They cured him or me let it be said: "My wife and I have used in all about 25 boxes of Dodd's Kidney Pills and I can certainly recommend them very heartily as a cure for lame back for they cured me, and I never heard of a worse case than mine."

KEROSENE LAUNCH CROSSED THE ATLANTIC

Captain Newman and His Son Made the Trip in Thirty-Six Days—They Rarely Used their Sails.

FALMOUTH, England August 18.—Captain Newman and his son, Edward arrived here to-night in the thirty-eight foot kerosene launch Abiel Abbot Low, in which they sailed from New York July 9th.

In an interview Captain Newman said: "The launch has proved herself a noble boat, but we experienced awful times since we left New York. Several times in terrible gales, we nearly lost our drag anchor, owing to the gear chafing away. We voyaged 3,108 miles. We had great trouble with the kerosene, because the tanks which held it broke and the oil flooded the cabin. My boy became ill and homesick. I suffered greatly from ex-

posure and long sitting in one position. We spoke the Red Star Line steamer Krooland August 1st in mid-Atlantic.

"After this we encountered a series of most severe gales, and the hardships were so great that I feared we could not survive. We did not speak to another vessel until August 13, when we met a fisherman ninety miles off the Scilly Islands. Those last ninety miles were the longest I ever ran in my life. I would not hesitate, however to try the voyage again."

The voyagers rarely used the sail on the launch. Captain Newman lost thirty pounds in weight on the trip, but his son seems to have derived benefit from the experience.
