

MY DARLING - HOW THOUGHTFUL

Do you ever wonder if she'd like to be given flowers? Take a look at the man behind the daffodils for your answer. She'll like bright, sunny daffodils too; for the breath of Spring they bring. They aren't expensive, yet daffodil gayness and your thoughtfulness in sending flowers, bring a wealth of warmth to her heart.

British Labor Party Prepares For Election

LONDON, March 24 (CP) — In a plain store building around the corner from the House of Commons, Labor Party planners today put the finishing touches on a policy statement for the 1950 general election.

It is understood that the 18,000-word document will review the achievements of socialism's first epoch of power in Britain and outline the principles which will guide the party, if it is returned to office. It will be the 1960 counterpart of the "let us face the future" statement on which Labor fought and won the 1945 election. Labor held office twice before — in 1924 and 1929 but only as a minority government.

P. E. I. Junior Red Cross Leads World

The Junior Red Cross of Prince Edward Island holds the enviable record of being the greatest organized unit of its kind in the world. Of the 700 schools in the Province over 600 now have Junior Red Cross Groups. For the past several years the Junior Red Cross has sent hundreds of dollars worth of clothing, food, and school equipment to the children of Europe. As a token of their thanks the Junior Red Cross in Norway, Greece, Poland and France sent a set of hand-made dolls to their Canadian friends. In the above picture, Red Cross members are shown examining these beautifully made dolls characteristic of the country of its origin. The Junior Red Cross members above are Joyce MacLeod, Wilfred Kennedy, Phyllis Clark and Jeanne Pickard, all of Charlottetown. One of the group told the story of how they had helped a little farm boy in this province. They found that little Frankie was unable to attend school like the other boys of his age because he had only one foot. Because he was eager to help with the farm work around his home, Frankie lost his foot last July. While helping his father mow the hay, Frankie came too close to the mowing machine. Before the machine could be stopped, Frankie's foot was badly gashed, requiring complete amputation at the hospital. As soon as the leg was healed, Frankie was provided with an artificial foot by the Junior Red Cross and he is now able to walk, skate, and ride a bicycle just as well as his other little friends. The Junior Red Cross — 865,000 strong in Canada — is even now planting the seeds for a future world peace — strong and lasting. By corresponding with Junior Red Cross members of other lands . . . by creating international understanding and friendship, the Canadian Junior Red Cross is forging bonds of friendship between nations. Through the Canadian Junior Red Cross, children are taught the practice of good health; child victims of wars are aided; hospitalized veterans are served; handicapped children are helped. Every year thousands receive training in home nursing and first aid. This Red Cross training today will save lives tomorrow! The Red Cross is a living part of Canada. To continue to live it needs YOUR aid. It needs every dollar you can spare. Give — generously — to your Red Cross NOW!
