A PROVINCIAL LIBRARY.

From time to time schemes have been propounded to extend the advantage of modern libraries to the remote parts of country districts. Possibly the newest idea is the travelling library. The literary digest gives the following which is an excellent idea of the working of a country or travelling library. At the beginning of this year through private requests, a country library, the first in America, was opened to the people of Van Wert County, Ohio, known as the Brumback Library after the donor. The working of this venture cannot be better described than in the writer's own words, which are as follows: "The admirable feature of the Brumback Library is the fact that it is a country library, its privileges being extended to the people of the country and of the town and city alike. If we look into the history of the philanthropies of our nation, we shall find that they have almost exclusively benefitted the people of the town and city. Who has done anything to make life happier, better and sweeter on the farm? The reports of our recent decennial census inform us that during the past decade thousands of people have migrated from the country to the town and city. What has been the result? Unhappily it has been that many of the best farm districts to be found anywhere in the country have to-day fewer people than they had ten years ago, although our nation has made, during the past decade, a gain of over ten millions.

The method adopted by the Brumback Library to bring its books to all parts of Van Wert County is easily explained. The library itself—which represents a value of \$50,000 receives an annual income of fully \$3,500 and has a stack-room capacity when all available room shall be used of 100,000 volumes.—is located in the city of Van Wert. Fortunately, this city is located in the center of the county which contains in round numbers 275,000 acres and has a population of nearly 35,000 besides the central library there are ten branch libraries, which are so situated that every resident of the county is within easy access of the library itself or of one of its branches. The ten branches have a unique feature in the form of what may be called a travelling library system, and are also in direct communication with the central library. The ten branch libraries are placed in the more important stores or offices of the villages of the county, where they are excellently managed by virtue of the fact that those having charge of them are given nominal salaries. "To start, the travelling-library system, the library trustees purchased 1,000 books most of them entirely new, which were sent to the ten branch libraries, 100 to each branch. After keeping its 100 books two months, each branch sends them to one of the other nine branches, and receives a second 100 from one of its neighbors to take their place. So the books pass from branch to branch until each

branch has had the thousand books, when they are returned to the central library and catalogued. In the meantime, another 1,000 books have been purchased and put in readiness to repeat the experience of the first thousand.

"I have already said that the branch libraries are in direct communication with the central library. By this I mean that all persons securing books from the central library through any of the branches are subject to no other rules than those imposed by the central library. Cards can be had from the central library only; but persons holding cards may secure books anywhere in the county. The more important papers of the county have published lists of all the books contained in the library, and continue to publish the titles of new books as soon as they have been catalogued.

During the few months since the Brumback Library opened its doors to the people of Van Wert County it has been conclusively proved to be a very gratifying success. Unusual interest is manifested and books go every day to readers in even the most remote townships."

PAN-AMERICAN POINTS.

Every visitor to Pan-American Exposition is more than pleased, and even surprised at the wonderful display provided by the Exposition management.

Not only are the buildings beautiful in line and color, but the stupendous electrical illuminations which at night decorate the great structures are most dazzling in effect.

From New England the lines of the Boston & Maine are the most direct to Buffalo. The service by this line is not only the quickest, but is the most complete and also the shortest. The route through Northern Massachusetts known as the Hoosac Tunnel or Deerfield Valley route is one of the most charming and picturesque in the country, and the rate to the Pan-American city or Niagara is exceptionally low. For tourists from Boston & Maine territory a particular advantage is the absence of a transfer across the city of Boston trains depart from the North Union Station.

The General Passenger Department of the Boston & Maine Railroad, Boston, has gotten out an attractive illustrated pamphlet on the Pan-American Exposition, which is sent free for the asking.

If a man is going to fight he wants to be well. He wants to be strong, steady-nerved, vigorous—able to take and give punishment. One of Roosevelt's Rough Riders actually starved to death because his digestive system wasn't strong enough to extract the nutriment from food that kept his comrades strong and well and in tip-top fighting trim.

The soldier isn't the only one who fights and needs strength. Business men, clerks, engineers, laborers, all have a fight on their hands. All have to fight for a living. The strong win. The weak go to the wall. What about you?

Is your blood all right? Do you feel right? Are you losing flesh? Feel "run down"? Do you sleep well? Have trouble with your stomach? Tired all the time?

If so what you need is Dr. Pierce's Golden Medical Discovery. It makes men strong. It keys the digestive system right up to concert pitch. It tones the stomach, stimulates the liver, strengthens the nerves, enriches the blood—makes a new man of you. Puts snap and vim and endurance into you.

A. D. Weller, Esq., of Pennsylvania, Escambia Co., Fla. (Box 544), writes: "I have taken eight bottles of the Golden Medical Discovery, and must say that I am transformed from a walking shadow (as my friend called me), to perfect health. Four months ago I did not think to be in shape to assist our 'Uncle Samuel' in case of hostilities, but thanks to you, I am now ready for the 'Tons.'"

A HOME CURE.

Consumptives Need not Leave Their Own Homes to be Cured.

The Slocum System

Of Treatment is Offered you Absolutely Free.

A consideration not to be overlooked in the treatment of consumptives is the expense in quest of health. Some of our medical men are now advising their patients to go long distances in the hope that change of air will do them good. A lot of solemn nonsense is being said, and written, about change of climate, and its influence on the patient. "Stick to low altitudes," says one. "Go the mountains," says another. How is a poor perplexed sufferer with sore lungs, to decide among these different authorities? The fact is, people die of consumption in all climates. They recover from it, too, in all climates, if they are treated properly. The only positive cure for the disease is to kill the germs that produce it. This is accomplished under the Slocum system of treatment. The disease must have nothing to feed on. That is the principle underlying the Slocum system. You can try it at your home.

POSITIVELY FREE.

You or your sick friends can have a FREE course of treatment. Simply write to THE T. A. SLOCUM CHEMICAL CO., Limited, 119 King St. West, Toronto, giving post office and express office address, and the free medicine (The Slocum Cure) will be promptly sent.

When writing for them always mention this paper.

Persons in Canada, seeing Slocum's free offer in American papers will please send for samples to the Toronto Laboratories.

The Tea of the Season

Will be held on the grounds quite near the Mayfield Hall on Wednesday, July 10th. The inhabitants of Mayfield, formerly called Cavendish Road, intend holding a grand tea party on the above date.

Parties desirous of spending a pleasant day should not fail to come and see this beautiful part of the country.

The committee will spare no pains to make this the most enjoyable outing of the season. Should the day prove unfavorable the tea will be held on the following day.

Proceeds in aid of the new hall.

By order of the Committee.
