WILSON'S INVALIDS' PORT

a la Quina du Pérou

ANAEMIA

or the depraved and poisonous condition of the blood usually affects young growing girls and those of sedentary habits, it causes those afflicted to be listless, languid and worn in the morning before the day's work is begun, and a general falling from their usual strength and vigor.

WILSON'S INVALIDS' PORT

(a la Quina du Pérou) not only checks the decline of mental and bodily vigor but it builds and braces the system, supports the heart, tones up the nerves and brings back the bloom of health into your cheeks.

BIG BOTTLE ASK YOUR DOCTOR ALL DRUGGISTS

GOSSIP

"Don't believe everything you hear." Did you ever reflect how much more that saying appeals to you as you get on in years and accumulate experience? When you were young you might mention the name of a friend, "That fellow!" a companion would exclaim, "why, he's a jackass and a crook combined. Don't trust him." Very likely he would go on to give you in detail an instance of some crooked deal in which your friend was involved.

He would be so obviously sincere about it all that he would make an impression on you. Shocked, you would begin to revise your estimate of your friend and regard him with suspicion. Later, you might happen to stumble on to the fact that the detailed story so discreditable to him was false. Eventually you would be assured that the prejudices of your companion who gave you the warning had run away with him and that your friends was all right.

As a person grows older that most persons are constitutionally inaccurate, that they will relate the wildest rumors as if they were real facts, and that it is the commonest thing in the world for a person to relate as if true a discreditable incident that he actually knows nothing about. Prejudice, or even the love of a well-embroidered story, will run away with the average man or woman.

The only way to judge people is by their record—by the way they have lived over a term of years. Gossip is always busy with fine men and women. Generally its only basis is envy or credulity or irresponsibility. Don't be influenced by irresponsible rumors.

BODY OF FARMERS ARE AT THE CAPITAL.

OTTAWA, Dec. 15—A deputation of farmers and grain growers from Ontario and the prairie provinces are here. They see the government tomorrow and ask for free wheat and flour and that the British preference be raised 508 per cent; also for free agricultural implements and no more bonuses to railways.

VITALITY REGAINED KIDNEYS CURED

Health Restored By "Fruit-a-lives"

HAGERSVILLE, ONT., Aug. 26th. 1913.

"About two years ago, I found my health in a very bad state. My kidneys and liver were not doing their work, and I became all run-down. I felt the need of some good remedy, and having seen 'Fruit-a-lives' advertised, I decided to try them.

Their effect, I found more than satisfactory. Their action was mild and the results all that could have been expected.

My liver and kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old time vitality. Today, I am as well as ever, the best health I have ever enjoyed, and I unhesitatingly give you this testimonial for publication if you wish."

B. A. KELLY.

In hundreds of letters received by the Fruit-a-lives Company, the same expression is used "Fruit-a-lives is the best kidney remedy in the world". At any rate, these tablets have proved the best to the hundreds of men and women who have been cured by taking them. See a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

WINTER EGG ITEMS.

There is no item in the diet of laying hens of more vital importance than green food. If the supply is at all stinted the fowls speedily show signs of ill-health, their blood becomes heated, and their internal organs refuse to work properly.

A plentiful supply of grit aids digestion. Without it fowls cannot digest their food properly, and all kinds of diseases result. This inevitably reduces the egg supply.

A small box containing sharp flint grit should be kept in every poultry run so that the birds can get at it whenever they want it. For older fowls the grit must be about the size of peas.

Keep laying hens absolutely clean during the winter months. If they are troubled with insects, the egg supply will be affected, while the birds themselves will be less healthy.

The birds should be dusted with a disinfectant powder about once in six weeks, particular attention being paid to the parts beneath the wings and on the back.

It is a good plan to have a dust bath in every run. This should consist of a shallow box containing ashes, in which some disinfectant powder has been mixed.

It is of little use producing winter eggs if they are marketed in a slipshod manner. It should be remembered that the eye is the inlet to the pocket just as much as it is to the soul.

That Persistent, Hacking Cough

is not only wearing, disagreeable and dangerous—it is unnecessary, too, for you can quickly stop it by taking

NA-DRU-CO

Syrup of Linseed, Licorice and Chlorodyne

This remarkable combination of these three standard cough and cold remedies loosens the phlegm, promotes expectoration, relieves that exasperating tickling in the throat, and the cough disappears. Of course it is better still to take Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne when you first feel the cold coming on, and check it at once. Get a 25c. or 50c. bottle from your Druggist and keep it on hand, ready.

This Company has ten pair of pure bred Island Silver Black Foxes - five pairs of which are tested breeders. They are made up of six pairs of Dalton bred stock, three pairs of Frank F. Tuplin stock and one pair of Gordon Tuplin stock. Among those foxes is the whole stock of the Rosemont Company which paid such extraordinary dividends last year.

The Company's Ranch is situated at Mount Carmel and within an hours drive from Summerside. It will be in charge of Mr. John J. Gallant and an assistant and under the direct supervision of Mr. Frank F. Tuplin the Chairman of Directors, who himself is a large shareholder in the Company. There is telephone communications between the ranch and Mr. Tuplin's office so that he will at all times be in touch with the Ranch keeper. The Ranch is situated on the South side of ten acres of spruce trees. The soil is hard clay which is now generally regarded as the most wealthy for foxes. The keeper's house and other buildings adjoin the ranch.

COST OF RANCHING

The Ranching will be done at cost which experience shows should not exceed one to two per cent of the revenue. With ten pairs of foxes five pairs of which are proved breeders, this Company should be able to produce good dividends for its shareholders. One investor after looking over other propositions has lately invested \$15,000 with this Company. Drop a card to the Secretary and he will forward prospectus and other literature.
