CORPORAL DANIEL MCKINNON.

The home of Mr. and Mrs. Daniel McKinnon, North Wiltshire was saddened by the news that their son Daniel was reported killed in action on August 12th. He was twenty-two years of age last February. He enlisted in the 105th in November 1915 and after a period of training in Canada he went to England early in May 1916. He remained for a time in England and was engaged as military instructor. He attained to the rank of Corporal during this time. He was anxious to get into active service and in order to do this at once he voluntarily reverted to the rank of Private. He went to France in March of the present year and after five months of trench warfare he made the supreme sacrifice.

He was deservedly popular and was held in high esteem by all who knew him. Besides his sorrowing parents there are left to mourn six sisters and four brothers. The sisters are: Mrs. Nicholson of Georgetown, P. E. I.; Mrs. Brusio of Malden, Mass.; Mrs. Elmer Clow and Mrs. G. B. SPANISH INFLUENZA RAGES IN CANADA

Thousands of Cases Reported With Many Deaths.

THOSE WHO ARE MOST SUSCEPTIBLE TO IT

"FRUIT-A-TIVES"—The Wonderful Fruit Medicine—Gives the Power To Resist This Disease.

The epidemic of Spanish Influenza which played such havoc in Europe, has reached this continent. Thousands of cases of the strange, deadly disease have appeared and many deaths are already reported; Surgeon-General Blue of the United States, Public Health Service having stated that "Spanish Influenza will probably spread all over the country in six weeks."

Practically every ship which touches our shores from abroad, brings those infected with the disease.

Surgeon-General Blue urges that "the individual take all the precautions he can against contracting the disease by care and personal hygiene." Plenty of exercise should be taken, the diet should be regulated, etc.

Spanish Influenza affects most severely elderly persons and others whose powers of resistance are weakened by illness, work of worry, especially those who are "run-down" or "not feeling up to the mark."

The really great danger from the disease is not so much in the disease itself, as that it often develops into pneumonia.

What everyone needs now is a general tonic like "Fruit-a-tives." This wonderful fruit medicine is not a germ-killer. It is a body-builder; a strength-maker; a blood-purifier; a power in protecting against the ravages of disease.

"Fruit-a-tives" regulates the kidneys and bowels, wasting these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and purifies and enriches the blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, insuring food being properly digested and assimilated.

Everyone can take ordinary precautions, avoid crowded places, and use "Fruit-a-tives" regularly to insure sound digestion, to keep the bowels and kidneys regular and the whole system in the best possible condition. Then we are safe from disease.

"Fruit-a-tives" is sold by dealers everywhere at 60c a box, 6 for \$2.50, trial size 25c per postpaid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

Save Food

In a time needing food economy many people are not getting all the nourishment they might from their food.

It is not how much you eat, but how much you assimilate, that does you good.

The addition of a small teaspoonful of Bovril to the diet as a peptogenic before meals leads to more thorough digestion and assimilation and thus saves food, for you need less.
