IN THE REPUBLIC

English Papers Approve McKinley's Message.

Revising Admiralty Grades—Power to Hold and Govern Colonies—Bill to Prevent Improper Use of the Flag—The Pope and the Philippines.

WASHINGTON, Dec. 6.—(Special)—In the Senate to-day proposals were made to revise the grades of Admiral and Vice Admiral.

Vest of Missouri presented a joint resolution declaring that under the constitution the United States has no power to acquire territory to be held and governed as colonies.

LONDON, Dec. 6.—(Special)—English papers all speak in a friendly way of McKinley's message and rejoice that it stands by the open door in the east.

CHICAGO, Dec. 6.—(Special)—An association has been formed here and will present a bill to Congress making it unlawful to use the national flag as an advertisement, or in any way in connection with business. The Sons of the Revolution will support this.

LONDON, Dec. 6.—Wm. T. Stead, editor of the Review of Reviews, who has just returned from the Vatican, gives the correspondent of the Associated Press an unqualified denial of all stories representing that the Pope is hostile to the American policy regarding the Philippines. On the contrary, His Holiness is ready to co-operate with the United States in restoring order there.

DIED

At Berlin Falls, Me., October 21st., James G. Mackinnon, formerly of New Annan, Prince Edward Island. The deceased, who for some years taught school on the Island, was a very intelligent and popular young man, and his early death will be deeply regretted by his many friends, both home and abroad.

At Kildare Cape on the 27th ult., Ellen McCarthy, widow of the late William Dillon, leaving five sons and four daughters.

At North River, Nov. 30th, 1898, after a long and painful illness, John Archibald, youngest and dearly beloved son of Archibald and Margaret Mackinnon.

Asleep in Jesus, blessed sleep from which none ever wakes to weep; a calm and undisturbed repose, unbroken by the last of foes.

For Fussymen.

GOLD OF THE EAST.

TORONTO, Dec 5. Mr. Alex. Roy has returned from Nova Scotia, where he has been examining some gold mines for Mr. S. R. Wickett of this city, and called in at The Globe office last evening. Mr. Roy says: I was actually dazzled at what I saw while there. Great bands of auriferous slate, carrying extraordinarily rich quartz veins, exist in abundance, some of them one hundred feet in width, while the inclination of the surrounding rocks shew them to descend to a depth of 10,000 feet or more. The property which I examined was over 100 feet in width, and carried seven very rich quartz veins and almost every foot of the quartz showed free and visible gold, of which I traced the formation on the surface for over a distance of six miles. I also saw a large number of samples of very rich copper ore from New Brunswick, some of which would run as high as 33 per cent of pure copper. I saw the same from Newfoundland, while Labrador specimens were equally rich. There is also a large amount of smelting ore to be found there and rich galena in abundance; also coal of many varieties, with splendid shipping facilities. The country is in much the same shape in regard to mining that Ontario was about seven years ago, before it was brought to the notice of capitalists, absolutely nothing scientific in their methods of working whatever. Of course there are a few good companies adopting the proper methods, but as far as some of the stamp mills I saw there are concerned it is a wonder they produced any gold at all, and still they are paying dividends. I planned some of the tailings from one of these, which in itself would easily assay forty dollars to the ton. I never beheld such wasteful methods of gold mining in my life. I visited New York on my return and took a pocketful of visible gold showing samples and distributed them among the financiers of Wall street to let them know what was up there. I found that a large number of them already held small holdings in Canadian gold stocks, while the remainder had known about them for the last year or so.

There is a splendid field for investment and prospecting in these countries, and I believe myself that the free milling gold areas of Nova Scotia are equal to any in the world. The *Ecum Secum* mine was the one I was examining for Mr. Wickett. It is a very rich mine.

Bentley's Liniment the modern Pain Cure All dealers 10cts.

To-Day

We give a list of Xmas Presents Suitable for Gentlemen. Dressing Cases.

The best English make with choice fixings.

Fountain Pens. All sizes and prices; the Parker, jointless, is the pen we recommend.

Brush Sets. The newest toilet article in neat leather boxes.

New Cuttings Books English made and very useful.

Collar and Cuff Boxes Letter Scales, Shaving Glasses, Smoker's Sets, Tobacco Jars.

Books! Books! To-day we give a list of presents for ladies.

HASZARD & MOORE, Sunnyside.

EMPEROR WILLIAM

Opened the Reichstag Yesterday.

He Finds all Friendly—Approves the Czar's Peace Proposals—France Trying to Get Chinese Territory—A Handsome Gift—Duke of York's Visit.

BERLIN, Dec. 6.—(Special)—Emperor William opened the Reichstag today and spoke of the friendly relations with all foreign powers.

He expressed approval of the Czar's peace proposals, spoke feelingly of the assassination of the Empress of Austria and said the government would direct its energies to promote its growing relations with China.

NANKIN, Dec. 6.—(Special)—France has made demands that are equivalent to the alienation of a valuable portion of the Yang Tse Kiang valley. The Viceroy of Nankin stoutly refuses to concede them.

LONDON, Dec. 6.—Lord Mount Stephen has subscribed five hundred pounds to the Mansion House fund to promote Lord Kitchener's proposed Gordon Memorial College at Khartoum.

From careful inquiry about the proposed visit of the Duke of York to Canada next year it is gathered that the subject has not been seriously considered as yet, but that there is a reason to believe a favorable decision might result if the invitation were pressed.

