NOSE CLOGGED FROM A COLD OR CATARRH Apply Cream in Nostrils To Open Up Air Passages. Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone. Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid!

HOW TO GET MORE MONEY FOR MILK. The following suggestions to dairymen covering the care of milk if put into general practice twice a week would undoubtedly result in a better quality of manufactured product and that in turn would demand higher price. 1.—Be sure that you are producing clean milk from healthy cows, and that your cost of production is not too high. 2.—Keep only cows that are good and persistent milkers—5,000 to 8,000 pounds per year. 3.—Clean up your barns and cows and keep them clean. Clip long hairs on the cows' udders, bellies and tails. 4.—Replace rusty cans with new ones. 5.—Put a coat of whitewash all over the inside of your cow barns twice each year. 6.—Let in all the sunlight you can. 7.—Give the milkers something clean to put over their milking clothes when milking. 8.—Improvise something for each man to wash his hands in before milking. 9.—Provide a dry towel for him on which to dry his hands before milking. 10.—Have the milk from each cow carried by the milker to another room from that in which the milking is done. 11.—Have the milk cooled quickly as possible and bottled. See that this is done day and the improved product command an increased price—co-operation among the producers is maintained.
