CIVIL ACTION PENDING IN LOGAN CASE

Liberal Senator Expected To Make Statement Shortly.

(Canadian Press)
OTTAWA, Oct. 14.—The sinking of a lumber-laden three masted Nova Scotia schooner, the Gypsum Queen, early on a June morning in the submarine infested waters off the Irish coast, in 1916, had its repercussion in the Canadian Senate today. Rt. Hon. Arthur Meighen, Government leader, announced that civil action had been taken to recover \$71,000 paid as reparation for this loss of the vessel, and that "a member of this honorable House" was one of those who received the money from the Treasury of Canada.

Hon. Hance J. Logan, Senator from Cumberland, N.S., was the member referred to. Senator Logan acted as counsel for Captain Freeman Hatfield, owner of the Gypsum Queen, in the reparations claim which was based upon declarations that the vessel had been torpedoed by a German submarine.

Was Not Torpedoed

A Royal Commission appointed last winter in the person of Chief Justice Horace Harvey, of Alberta, found that the Gypsum Queen was not torpedoed, but foundered in a storm. The commissioner strongly condemned the part in the transac-

Sir Herbert Now Home Rule Advocate

(Canadian Press)
GLASGOW, Scotland, Oct. 14.—Sir Herbert Samuel, who resigned from the office of Home Secretary in the National Government because he was opposed to tariff increases, tonight pledged himself and his followers to strive for home rule for Scotland.

Sir Herbert told a deputation of the Scottish Nationalist party here that he and his followers had reached unanimous agreement recently favoring home rule for Scotland and "as far as our powers extend we won't allow it to be put aside or postponed."

ARREST MADE IN TRIPLE KILLING

CONNELLSVILLE, Oct. 14.—(By The Canadian Press)—Beaten when his mother, grandmother and sister were slain, Billy Tressler, nine, rallied today and from his hospital cot told police the names of two men whom he said struck him.

Three men; Cloyd Harden, 28, Billy's uncle; Phillip Renda, 50, Billy's mother's suitor, and George Lohr, 30, who was friendly with Mrs. Tressler several years ago, are under arrest in connection with the triple killing.

The boy has hovered between life and death since he was attacked Tuesday night. He improved today and police who have been at his bedside constantly questioned him. The child seemed lucid and gave clear, straightforward answers.

Chief of Police John C. Wall asked him: "Who hit you?"

The boy gave the name of one man and later mentioned another man whom he said also struck him.

"With what?" Wall asked.

"With a knife."

"How many times?"

"He hit me three times."

"Who else was in the house?"

"Mama."

"Who else?"

"Grandma."

"Where was Sadie?"

Sadie, 11, the boy's sister; his mother, Mrs. Nellie Tressler, 28, and his grandmother, Mrs. Amanda Harden, 62, were found clubbed to death in the Tressler home.

"Sadie was out," Billy replied.

"Out where?"

"Outside."

The questioning was stopped as Billy grew tired. He doesn't know his mother, grandmother and sister are dead.

Harden was taken into custody Wednesday night when he walked into the police station and asked to see the bodies and sought details of the crime. Renda admitted he visited the Tressler home Tuesday night, but said the family was in good health when he departed about midnight.

JUDGMENT RESERVED

OTTAWA, Oct. 14.—The Supreme Court of Canada today reserved judgment on the appeal in behalf of eight aliens who have been detained by the Immigration Department in Halifax for over six months. Picked up at various points throughout Canada on charges of being advocates of violent action against constituted authority in the Dominion, the men were recommended for deportation to their European birthplaces after immigration boards of inquiry had studied their cases early last spring.

Their case has passed through the hands of a Supreme Court Judge of Nova Scotia, Mr. Justice W. F. Carroll, and the full Bench of the Nova Scotia Supreme Court, both of which refused to order their release under habeas corpus proceedings.