DIED

At Prince Edward Island Hospital, on the 17th Nov., Jane McDonald, youngest daughter of the late Donald McDonald, of Bradalbane, aged 44 years. She leaves an aged mother and three sisters to mourn their loss. She was for many years a faithful member of the Presbyterian church in the congregation of Strathalbyn, and died fully trusting in the merits of her Saviour:

Sister thou wast mild and lovely;
Gentle as the summer breeze,
Pleasant as the air of evening,
When it floats among the trees.

Peaceful be thy silent slumber,
Peaceful in thy grave so low,
Thou no more wilt join our number,
Thou no more our song shalt know.

Yet again we hope to meet thee
When the days of life is fled;
Then in heaven we joy to greet thee,
Where no farewell tear is shed.

ROYAL BAKING POWDER CO., NEW YORK.

A DOUBLE PATRIOTISM.

LONDON, Dec. 5.—Sir Edward Grey, Liberal, member of parliament for Berwick-on-Tweed, who was under-secretary of state for foreign affairs in Lord Rosebery's cabinet and who was the spokesman of Lord Rosebery's government in the memorable declaration as to Great Britain's Egyptian policy, made in the house of commons in 1895, spoke on foreign affairs at Blackburn, in Lancashire.

Referring to the "magnificent effect on the relations between the United States and Great Britain accomplished by the free press of a free people on each side of the Atlantic expressing the general impulses of each nation," he said:

"I would rather have the free play of this national sentiment, which is enriching the public life of both countries, than a written alliance. We have finally come to realize a double patriotism—the patriotism of country, patriotism of race. There is a common bond between the two peoples; and we should look in time of peace to see the sentiment growing, and in times of disturbance to find in it something upon which we could lean for mutual support."

Sir Edward Grey condemned the "Attempt of some Conservative speakers to make party capital out of this undertaking," and expressed the hope that both Germany and the United States "may incline more and more to our policy of the 'open door,' which will lead to a great improvement in trade throughout the world."

Stolen Girl Recovered.

VANCOUVER, B. C., Dec. 5.—The British warship *Mildura* has returned from an exciting six months' cruise to the New Hebrides, doing patrol duty, with the French warship *Eure* as a side partner. After the war vessels had amused themselves making bonfires of a few villages in the British Hebrides, in revenge for the massacre of British Consul Duncan, they went together to the French Hebrides.

At Aoba the gallant British commander learned the daughter of the chief had been carried off by the French cutter *Port des Pointes*, which was then a black speck on the expense of blue. The French commander said he would see the cruel wrong to the chief righted. The Britisher resented this and said: "No, sir; this is my affair," and hurrying to his ship he crowded on full steam, and before night had overhauled the cutter and secured the young girl from the buccannering Frenchman, besides twelve other native maidens. The boys of thankful maidens were transferred to the *Eure* and taken home. They stayed through an interpreter that some of them were bought from their parents. Others were seized and carried away.

CHICAGO MARKETS.

CHICAGO, December 6.—[Special]—The following are the closing rates:—Dec wheat, 64½; corn, 33½; oats, 25½; pork, 7.97.
Jan. pork, 9.25
May wheat, 66½; corn, 33½; oats, 25½; pork, 9.50.
July wheat, 64½; corn, 34½.

CANADIAN AFFAIRS

Mr. Powell, M.P., on State Railways.

Mr. Williston Talks to Toronto Young Liberals on Federal Expenditures—The New Two Cent Stamp—Big Snow Storm.

OTTAWA, Dec. 6.—(Special)—St. Andrews Society presented Lord Minto with an address of welcome.

FREDERICTON, Dec. 6.—[Special]—H. A. Powell, M.P., lecturing before the University of N.B., disapproved of government control of railways in Canada.

Mr. Powell said it would add to the corrupting agencies in the hands of the government. Canadian politics are already reeking with corruption and something is wanted to stem the tide, rather than increase its force.

TORONTO, Dec. 6.—[Special]—J. S. Williston of the *Globe*, addressing the Young Liberals, discussed the necessity of increased expenditure for constructive purposes and national defence. He said the Liberals had condemned the expenditures of previous governments but have not reduced them.

He argued that the people were entitled to a full and frank insight into the policy and proceedings of the government and said they would support expenditures with results and condemn those without results.

MONTREAL, Dec. 6.—A big snow storm raged all day Sunday and all night in western Canada. The result is telegraph and telephone wires are down all over the country. The snow fall in Toronto is the heaviest on record. The street railway systems all over the country are blocked. In this city the storm was not very heavy. Only six inches of snow fell.

OTTAWA, Dec. 6.—Enquiries at the post office department today elicit the fact that although it was the original intention of the department that the new stamp could not come into use until the 25th inst., the demand from the public for it became so pressing that the department decided to issue it at once, and permits its immediate use to the extent of its face value for all postage purposes; in other words, as soon as it reaches the public it may, if preferred by the purchaser be used instead of the ordinary two cent stamp. The two cent inter-imperial rate does not come into effect until Christmas day.

THE WEATHER.

WASHINGTON, Dec. 6.—(Special)—Snow, easterly gales.

TRADE AND SHIPPING

There was little stir in the market yesterday and prices remain about the same as last report.

About 125,000 barrels of apples have been shipped from the Annapolis and Cornwallis Valleys to the English markets, and this does not represent more than one-half of the quantity available for export. *Halifax Herald*.

There was a further advance in the price of potatoes yesterday. The captains of some of the vessels received advices from the Island yesterday and as a result the prices went up from 40 to 45 cents a bushel. There was one vessel at the market wharf that was still selling them at 40 cents, and there was a big run on her. The others did not sell many on account of the advance. —*Halifax Chronicle*.
