The Power of Music
Brig Gen. Charles G. Dawes, formerly controller of the currency, best known as "Hell an' Maria" and now director of the fiscal system of the federal government, force is often felt in the feminist system as well as a financial magician who proposes to make Uncle Sam's high cost of doing business dwindle and shrink to the vanishing point.

While commissioner of supplies at General Pershing's headquarters in France, General Dawes needed eight hundred horses and needed them in a hurry. His formal report to the British commander, "The woman who has the brains Dawes was not to be thwarted, and the ability must have just as and irrefuted this particular officer, good a chance as man and must Gen. William E. Budkin, to his have just as fat a check in her hotel and thence to a cafe to make pay envelope."

Even where a woman has as a personal appeal. While they were waiting for much ability as a man, or even service a good orchestra, played more, she is handicapped today by it brought Dawes' jangling nerves off customs and prejudices. into time. He had a parley with "This will change radically the orchestra leader and soon was when big business men treat their playing an instrument. General own daughters as they do their Bedkin and his party so enjoyed sons."

When men train their daughter playing most all night and in the mornig he got his eight hundred them and to carry it on after their horses—he had fiddled them out retirement or death, a new era will of the British commander.

Equal Pay For Equal Work is Solution

Lady Rhonda Says This is the Way to Dispose of Surplus Women

The biggest business woman in Great Britain, Viscountess Rhonda, has the solution for the problem confronting England's 2,000,000 spinsters. In a line it is: "Equal pay for equal work." Only by giving these women the fullest quality with men in business, says Lady Rhonda, can the nation meet the situation precipitated by the war, which left the country with 2,000,000 more women than men—women without any hope of marriage.

Lady Rhonda is a director in 36 corporations and entirely in control of a good many—steel, iron, coal and steamship concerns. But these are only part of her interests. When the women of Great Britain were fighting for the vote, she was one of the militants who led the campaigns and were arrested and jailed. As a pal and confidante of her father, who at that time was simply D. A. Thomas, she accompanied him on an important war mission to America. They were on the Lusitana when it was sunk by the Germans, and both had a miraculous escape from death. She wields an able pen whose force is often felt in the feminist system as well as a financial magician who proposes to make Uncle Sam's high cost of doing business dwindle and shrink to the vanishing point.

POISONING FROM COAL
Arsenical poisoning by coal and coal products was recently discussed before the French Academy of Science by Charles Richet in a paper. There had been an outbreak of serious symptoms of arsenical poisoning. The name given to the disorder was the pitch disease. In many cases there was cutaneous cancer of a grave form, which even proved fatal; about 30 per cent. of all the employees were affected in this way. A chemical analysis was made of the pitch and arsenic was clearly found in it, and traces were also discovered in the dust at the works, in the hair of the working-men (and that in considerable quantities) and in the blood of most of them. It was evident, therefore, that they were under the influence of arsenic. It was ascertained that similar results have been met among tar distillers, road asphalters, tarred paper makers, and lampblack makers. The origin of this arsenic is to be sought in the coal. It has been long known that certain varieties of coal contain arsenic, but it is a new thing to find that arsenic is so widely to be found in coal, which even proved fatal; about 30

The Foundation of Health is Habit

"For every man who has lost his life by what he did in the last five minutes a hundred men have died because of what they had been doing in the last five years."

Life is made up of habits. There is the health habit. And also the habit of ill-health. It is surprising what a lot of people have developed the latter. What hosts of women have bilious spells and bilious headaches about every so often, year in and year out, and never think of correcting the action of the liver, and thereby removing the cause of this oft-recurring trouble. They have formed the habit of being bilious. Many are the men, indoor workers as well as those who spend their time in the open, who frequently suffer from backache, and yet neglect to get the kidneys in healthful condition. It is the backache habit which is robbing life of its pleasures for them. These are dangerous habits. Some people live for many years with their systems poisoned by impurities—they live and suffer. Others soon develop Bright's disease, diabetes, high blood pressure or hardening of the arteries, and quickly have their lives snuffed out. The greatest rule of health is "daily movement of the bowels." This is also the most valuable of health habits. To get back to this rule, to awaken the sluggish action of the liver and kidneys; to cleanse the system and

purify the blood, there is nothing like Dr. Chase's Kidney-Liver Pills. By using one pill a dose at bedtime two or three times a week, just as often as is necessary to keep the bowels regular, you will in a few weeks restore the healthful action of these filtering and excretory organs and correct any derangements of the digestive system. Dr. Chase's Kidney-Liver Pills will help you as nothing else can to get back to the habit of healthful living. You will live a longer and a happier life by reason of their use. These letters will interest you, and a test of Dr. Chase's Kidney-Liver Pills will prove their exceptional merits in relieving the common, every-day ills and preventing the more serious ones. Kidney Trouble
Mr. George Stevenson, Rounthwaite, Manx, writes: "For seven months I suffered from Kidney trouble, backache and dizzy turns, and could get no relief. My back ached so severely that I could not turn in bed, and finally I had to quit work. One day I received a copy of Dr. Chase's Almanac which had been sent me through the mail, and after reading how highly Dr. Chase's Kidney-Liver Pills were recommended, I gave them a trial. I had tried various other pills and remedies with no effect whatever, but in a few days I started using Dr. Chase's Kidney-Liver Pills I got relief, and two boxes made me well."

Bilious Headache
Mrs. John Ireland, R. R. No. 2, King, Ont., writes: "I was a great sufferer from severe, headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me, and made me feel like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."

Rheumatism
Mr. George Weathers, Huntsville, Ont., writes: "I was troubled with rheumatism for eighteen years, and although I tried a number of different treatments nothing did me any good. Finally I tried Dr. Chase's Kidney-Liver Pills, and can truthfully say they completely relieved me."
