YESTERDAY'S STOCK and BOND QUOTATIONS

TO HOG PRODUCERS OF PRINCE EDWARD ISLAND

The Federal Department of Agriculture is suggesting that Rail Grading of Hogs be adopted here.

This means the Hogs will be graded after killing by Government Graders and paid for accordingly on dressed weight at Plant, with a bonus on Selects and a reduction on under grades.

Would you give us your opinion on this policy by writing us at once. At the same time would you suggest any changes either in type of Hog or method of feeding that in your opinion would be in the interest of the industry.

We may say that too many Hogs at present, while having type and weight for Selects are not properly finished and are too thin, bacon being very irregular in thickness, and Hogs appearing to have too much growth in proportion to flesh.

Is this the fault of type of Hog or of feeding? What is the remedy?

We would appreciate your writing us at once.

MARKET GOSSIP

(By Johnston and Ward's Special Wire)

MORNING MARKET LETTER

NEW YORK, N. Y., May 13—Another strong market on Saturday resulted in a new closing high for the D. J. Industrial averages and moderate gains in the rails and utility averages. The latter did not fully reflect, however, what was the feature of the session, the large volume and sharply higher prices for numerous utility holding company shares of the lower grade.

A number of the industrial leaders show considerable strength at top prices. The oils, as a group, continue to act well in reflection of the improved outlook for the industry.

Laidlaw and Company.

SUMMARY

NEW YORK, N. Y., May 13—Gold bars 142s 6 1-2d vs 143s 4d on Saturday.

Youngstown District Steel operations begin week at 51 percent of capacity, up 1 point over previous week.

Montgomery Ward in quarter ended April 30 earned 40 cents a common share vs. 42 cents in like 1934 quarter.

President O'Neil of General Tire and Rubber Co predicts that in near future the rising price of silver will be reflected in higher prices for automobile tires.

Moody's Investors Service Commodity Price Index for Saturday was 157.4 vs 157.4 on Friday.

Magazine "Steel" says, notwithstanding a sharp decline in auto output and due mainly to recent awards of Government projects, steel works operations last week reversed the recent trend and advanced 1-2 point to 44 1-2 per cent of capacity.

Strike committee of United Auto workers federal union, which ordered strike in Chevrolet plants, accepted peace terms Sunday offered by General Motors officials and they will be voted upon tonight by members of the Union.

Mayor LaGuardia announces intention to proceed with plan for $45,000,000 electric power production plant to serve "consumers as well as City buildings and is calculated to force Cons. Gas either to promptly reduce rates for consumers or face establishment of a city power system."

BANON SAYS

MONTREAL, Que. May 13—With the exception of American Can and DuPont most of the recent leaders marked time on Saturday while preferred shares in the utility division and specialties were actively bought at advancing prices. Sluggishness of important leaders accompanied by bullish displays in specialty shares at the top of a bull swing sustained for eight weeks must be accepted as unsatisfactory market action. Probabilities favor reaction. Immediate purchases at the current level would be attended by excessive risk.

Gold shares sagged slightly on Saturday in general golds continue to fluctuate within an extended trading line with prices near the bottom of the range in most gold shares. Turnover continues exceedingly low and there is little likelihood of material reaction from current level. Purchases on a scale down should prove profitable. On reactions buy Dome, McIntyre, Hollinger, Teck Hughes, Can. Malartic, and Central Patricia.

BARING LETTER
Saturday Afternoon

NEW YORK, N. Y., May 11—Sept Wheat closed half a cent lower and I must admit it has not acted according to program. Of course, if we get currency inflation it is likely to sell much higher, but that seems to be its only hope. Cotton closed slightly lower and would take some profits on further strength, as you should be long around 10.50.

The Industrial average did not go quite as high yesterday, though they closed a little higher. If they got to about 119, however, as stated yesterday, most of your stocks should be held and this small setback should be ignored, except in the few instances specified last night.

Phillip Morris should be held and if it should go below 43, which is possible but doubtful, it can be bought for a new high for all time. American Can made a new high and as repeatedly stated since it was near 90, should be held for near 130.

Union Carbide rose nearly a point more and if you sold out half as advised yesterday, your remaining half now costs you about 94. Hold on to that. McKeesport Tin Plate rose 2 points more, but would still hold on. Baldwin pfd is up a point and seems a good gamble around 9.

