

A SEVERE COLD

DEVELOPED INTO PNEUMONIA.

Doctors Said He Would Not Live.

DR. WOOD'S NORWAY PINE SYRUP Cured Him.

Too much stress cannot be laid on the fact that when a person catches cold it must be attended to immediately, or serious results are liable to follow.

There is only one way to prevent pneumonia, and that is, to cure the cold just as soon as it appears.

Dr. Wood's Norway Pine Syrup will do this quickly and effectively.

Mr. Hugh McLeod, Esterhazy, Sask., writes: "My little boy took a very severe cold, and it developed into pneumonia. The doctor said he would not live. I got some of your Dr. Wood's Norway Pine Syrup, and he began to improve. Now, he is a strong healthy child, and shows no sign of it coming back."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

ANNUAL REPORT OF THE SUN LIFE ASSURANCE COMPANY.

The annual report of this Company appearing in another portion of this issue, furnishes interesting reading to those carrying policies in the Company and to the public in general. Insurance, particularly life, furnishes a very fair gauge of financial conditions. Such being the case, the report of the Sun Life gives a strong indication of the very healthy state of Canada's fiscal affairs.

The report shows a total volume of business in force of \$164,372,973, or an increase of \$21,022,798 over the previous year.

New Assurances have been increased over 1910 to the extent of \$2,324,403, and the income from rents, interest, etc., by \$981,881.

A surplus of \$1,243,763 is shown for the year, and the total surplus of the Company is \$4,736,973. Since the Company's inception the enormous amount of \$29,670,271 has been paid out to policy holders.

These figures and the more complete ones as given in their published report illustrate the solidity and enterprise of the Sun Life. The secret of the success of the Company's operations lies in the fact that their policy-holders first—their investments have always been made in the safest and strongest positions, and that their management is composed of men whose known probity and business acumen gives to them the unhesitating confidence of their business associates and the public at large.

MOVING PICTURES OF CLARK IN ACTION

WASHINGTON, March 11—Speaker Champ Clark posed today for the moving picture machine, and the film will be exhibited for campaign purposes in practically every city and town in the United States.

The moving apparatus was rigged up on the floor of the House today, and the Speaker was photographed presiding over an imaginary session of that body. Grouped about the Speaker's table were the official stenographers of the House, the clerks, pages and doorkeepers, all of whom moved about and appeared to be working for the benefit of the moving picture man.

MEN AND RELIGION ADS. ON SPORTING PAGES OF NEW YORK DAILIES.

NEW YORK, March 10—The publicity commission of the Christian conservation congress which meets here April 19-24, in connection with the Men and Religion Forward Movement, placed with all of the New York daily newspapers tonight copy for advertisements of a religious nature which will be displayed on the sporting pages daily for the next six weeks.

The innovation is one of many which are being tried here to bring home to the people the call of the churches for men. The movement is declared to be absolutely non-sectarian, and reflects this in the first advertisement which reads:

"There are 880 Protestant and Catholic churches in Greater New York and 107 synagogues. These all have a message for men which men need. Lift up your living and your thinking."

Another advertisement puts the churches' case in fashion: "The churches are not perfect, but their faces are turned that way. Why not help lift them up? If you are not better, perhaps they can help you. Let us get together for man's good and God's glory."

THE HOME VOICE.

Have you ever noticed the close relationship between the home voice and the home atmosphere? And as the atmosphere is the sensitive, tangible thing, it is affected by the voice, not the voice by the atmosphere. If the head of the house, whether it be the husband or the wife, has a whining voice, the atmosphere of that home is apt to be depressed. Everything is limp, so to speak, and spineless. Even the draperies hang in dejected folds. Nothing ever is right or bright or cheery. The home is a centre of complaints.

In the home where the dominant voice is gruff or surly, an atmosphere of antagonism seems to prevail. Nobody seems to want to do what he ought to do. His manner implies a protest, a sulky compliance. "Take again the patronizing voice in the home, the voice that condescends to tell the others what they should do. The family sit uneasily under it. There is a feeling of subjection in that home, a lack of individuality. How actual sunshine seems to reign in the home of the cheery-voiced."

mistress! Her voice rings with hope, with good nature. Energy, life, movement are expressed in it. You feel that the day's work in that house swung along merrily. You feel that it is done thoroughly, done systematically, done happily. And all this is no mere fancy. The voice is expressive of the mental state; and the mental state of the dominant member of the family does affect the homier why her home does not seem bright and happy. She may be conscientiously trying to manage it right, and yet all the time she may be affecting it by this voice of her inner self.