In the meantime the case of the appellants has been pending de-

DEPORTED

(Canadian Press)
BELFAST, Northern Ireland, Oct. 14.—Tom Mann, British left wing Labor leader, who came here to address unemployed meetings was deported today after he had served as a pall bearer at the funeral of one of the two victims of this week's jobless riots. Mann was escorted by four detectives to the boat for Heysham, Lancashire. He was put aboard about an hour before the ship sailed and asked to remain in his cabin. There was a demonstration in connection with his departure. Interviewed on the vessel, Mann said police stopped him as he was leaving the funeral.

•••Sports and Tug-of-War at Seven Mile Bay, Monday, Oct. 17. Admission 5 and 10 cents, 5843-10-11-21.

TESTS FOR THE POTATO BEETLE ARE MADE

Clean Shipments, With Resultant Possible Removal Of Embargo, Aim.

EAST FLORENEVILLE, Carleton Co., Oct. 14.—The crushing machine for preparing potatoes in such a way that there is no possibility of their harboring the potato beetle has been placed in the potato warehouse of McCain Produce Co. here and potatoes are being put over it direct from the field. Representatives of the federal Department of Agriculture were present to supervise the process. Several shippers also availed themselves of seeing the work, including, Burt Gilff, Centreville, H. H. Hatfield, Hartland, Charles Clark, Woodstock C. Gallagher, Bath, and Walker S. Potts, Saint John, district agricultural inspector.

Later the party went to the office of the company and held an informal meeting. It was decided to send a delegation to wait on the Provincial Government Department of Agriculture, and ask them to provide these machines at Saint John, to prepare potatoes for possible shipment to Great Britain, the shippers to remunerate the government at so much per package for such services. The delegation hopes to meet the government on this matter at an early date.

It is hoped to prove that the potato beetle will not be carried on potatoes and that, if this is made a certainty, the British embargo on Canadian potatoes will be removed.

Peace And Quiet Of Senator Hughes Disturbed By Noise

OTTAWA, Oct. 14.—Even Senators, in their moments of relaxation, become boisterous and noisy. At least that was the complaint made in the Red Chamber yesterday by Senator J. J. Hughes, of Prince Edward Island. Members of the Senate and their friends gathered in the reading room, Senator Hughes declared, and made so much noise that a man of peace and quiet could not endure it.

"If that is against the rules it should be stopped," Senator Hughes declared, "and if there is no rule against it the rules should be amended."

Rt. Hon. Arthur Meighen, government leader in the Senate, promised to investigate the complaint.

Mother And Babes Meet Horrible Fate

(Canadian Press)
PORT ALBERNI, B. C., Oct. 14.—A Japanese mother and her two small children are dead, their bodies mutilated by knife wounds inflicted in their home here late last night. The children were dead when found and the mother died in hospital. City and provincial police aided by citizens are searching for G. Asuka, pulpwood logger, father of the dead babies.

Summoned to the Japanese house late last night by neighbors, police found the place a shambles. In a small cot lay the body of a three year old child hacked by a knife, and beside the woman in a welter of blood lay a tiny infant, but a few weeks old. It too had been stabbed to death. The mother of the babies had also been terribly wounded by thrusts from a knife, apparently while asleep in her bed.

IS STILL AT WORK

FOUNDER ROYAL CANADIAN ART ACADEMY
Founder of the Royal Canadian Academy of Art, T. Mower Martin, Toronto has not laid down the brush which has given him a national reputation. Above he is putting the finishing touches to a mountain scene. In the foreground is evidence of his feeling for wild life.

SUNDAY'S FRENCH ELECTIONS

(Canadian Press)
PARIS, Oct. 14.—Radical Socialists, whose leader is Premier Edouard Herriot, predicted today their position in the Senate would be strengthened by Sunday's election in which 32 departments will send 118 members to that august chamber. Their prophecy, however, did not find universal acceptance and the majority opinion appeared to be that Sunday's elections would make little difference to the party complexion of the Upper House. Meanwhile the number of candidates who will stand for election in the 32 departments from Haute Garonne to Oise increased with the approach of election day. In some departments as many as six or seven candidates are contending for one seat.

