ARTILLERY BATTLE RAGING DAY AND NIGHT

(Canadian Press Despatch.) BERLIN, VIA LONDON.—An artillery battle of an intensity never paralleled previously is raging day and night in Flanders, the war office announces. The German announcement indicates that in all likelihood the expected British offensive is at hand. Several times recently Berlin has reported heavy artillery fighting in Flanders, and the intensity of today's bombardment probably denotes the last stage of preparation before the blow is struck. It has been predicted that the next attack of the British would surpass any effort previously made by them. The opening of the offensive may be hastened to assist the hard-pressed Russians.

COMMITTEE FOR IRISH CONVENTION

(Canadian Press Despatch.) LONDON.—An official report of the Irish convention, given out last night, says: "After the opening address by Chief Secretary Duke, a presiding committee was appointed for the purpose of advising the convention on the selection of a chairman. It was announced that the committee unanimously recommended the appointment of Sir Horace Plunkett, as chairman, and Sir Francis Hopwood as Secretary. The convention unanimously adopted the committee's resolution and adjourned until tomorrow. Ninety-two delegates were present.

GERMAN ARMY NOW RETREATING

(Canadian Press Despatch.) LONDON.—The main enemy army in German East Africa is now retreating towards the south after having suffered heavy losses on July 19th at Narcombe. One German column is still at large, north of Lake Mananyars. In Portuguese Africa, we pursued the enemy towards Rovuma River.

GERMAN BANK OFFERS LOAN.

(Canadian Press Despatch.) BUENOS AYRES.—A German bank is reported to have offered confidentially to the Argentine government an immediate loan of 400,000,000 piasters. Although much German capital is concentrated in the banks here, the manoeuvre is thought to have been made in an effort to neutralize the growing sympathy in Argentina for the Allies and to profit by the financial necessities of the government and its difficulties to obtain a loan in Europe.

And Murphy Fainted

Murphy was at the hospital and had undergone an operation. As he was recovering he remarked to the patient on his right, "I am thankful that's over." "Oh!" exclaimed the patient, "at my operation the doctor left the scissors inside and I had to undergo the same again." The patient on the left remarked that at his operation the sponge had been left and had to be gone over again. Just then the doctor appeared at the door and asked: "Has anyone seen my hat?" It was then Murphy fainted.

Dr. E. C. Harris Eye Specialist

will be permanently located in the Royal Bank building, corner Queen and Richmond Street, Charlottetown, where he may be consulted on all matters pertaining to defective vision. Many suffer from headache, nervousness, stomach trouble, etc., and do not suspect the cause. TURBULENT SCENES

In United States Senate Over Food Control Bill. Consumption as well as manufacture of spirits may be prohibited in the United States. There has been turbulent fighting in the United States Senate over the food control bill. Prohibition is steadily gaining ground all over the North American continent. Much of its progress is due to the war-spirit of the people. That spirit in Canada has sent hundreds of thousands overseas and given the Dominion a high place amongst the nations of the world. If that place is to be maintained, there must be relaxation of war temper. The National Service Board is urging national thrift and economy. They are essential if the men at the front are to be properly supported by the men and women at home. Every dollar that can be spared in the Dominion is needed for war purposes. Invest your savings in War Savings Certificates and strengthen the financial line. 1904-7-28ME11.

MARITIME DENTISTS MEETINGS IN HALIFAX

HALIFAX.—The Maritime Dental Convention was opened auspiciously in the old Dalhousie arts building, with a large attendance of members. Fine papers were read by Dr. Sangster of Sackville; Dr. A. M. Bell, Crapaud, P. E. I. and Dr. C. Murray, of Moncton. Dr. W. H. Beckwith, president of the Nova Scotia Dental Association, was in the chair. The old arts building has been turned over to the dentists, and the provision for public clinics is most complete. Last evening at a public meeting, Lieut. Governor Grant, Mayor Martin and President MacKenzie, of Dalhousie, delivered addresses, and F. E. Burden, president of the New Brunswick Society responded.

A feature of the convention of special public interest was an address in the Orpheus Theatre by Dr. W. A. Price, of Cleveland, Ohio, illustrated by moving pictures, and an address by Captain C. E. McLaughlin, C. A. D. C., illustrated by specimens and skiagraphs of operations performed by the captain in France.

TRAVELS OVER 7000 MILES TO VISIT HOME

Yesterday morning, after spending a month revisiting his old home and relations in his Province, Mr. Milton E. Crossman, son of the late James Crossman, Summerside left on return to his work and home in Honolulu, Hawaii. To reach his old home here, Mr. Crossman has had to cross the Pacific and the continent of America, making a journey of over 7,000 miles by land and sea. Honolulu, "the Paradise of the Pacific" is one of the comparatively new territories of the United States, and it like other sections of that nation is now deeply engaged in war-work. The regular troops detailed from the United States garrisoned in the territory has been mustered preparatory to embarkation and the National Guard, composed principally of natives, is taking the place of the regulars. Honolulu knows no Winter; its fruit, flowers, music and bath facilities have made it famous throughout the world. The American people who have been prone to go to Europe for their fads have found in the Hawaiian Aloha (lova song), Ukelele, surf riders and Hula dance a source of amusement and entertainment new, rare and entirely original. Mr. Crossman is chief instructor of manual training in the Komehameha Military Academy at Honolulu. Here the natives, and all those who has as little as one-eighth native blood, are taught the various trades by Government instructors. The manual training, or wood-working department is the principal branch of education at the schools and embraces all branches of the carpenter's and cabinet maker's art, from building a house to making all the furniture necessary for it. All the bungalows occupied by the faculty of the Komehameha Academy were built and the furniture made by students. Some of the furniture made is exceedingly good, the writer having seen a reproduction of a buffet made of Kola wood with even the hinges and drawer-pulls hand-made, which sells in New York for closely on \$1500.00. The Hawaiians are strong lovers of nature and be-deck themselves with garlands of flowers for every festival. It is common to see the young men return from goat hunting with flowers in their hair and around their necks and bodies. They are also master musicians by nature, their native instrument, the ukelele being the chief source of entertainment at American caravans and on the vaudeville stage. The former queen of the island is the author and composer of that famous "Aloha OI" (or "Much Love to You"), which is sung at the end of every native journey, and is the last sound the traveller hears as he leaves the island, sent to him by the sweet, naturally musical voices of the native men and women as they gather on the shore, and wafted to him by the summer breezes blowing from one of the most beautiful lands on the earth.

