## Canadian Cookery For Canadian Women

(Continued from Page 2)

8 tablespoons butter, 3 tablespoons flour, 2 cups milk, 1 cup grated cheese or 1-4 pound melted cream cheese, 1 teaspoon salt, paprika. Melt the butter, blend in the flour and then stir in the heated milk to which the cheese has been added. Add salt then pour all over potatoes in shallow baking dish, mixing and lifting them until all surfaces are coated. Sprinkle with paprika and reheat in moderate oven. These may be sprinkled with buttered fine crumbs.

If you are a regular reader of this page you will know that cheese and crisp crackers or puff paste waters and jam or jelly of some kind are often a dessert course in our company menus. Such a combination was the menu for Greek athletes when they were training for the Olympic games—fresh cheese, dried figs and whole wheat unleavened wafers.

Baked Apples With Gingerbread And White Cream Cheese

Another dessert featuring cheese: Prepare baked apples in the way you like them best. Also make your favorite gingerbread—a soft variety if preferable. Now split the gingerbread in half crosswise and spread it with either creamy Baumert cheese or cottage cheese to which cream has been added. Replace the top layer and spread it with cheese too. Of course this is a very unusual dessert and would only be served on state occasions and to folks you know would appreciate it.

### WHICH WAY?

(By Christy Mackaye)

Which way down to the river will be greener,  
Which way up the hill  
Be golden,  
With the sun growing older?

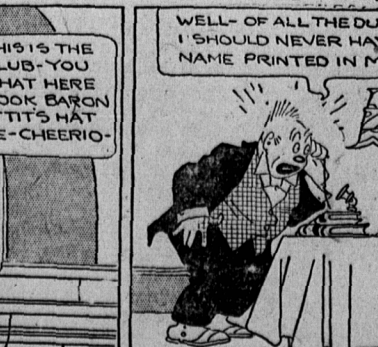

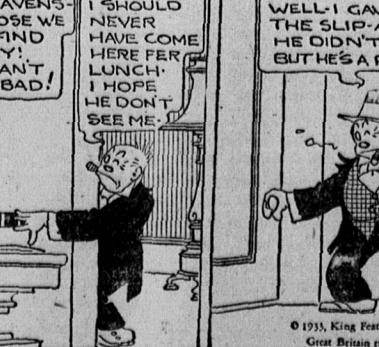

How will the hill wake and lean over  
In the dusk?  
How will the wind find heart  
To pass  
Out of the tall brown grass?

## Hostilities Have Affected Shipments

MONTREAL, Que., March 14—Hostilities in South America have affected the freight rate for goods travelling between Canada and certain Latin-American countries over the route recently opened by the Canadian National Steamships in conjunction with lines of the Latin-American Conference. Such cargoes are transhipped at Panama to and from Canadian National ships that ply between Canada and Australia and others that ply between Canada and New Zealand. The announcement of the change states that effective with clearances of March 13th lines that are members of the conference will assess an additional surcharge of five per cent of the total of ocean freight charges on all cargo destined to west coast South American ports in Colombia, Ecuador, Peru, Chili and Bolivia. The charge is to cover war risk insurance on account of hostilities existing between Colombia and Peru, says the announcement. The Canadian National is asked to take account of the cargo in booking Canada-South American cargoes for the ports affected.