INQUIRY INTO COAL PRICES

(Canadian Press)
OTTAWA, Oct. 14.—No decision has yet been reached by the Government as to whether an inquiry would be instituted into coal prices. At the office of Hon. W. A. Gordon, Minister of Labour, it was stated tonight he had not yet received any notification from Senator Arthur Meighen, Conservative leader. The feeling here however is that if requested an inquiry will be held.

Yesterday in the Senate, Senator Rodolphe Lemieux said there was a growing impression that a combine existed in maintaining the prices of coal and asked that an inquiry be held. Senator Meighen said he would draw the complaint to the attention of the Minister concerned.

Soon May Solve Naval Problems

LONDON, Oct. 14.—(Special) Increased good-will for the solution of Anglo-American naval problems was revealed today, it was learned from an authoritative United States source, at conferences participated in by Prime Minister Ramsay MacDonald, Sir Bolton Eyres-Monsell, First Lord of the Admiralty, and Norman H. Davis, United States delegate to the Geneva Disarmament Conference.

Mr. Davis talked with Mr. MacDonald for an hour and a half this morning at No. 10 Downing Street, the Prime Minister's residence, and saw Sir Bolton this afternoon.

The discussions ranged over the whole field of Anglo-American naval affairs, although the conferees did not get down to technical questions. Both parties were reported much satisfied with the course of the conversations.

Mr. Davis also conferred with Sir Walter Layton, eminent British economist, on the prospects for the impending World Economic Conference.

36 HOURS IN HANDS OF PIRATES

British Steamer Seized By "Chivalrous" Chinese, Who Depart With Loot When Danger Threatens.

(Canadian Press)
HONG KONG, Oct. 14.—The British steamer Helikon came into port today after having been for 36 hours in the hands of pirates who distinguished themselves by according chivalrous treatment to Mrs. Dirk Van Driest, a Canadian, and Miss Edith Boynton, an American, two of the passengers. The two women were kept captive in their cabins after their jewelry had been taken, but before the pirates abandoned the ship they returned the jewels.

"To think that I would have spent thirteen uneventful years in China and on the day that I leave this should happen," said Miss Boynton.

"Two Chinese passengers were de-

Fathers' Age Affects Mental Talents At Birth

(Special to The Guardian)
NEW YORK, Oct. 14.—(A.P.)—A child begotten by a father aged more than 70 has 50 times better chances of inheriting rich mental talents than one whose father was under 45.

To prove this a study of 1,000 persons of outstanding capability in the 14th edition of the Encyclopaedia Britannica is published by A. F. Dutton of Hertfordshire, England, in the British official scientific journal Nature.

The same tables showed children begotten by fathers of more than 45 have twice the chances of inherited capability. The chances are ten fold with paternal age more than 60.

These studies tend to revive a waning scientific faith in a method for human beings to improve themselves from generation to generation. The method is the famous Lamarck hypothesis, a corollary of evolution, which holds that in the process of natural selection acquired capabilities can be transmitted to offspring.

In other words a person who works hard enough to become a better man can somehow transmit some of this acquired character to his children. Not so has been the recent preponderance of scientific experiments aimed at discovering whether Lamarck was right.

Thus in laboratories scientists have cut off a certain leg of a low order of animal generation after generation, but never it is said has this lack of a leg resulted in young that inherited the "acquired" leglessness of their elders.

Mr. Dutton says his attention was attracted to the possibilities that inheritance of acquired talent might become evident in children of aged fathers by the "noteworthy" numbers of eminent men be-

Skull Fractured In Car Crash

(Canadian Press)
YARMOUTH, N. S., Oct. 14.—Seriously injured in an automobile accident Wednesday morning, Angus Sampson still was unconscious late tonight. Reports from the hospital indicated a slight improvement in his condition, however, and doctors said there was an even chance for his recovery. He had rallied several times during the day, but only to semi-consciousness. His skull was fractured when a car driven by J. Goodwin of Tusket left the road and overturned.

