The Result of Square Dealing

Has brought us the large patronage we enjoy. We will continue on the same track as of old and give for money invested at our Establishment. The manufacturing of clothing is now an art. The plain styles are going by and are being replaced by more fancy and artistically made garments. It takes ingenuity as well as enterprise to make up stock to satisfy the demands at the present time. We claim that in so large a stock as we constantly have on hand, our variety is greater and our customers can be better suited than at a smaller store. We claim again that as we buy our goods for cash at mill prices and manufacture every garment we sell, we can offer our goods at very low figures. Its worth your while to call and inspect our Fall and Winter Clothing. We have a grand range of Overcoats in medium and heavy weights, the Scotch Tweed Suits, single and double breasted at \$5, \$6, \$8 and \$10, and a variety of Children's Clothing, which we are positive you will not see elsewhere, at \$1.45 to \$2.50. Our New Clothing Window Display will give you an idea of the kinds of Clothing we have on hand. They are sold.—Jas. Paton & Co.'s All guaranteed Clothing, Jas. Paton & Co.—w 25.

Boys' Good Clothing.

In most large stores the Boys' Clothing Department is the least thought of, and the way they are run they don't deserve much thought either.

We started our Boys' Clothing Department on different lines—we are thinking less of low price and thinking more of good clothes. We've raised the standard considerably, and strange to say, the price is not as high as you usually pay for the shoddy kind.

U., who gave an interesting and instructive address, throwing light upon many departments of W. C. T. U. work. Mrs. Rutherford told of the missionary work done among the immigrants in the Northwest in the way of supplying them with literature, also the work done among lumber men—\$1000 being spent in that work alone. She also told of the work done by the "Round the World Missionaries," making special reference to the work done in Japan under the superintendence of Mrs. Large. Mrs. Rutherford told of a special effort made by a certain Y. P. S. C. E., who held meetings every Wednesday afternoon for six weeks to which all mothers in the locality were specially invited, by house to house visitations. Among other subjects discussed were temperance, literature and hygiene in the home. She spoke also of the Temperance Hospitals of Chicago and London, in which the percentage of deaths is lower than those in which alcohol is prescribed. We hope the influence of the visit of the representative of the Dominion W. C. T. U. will be long felt in our city.