Case seems cheap if it reacts to about 57, Johns Masville below 49, Rubber pfd near 30, Atchison around 40, Bethlehem Steel below 26, Nat'l Distillers at or below 24, and Simmons around 8.

Baring.

BANON'S "NOON LETTER"

MONTREAL, Que., May 13—Demands for rails recorded quite an improvement this morning. Action, however, of the industrials still indicates the likelihood of at least a temporary reaction from the current level.

General buying last week was motivated mainly by fears or hopes that inflation is about to take place. Temporary deflation of these hopes could easily be produced by Morgenthau in his speech scheduled for tonight. Morgenthau it might be remembered, has in recent months talked quite a bit in favor of the "soundness of the American dollar."

There has been a continuous flow of bullish news on the aviation shares in recent weeks. Leading shares in this division, however, turned somewhat sluggish in the last few days.

With the Federal Works Program going into action in the United States it is not very surprising that Caterpillar Tractor acts better than average, marketwise, the company should be one of the early beneficiaries of the Works Program.

Inflationary measures are strongly in the forefront these days. Any marked loss of confidence of the American dollar is likely to precipitate weakness in the gold bloc currencies already in a precautious position.

Market action of National Breweries is decidedly bullish. Further advance in this issue will likely be well fortified by seasonal reports of a favorable nature.

Steel men in the United States regard current demand as satisfactory, according to Pittsburgh "Review."

Continued improvement in United States retail business reported during past week. The decline in earnings reported by Cont'l Oil Co of Delaware for the first quarter of this year as compared with the corresponding 1934 period is directly attributed to increases in sales expenses and taxes. Gross operating income for the 1935 quarter totalled $14,493,000 compared with $14,270,000 last year.

MINING

(Canadian Press)

TORONTO, May 13—Gold stocks weakened while miscellaneous mines improved their position slightly on the mining section of the Toronto exchange today. A decline of the London quotation on bar gold was a drag on the yellow metal group while strength was spotty in the base metals and the silvers closed with a mild display of weakness. Volume was off to 728,000 shares.

Trade in the silver group was hesitant, despite a higher metal price and at the close Eldorado was down 6 cents, Castle 5, Bear 2 and Premier 2. The base metals showed to better advantage, mining corporation adding 5, Base Metals Corporation 1 1-2, Sherritt 10, Sudbury Basin 5, Noranda 30 and Falconbridge 2. A small boost in the export copper quotation helped the group.

LIVESTOCK

(Canadian Press)

MONTREAL, May 13—Offerings on the two local livestock markets today totalled 3,896 head.

Cattle receipts were 1,080 head. There was an all round improvement in the cattle market as regards numbers, quality and prices. Trading was active and prices about 25 cents higher. The bulk of the good steers sold at $7.25 to $7.75 and a part load of tops at $8, with medium good kinds around $7. The bulk of the medium steers sold from $6 to $6.50 and common steers from $4.50 to $5.50. The few fed calves offered made from $5.50 to $8. Heifers ranged from $3 to $6.50, just medium quality light heifers selling around $5. Good cows were from $4.50 to $5 with a large percentage making the latter figure. Medium cows ranged from $3.50 to $4.25 and the bulk of the common butchers from $2.75 to $3.25. Canners and cutters were from $1.75 to $2.50. A few light young bulls of baby beef type, made from $5.50 to $6. Good butcher bulls ranged from $4.50 to $5 and common bulls from $3 to $4.

Steers up to 1,050 lbs., good and choice $7 to $7.75; medium $5.75 to $6.50; common, $4.50 to $5.50; steers over 1,050 lbs., good and choice $6.75 to $7.75; medium $5.75 to $6.50; common $4.50 to $5.50; heifers, good and choice $5.75 to $6.50; medium, $5 to $5.75; common $3.50 to $4.50; fed calves, good and choice $7 to $8; medium $5.50 to $6.50; cows, good $4.50 to $5; medium $3.50 to $4.25; common, $2.50 to $3.25; canners and cutters $1.75 to $2.50; bulls, good, $4.50 to $5; common $3 to $4.

Calf receipts were 1,0009 head. Trading on calves was very active at prices estimated to be steady on common quality calves to 25 cents higher on other grades and up to 50 cents in spots.