FOUR DROWNED DOZEN BURNED.

KEANBURG, N. J.—Three men and a woman, all occupants of the same cottage at ideal beach near here, were drowned last night when they stepped into a sand hole in Raritan Bay.

When efforts were made to revive the victims with a pump, the battery of the apparatus exploded, throwing acid over a dozen persons standing nearby. Three of them were burned so severely that they were taken to hospital.

The drowning accident was witnessed by the wife of one of the victims, John Noble, of Orange. The others drowned were Mr. and Mrs. P. Linde, of Newark, relatives of the Nobles, and Uno Bergkvist of Newark a friend.

MURDER CHARGE AGAINST PLUMBERS.

ST. JOHN, N. B.—The charge of murder was preferred against John O'Brien and Everett Carland in the Police Court this morning, the charge being based on information laid by Robert Harris, who disposed that he believes the defendants caused the death of his son, Robert Harris, Jr., by beating and striking him causing injuries from which he died.

The prisoners are plumbers, who have been on strike since May 1, and the victim was an apprentice plumber who did not join the strikers. O'Brien and Carland, who have been held in jail on another charge of intimidation, were witnesses at the coroner's inquest, but pleaded ignorance of the attack on Harris. They were not asked to plead and were remanded until tomorrow afternoon when the preliminary hearing will commence.

IMPORTATIONS OF EUROPEAN RUSSIA.

WASHINGTON.—European Russia imported \$548,853,000 worth of goods last year, an increase of 100 per cent. over the total for 1915, according to a statement issued by the bureau of foreign and domestic commerce Monday. The figures, which do not include munitions, fell short only \$83,000,000 of the total for the normal year, 1913.

Great Britain and the United States were chiefly contributors to the Russian market. From 1913 to last year the United States increased her exports to Russia more than 250 per cent., while in the same period Japanese registered the remarkable advance of 473.4 per cent.

CALLS PRICE A "REGULAR FELLOW." "The Prince of Wales—oh, he's a regular fellow," ejaculated Captain Herbert L. McBride of Indianapolis Ind., when a questioner asked him about his experience with King George's heir in the trenches in France.

"He proved himself a real soldier, too," said McBride. "I got well acquainted with him in the trenches, and him later in London."

McBride, a former member of the Indians National Guard and a native Canadian, went to France as captain. He is now home, recovering from a dozing wound, recovering from a dozing wound, recovering from a dozing wound, recovering from a dozing wound.

"I made a bad mess of it when I was called before the King with a number of other officers," said McBride. "I didn't know much about pinned a medal on me. I simply swung around and walked away in military fashion."

"When I reached the officers, one of them told me of my breach of etiquette." "You played the devil, Mac," he said; "no one should turn his back on the King."

"The Prince of Wales was in the crowd of officers and he didn't take it so seriously. Laughing, he almost shouted: "Mac, you're all right—that's the way to do it."

TOO HOT. Too hot to work. Too hot to play. Too hot to read. Or write today!

A BAD MIX-UP. Two correspondents wrote to a country editor to know respectively the best way of assisting twins through the teething period, and "How to rid an orchard of grasshoppers."

The editor answered both questions faithfully, but unfortunately got the initials mixed, so that the fond father of the teething twins was thunderstruck by the following advice:

"If you are unfortunate enough to be plagued by these unwelcome little pests, the quickest means of settling them is to cover them with Paris Green."

While the man who was bothered with grasshoppers was equally amazed to read:

The best method of treatment is to give them each a warm bath twice a day and rub their gums with bone-set.

BEGINNING OF THE FOURTH YEAR OF WAR WILL BE SIGNIFIED BY IMPORTANT SPEECH BY PREMIER LLOYD-GEORGE IN WAR AIMS.

LONDON.—The beginning of the fourth year of the war will be significant in Great Britain by the important events. There will be a great religious intercession service in London, at which King George and Queen Mary will be present, and a big meeting in London August 4, when Premier Lloyd-George will inaugurate the work of the national war aims committee by an important speech.

The object of the war aims committee is to keep before the nation the causes of the war and the necessity of continuing hostilities until the conflict are destroyed. The committee has four presidents, Premier Lloyd-George, Herbert H. Asquith, Andrew Bonar Law, Chancellor of the Exchequer and Minister of Pensions Barnes.

According to information in Parliamentary sources the Premier's speech will outline, as precisely as possible the war aims of Great Britain and her Allies.
