for the experience. The child, born a month prematurely, was normal in every respect, Dr. Foster said, except for a few slight bruises on his head.

The baby weighs eight pounds and nine ounces.

ported by motor trucks, one-third by railway express and the remainder delivered by the producers. In very small factories producers delivered about 60 per cent of the total cream trucked, the factories only 25 per cent was delivered and 75 per cent was either trucked or expressed to the creamery. The cost of trucking in most cases was over two cents per pound butter-fat and averaged 2.25 for all cream trucked. The cost of expressing cream averaged 1.74 cents per pound butter-fat. Cartage charges on cream delivered by express averaged .05 cents per pound butter-fat. The cost of trucking, railway express and cartage amounted to 2.08 cents per pound butter-fat on all cream so handled. The total charge divided by all cream used in the manufacture of butter amounted to 1.37 per pound butter-fat.
