LONDON, June 14.—The World Economic Conference is moving towards realities. More nations have joined the temporary tariff truce. Behind the scenes the pieces are shifting on the international chess board into new combinations; the gold countries of Europe are getting together.

Banking experts are grappling with currency stabilization, and the jobbers are full of gossip of bilateral trade agreements. Great Britain and the United States jointly call for reduction in excessive tariffs; in a world of high protection Holland raises a belated voice for wholesale tariff reductions.

The increase to 19 in the number of nations joining the temporary tariff truce was not the only bright factor today. Not long after Prime Minister Ramsay MacDonald had announced adherence of the Netherlands, Rumania, Denmark and Finland, he called—and the plea was echoed by Secretary of State Cordell Hull of the United States, and amplified by Maxim Litvinoff of Russia—for world-wide agreement in the truce.

MOTORCYCLIST INJURED IN ACCIDENT

A motorcyclist, Mr. Robert Gay, sustained painful injuries about 10.15 last evening when his machine turned over after striking a bump on the Malpeque Road near the pumping station. The young man was rushed to the Prince Edward Island Hospital, where he was found to be suffering from severe injuries to his left shoulder and left leg. The exact nature of the injuries has not been definitely ascertained.

Mr. W. K. Rogers who was driving in a car toward the city saw the light of the approaching motorcycle suddenly disappear. When he arrived at the scene he stopped to investigate, and discovered the motorcycle on the side of the road, and the driver lying some yards away. Mr. A. A. Hennessey's Ambulance was hurriedly summoned, and the injured youth was at once taken to the hospital.

Inspector Fripps of the R.C.M.P. who arrived on the scene of the accident a few minutes after it occurred, states that the marks on the road seem to indicate that the motorcycle turned completely over, hurling the rider to the ground.

Mr. Gay was unable to assign any coherent reason for the accident, as he was in a semi-conscious condition. At a late hour last night he was reported resting as comfortably as could be expected.

(Canadian Press)

KINGSTON, Ont., June 14.—Murmurs of discontent breaking into shouts of menacing threats, convicts brandishing weapons and breaking in doors, were some of the instances in the Portsmouth Penitentiary riot which were vividly described by Guard William H. Godwin when he recounted the events of October 17, 1932 in the course of testimony given in the trial today of convict H. Burling. Burling was the first of the 25 convicts to come up in court here before Judge McLean to answer riot charges.

At one point Godwin's evidence was interrupted as the presiding Judge read a telegram which he had just received from the Finnish organization of Toronto, demanding "the rescinding of the frameup indictment against Tim Buck and the establishment of the rights of all political prisoners." The telegram was signed by the convention committee of the National Convention now in session in Toronto.

Judge McLean described the telegram as an "attempt to intimidate a judge" and stated that it would be reported to the office of the Attorney General. Buck, former leader of the Communist party in Canada stands charged with riot in the institution but has not yet come up for trial.

When the hearing of evidence resumed guard G-dwin gave the court a detailed description of the riots.

Associated Press Staff Writer.

The British payment was in silver at 50 cents a fine ounce. Great Britain has obtained silver for the payment from the Government of India. Mr. Chamberlain told a crowd here.

A full membership of the Commons, backed by distinguished strangers in the gallery heard the Chancellor deliver his statement in a 12-minute speech.

Sir Stafford Cripps, Labor party spokesman, thereafter congratulated President Roosevelt on "the idealism with which he has faced the situation."

Sir Stafford also congratulated the British Government on "a solution satisfactory to both countries."

As Mr. Chamberlain finished, a government white paper was issued containing the texts of cables exchanged on the war debt crisis by Sir John Simon, Secretary for Foreign Affairs, and Sir Ronald Lindsay.