Western N. S. Lobster Fishing Regulations

(Canadian Press)
OTTAWA, Oct. 14.—The lobster fishery regulations for the western Nova Scotia district, which extends from Burns Point, Digby County, to Cole Harbour, Halifax County, have been amended by Order in Council so as to authorize a fishing season in that area from the first of December in each year to the last day of May following, with a minimum size limit for lobsters of nine inches. Information to this effect was given out at the Department of Fisheries today.

CAN. DOLLAR TAKES JUMP ON U.S. MART

(Canadian Press)
NEW YORK, Oct. 14.—The Canadian dollar was the outstanding feature of trading today on local foreign exchanges.

Closing at 91 3-4 cents in United States funds the Dominion's currency reached another new 1932 high. This figure represented a gain of 3-4 one percent over Thursday's final quotation.

The dollar opened strong at 91 1-4, advanced to 91 7-16 at noon and closed at its high.

Bankers here attributed the strength to heavy exports of wheat and keen demand for the dollar in New York and London.

Proposed New Name For Can.

(Special to The Guardian)
OTTAWA, Oct. 14.—The House of Commons will be asked at the present session to record its opinion that the name of Canada should be changed from the "Dominion of Canada" to "Kingdom of Canada."

Armand Lavergne, Deputy Speaker of the House and Conservative member for Montmagny, has given notice of a resolution declaring that "in view of the Statute of Westminster, the traditions of the Canadian people and the constitution of the country," this change in name should be made.

In The Interest Of Homeless Unemployed

(Canadian Press)
OTTAWA, Oct. 14.—Construction of a portion of the trans Canada airway system, repairs and renovations to the citadels in Quebec and in Halifax constitute the main program of the Department of National Defence to be undertaken this winter in the interests of the homeless unemployed. Details of the plan were contained in an Order-in-Council tabled in the House of Commons. The cost to the Government will be \$500,000 and the total number of men used on the projects will be limited to 2,000. They will be supplied with shelter, food, clothing and care, and be paid an allowance not exceeding 20 cents per day. The work will cover the period from Nov. 1 to March 31.

As previously announced the scheme will involve the purchase of the necessary sites on which the Department will establish emergency landing fields as a part of the trans-Canada airways system.

Skull Fractured In Car Crash

(Canadian Press)
KENTVILLE, N. S., Oct. 14.—Apple shipments from Nova Scotia to England this week included a consignment to the Imperial Fruit Show, to be held at Birmingham from October 21 to October 29. It included thirty barrels from the United Fruit Company and a number of carloads, boxes, barrels and half barrels from a group of Berwick shippers.

GERMANY IN ROLE OF DICTATOR

Rejects Geneva As Scene Of Four Power Conference.

(Canadian Press)
BERLIN, Oct. 14.—Foreign Minister Konstantin Von Neurath informed the Cabinet tonight that Germany had rejected Geneva as the scene of a four power conference to consider Germany's demand for equality in armaments.

It was also learned unofficially from authoritative quarters that Geneva, Switzerland, near Geneva, was equally objectionable from the German standpoint. Germany previously had approved of London as the setting for the British proposed conference among Great Britain, France, Italy and Germany.

Many Official Quarters Looked Upon The Prospects For A "Disarmament Conference Materializing Soon" As Further Reduced.

The Catholic newspaper "Germania," organ of former Chancellor Heinrich Brüning who was supplanted by the present Junker government of Chancellor Franz von Papen, today supported the Cabinet on this point.

"It is an impossible presumption," the newspaper said, "to invite Germany to a place charged at the outset with Francophile and League of Nations influences."

These developments followed a statement earlier today that if Geneva were chosen for the four power discussions, Germany's demand for equality must first be settled.

From an official quarter, it was learned that otherwise, Germany took the position that she might find herself, so to speak, pushed through the back door into the world disarmament conference again with the point of equality still unsettled.

The government believes such a situation must be avoided.

NEW YORK, N. Y., Oct. 14—Harold Joseph Simpson, the "Bullet Joe" of Selkirk, Man., hockey fame, has been appointed coach of the New York Americans of the National Hockey League.
